Church in China: Faith, Ethics, Structure Aiming Wang,2009 The Protestant Church in China is growing very fast However the role of the Church in society is still fragile and marginal The Church needs a strong ethical and structural development This study analyses the theological ethical and ecclesiological heritage of the Reformation and it shows how this can build the

foundation for the future of the Church in China Four models serve as orientation the Reformers Luther and Calvin and the theologians Bonhoeffer and Barth in the 20th century with their vision of Christian faith and a humane society The critical analysis of the missionary heritage since the 19th century shows its contribution for the acceptance of the tradition of the Reformation for the growing Church in China The author combines this theological and ethical perspective with the inculturation in the strong ethical tradition of the Chinese culture He proposes the encounter between the spirituality of the Western culture and that of the traditional culture of China through the relationship with Confucianism The book also offers elements for the dialogue around modern values such as human rights and civil society In this dialogue Chinese

Protestantism can play more and more an important role *The Death of Meaning* R. J. Rushdoony, 2018-03-26 For centuries on end humanistic philosophers have produced endless books and treatises which attempt to explain reality without God or the mediatory work of His Son Jesus Christ Modern philosophy has sought to explain man and his thought process without acknowledging God His Revelation or man's sin God holds all such efforts in derision and subjects their authors and adherents to futility Philosophers who rebel against God are compelled to abandon meaning itself for they possess neither the tools nor the place to anchor it The works of darkness championed by philosophers past and present need to be exposed and reproofed In this volume Dr Rushdoony clearly enunciates each major philosopher's position and its implications identifies the intellectual and moral consequences of each school of thought and traces the dead end to which each naturally leads There is only one foundation Without Christ meaning and morality are anchored to shifting sand and a counsel of despair prevails This penetrating yet brief volume provides clear guidance even for laymen unfamiliar with philosophy
