Reflections On The Revolution In France 1968 Pelican:

May 68 in French Fiction and Film Margaret Attack, 1999 This is the first study of May 68 in fiction and in film It looks at the ways the events themselves were represented in narrative evaluates the impact these crucial times had on French cultural and intellectual history and offers readings of texts which were shaped by it The chosen texts concentrate upon important features of May and its aftermath the student rebellion the workers strikes the question of the intellectuals sexuality feminism the political thriller history and textuality Attention is paid to the context of the social and cultural history of the Fifth Republic to Gaullism and to the cultural politics of gauchisme The book aims to show the importance of the interplay of real and imaginary in the texts of May and the emphasis placed upon the problematic of writing and interpretation It argues that re-reading the texts of May forces a reconsideration of the existing accounts of postwar cultural history The texts of May reflect on social order on rationality logic and modes of representation and are thus highly relevant to contemporary debates on modernity

Aristocratic Souls in Democratic Times Richard Avramenko, Ethan Alexander-Davey, 2018-05-07 Great statesmen and gentlemen men of honor and rank seem to be phenomena of a bygone Aristocratic era Aristocracies which emphasize rank and value difference quality beauty rootedness continuity stand in direct contrast to democracies which value equality autonomy novelty standardization quantity utility and mobility Is there any place for aristocratic values and virtues in the modern democratic social and political order This volume consists of essays by political theorists historians and literary theorists that explore this question in the works of aristocratic thinkers both ancient and modern The volume includes analyses of aristocratic virtues interpretations of aristocratic assemblies and constitutions both historic and contemporary as well as critiques of liberal virtues and institutions Essays on Tacitus Hobbes Burke Tocqueville Nietzsche as well as some lesser known figures such as Henri de Boulainvilliers John Randolph of Roanoke Louis de Bonald Konstantin Leontiev Jose Ortega y Gasset Richard Weaver and the Eighth Duke of Northumberland explore ways of preserving and adapting the salutary aspects of the aristocratic ethos to the needs of modern liberal societies

Poststructuralism, Philosophy, Pedagogy J.D. Marshall, 2006-01-18 This book has been quite long in the making In its original format but with some different chapters and with the then publisher it foundered as did other volumes in the planned series At the in press stage when we obviously thought it was going ahead it was suddenly canned Quite distraught I closed it away in a desk drawer for a year or so But then Joy Carp of Kluwer Academic Publishers expressed an interest in it and we were in business again Most of the contributors to the original volume have stayed with it only to be delayed by myself for a variety of reasons but see the dedication I had been writing on Michel Foucault for a number of years but had become concerned about misappropriations of his ideas and works in educational literature I was also concerned about the increasingly intemperate babble in that literature of the notion of postmodernism Indeed at one major educational conference in North America I listened to a person

expounding postmodernism in terms of Destroy Destroy Destroy Like Michel Foucault I am not quite sure what postmodernism is but following Mark Poster's account of poststructuralism as merely a collective term to catch a number of French thinkers I thought that what we had to do in education was to look at what particular thinkers had said and not become involved in vapid discussion at an abstract level on isms Thus the book was conceived *The Federal Courts* Richard A. Posner, 1999-09-15 Drawing on economic and political theory legal analysis and his own extensive judicial experience Posner sketches the history of the federal courts describes the contemporary institution appraises concerns that have been expressed with their performance and presents a variety of proposals for both short term and fundamental reform

A People's History of the Cold War Colin Turbett, 2023-03-23 Between the closing battles of the Second World War and the collapse of the Soviet Union in 1991 the Cold War cast a shadow over the lives of people throughout the world while open conflict was avoided between the ideologically competing superpowers and their principal allies millions died in battlegrounds in parts of the world that were usually far from Moscow Washington and London The threat of nuclear annihilation was omnipresent but at the same time mutually assured destruction tempered conflict and focused minds Subtle and not so subtle attempts to influence popular opinion either way were apparent in everyday life on both sides of the divide while the power of the dollar and the burgeoning costs of the arms race eventually broke the Soviet economy the idea that capitalism won the Cold War seems misplaced especially if one considers events that have happened since including very recent armed conflict The book takes the reader through main events of the period but focuses on the impact on ordinary citizens East and West and the view of events from their perspective This is a story of how economies on both sides were built around war preparations and the advance of destructive technologies that had no social benefits apart from the provision of employment Sources used are unusual in not fitting the western based narratives that pervade both academic histories and popular accounts However this book is not an apology for the more oppressive aspects of Soviet policy as the USSR struggled to build really existing socialism within its own borders and the Eastern Bloc countries under its immediate influence Instead it brings a people's perspective from both sides onto this important period of recent history whose consequences are very much still with us as we face modern challenges around climate change and growing inequality across our world *A People's History of the Cold War* Stories from East and West captures the mood of the times with its extensive contemporary illustrations **The People's Democracy, 1968-1973** Denis Ireland, Paul Arthur, 1974 **Joseph de Maistre's Life, Thought, and Influence** Richard Lebrun, 2001 In Joseph de Maistre's Life Thought and Influence leading Maistre scholars offer interpretations of his thought and make available in English recent French scholarship on his life and work They provide a portrait of Maistre as a significant thinker in numerous fields upsetting the image of him as a backward looking reactionary a reinterpretation furthered by contemporary interest in Counter Enlightenment thought in general

Ideological Perspectives on Canada M. Patricia Marchak, 2011 In Ideological Perspectives on Canada Patricia

Marchak builds on her earlier descriptions of Canadian reality its liberalism and socialism to argue that today's corporatism differs from its forerunners in both its values and its definition of society Marchak argues that liberalism and socialism have many commonalities such as the goals of equality and freedom for citizens Corporatism however is opposed to equality and promotes an authoritarian hierarchy resembling the older conservative ideology To support her argument Marchak provides a general overview of the study of ideologies analyzes liberalism and socialism in the context of Canada and uses Marxist theory to explain past and present class structure and the emergence of a corporatist social structure A valuable contribution to the debate about the society we live in Ideological Perspectives on Canada attempts to look at ideologies from an objective standpoint while admitting that analysts can never fully remove themselves from the web of their own society which in the Canadian case is steeped in liberalism socialism and corporatism
