Religious Consciousness and Experience Thomas N. Munson, 2012-12-06 It is one of the ironies of our times that as the practice of religion wanes a theoretical interest in it on the part of many anthropologists psychologists sociologists and philosophers waxes Among these only philosophers bring to their task a long history of theological and religious relations Hence their renewed interest has been hailed as a break down of isolationism heralding perhaps a new era of interdisciplinary peace To celebrate this new ecumenism a Chicago seminary consistently with its purpose sponsored a colloquium to explore the future of philosophical theology If some of its participating professional philosophers initially felt a twinge of embarrassment over their presence at an ostensibly theological meeting they soon were at ease No one was called upon to define the topic or even to suggest its relationship to a philosophy of religion Conveniently everyone could roll up his sleeves and get to work on a job he personally felt needed doing Can we wonder that the lay observer appeared somewhat confused Was the purpose to analyze God talk or to find a place for God in a metaphysical scheme Or if not these something else It soon became evident that the participants in the colloquium ranged from the free swinger to the severely inhibited depending upon the role each assigned to dogma and creed

The Concept of Faith William Lad Sessions, 1994 Faith lies at the heart of human life and not just in religious contexts But just what is faith In this book William Lad Sessions ventures a new approach to this age old problem Viewing it in global terms he provides an effective and insightful set of analytical tools for deepening our understanding of the ideas of belief
