Reforming The State Fiscal And Welfare Reform In Post Socialist Countries:

Reforming the State János Kornai, Stephan Haggard, Robert R. Kaufman, 2001-01-15 The essays in this volume first published in 2001 examine fiscal policy making and providing for social welfare in post socialist countries *Social Service Reform in the Postcommunist State* Janelle A. Kerlin, 2005 In this detailed study Janelle A Kerlin demonstrates how and why reforms intended to improve services and increase citizen participation in social service programming largely failed to meet expected goals The politics of reform development including political deals exclusionary tactics and hidden maneuvering by Polish policymakers prevented any significant upgrade of services or real change in decision making structures Kerlin uses focused interviews with leading reform actors and a nationwide representative survey of two hundred public social service institutions to develop a model that connects the politics of the decentralization process with social service outcomes Not only students of the former Soviet bloc but also those interested in the links between politics and policy outcomes more broadly will find in this volume an informative and instructive case study that has far reaching implications **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved *Enterprise and Welfare Reform in Communist Asia* Peter Ferdinand, Martin Gainsborough, 2003 Featuring a wide geographical scope this collection of essays surveys enterprise and welfare reforms in all the remaining four Asian communist states China Vietnam Laos and North Korea Since the collapse of the Soviet Union they can no longer place major reliance upon assistance from other fraternal states and have to devise their own strategies for survival All have shown a trend towards greater reliance on market forces though in different ways and to varying degrees Enterprise management has to adapt to this In some of them entrepreneurs have become politically and socially acceptable They may even begin to set trends for social evolution Yet since state enterprises used to be responsible for all welfare payments to employees and their families management reforms cannot be separated from those of welfare arrangements Reducing an enterprise's non commercial obligations for the sake of greater market efficiency is bound to affect welfare provision It also reopens the role of official trade unions How these regimes cope with these conflicting pressures are vital factors in their long term viability **Health Reforms in Post-Communist Eastern Europe** Tamara Popic, 2023-01-01 This book provides the first in depth study of healthcare reforms in post communist Eastern Europe Combining insights from comparative politics and public policy analysis it examines health reforms in Slovenia the Czech Republic and Poland between 1989 and 2019 The book argues that the post communist transformation of healthcare policy has entailed a process of policy learning and that the countries reform pathways were shaped by a series of initiatives aimed at applying market oriented policy ideas in healthcare The success of these initiatives has been influenced by three factors policy legacies political competition and institutional configurations The book offers a novel comparison of health reform in the region and policy changes more generally It will appeal to scholars and students of public policy health policy and European politics **The Politics of Non-state Social Welfare** Melani Cammett, Lauren M.

MacLean,2014-06-25 Across the world welfare states are under challenge or were never developed extensively in the first place while non state actors increasingly provide public goods and basic welfare In many parts of the Middle East and South Asia sectarian organizations and political parties supply basic services to ordinary people more extensively and effectively than governments In sub Saharan Africa families struggle to pay hospital fees and nongovernmental organizations NGOs launch welfare programs as states cut subsidies and social programs Likewise in parts of Latin America international and domestic NGOs and increasingly private firms are key suppliers of social welfare in both urban and rural communities Even in the United States where the welfare state is far more developed secular NGOs and faith based organizations are critical components of social safety nets Despite official entitlements to public welfare citizens in Russia face increasing out of pocket expenses as they are effectively compelled to seek social services through the private market In *The Politics of Non State Social Welfare* a multidisciplinary group of contributors use survey data analysis spatial analysis in depth interviews and ethnographic and archival research to explore the fundamental transformation of the relationship between states and citizens The book highlights the political consequences of the non state provision of social welfare including the ramifications for equitable and sustainable access to social services accountability for citizens and state capacity The authors do not assume that non state providers will surpass the performance of weak inefficient or sometimes corrupt states but instead offer a systematic analysis of a wide spectrum of non state actors in a variety of contexts around the world including sectarian political parties faith based organizations community based organizations family networks informal brokers and private firms

Sweden and the Revival of the Capitalist Welfare State Andreas Bergh,2014-07-31 This book tackles a number of controversial questions regarding Sweden s economic and political development How did Sweden become rich How did Sweden become egalitarian Why has Sweden since the early 1990s grown faster than

Mirrors of the Economy Yoshiko M. Herrera, 2017-08-28 As international institutions multiply and more governments sign on to standardized ways of organizing economies and societies resistance to globalization persists In Mirrors of the Economy Yoshiko M Herrera explores the variance in implementation of international institutions through an examination of the international System of National Accounts SNA and in particular the success of post Soviet Russia and other formerly

communist countries in implementing the SNA The SNA is the basis for all national economic indicators including Gross Domestic Product and is therefore a critical institution for economic policy and development Herrera tests existing theories of implementation of international institutions and proposes a novel theoretical concept conditional norms to suggest that the conditions attached to norms may result in institutional change On the basis of content analysis of statistical publications and more than seventy five interviews throughout Russia particularly in Moscow and in Washington she forms a clear picture of the implementation of the SNA in Russia in the early 1990s In Soviet times a stable conditional norm delineated the appropriateness of statistical institutions based on the structure of the economy The transformation of the economic system triggered a shift in support among Russian and Eastern European statisticians in favor of the SNA Herrera s argument increases our understanding of the role of norms structural conditions and professional communities in institutional implementation

Capitalist Diversity on Europe's Periphery Dorothee Bohle, Bela Greskovits, 2012-08-15 With the collapse of the Council for Mutual Economic Assistance in 1991 the Eastern European nations of the former socialist bloc had to figure out their newly capitalist future Capitalism they found was not a single set of political economic relations Rather they each had to decide what sort of capitalist nation to become In Capitalist Diversity on Europe s Periphery Dorothee Bohle and Bela Greskovits trace the form that capitalism took in each country the assets and liabilities left behind by socialism the transformational strategies embraced by political and technocratic elites and the influence of transnational actors and institutions They also evaluate the impact of three regional shocks the recession of the early 1990s the rolling global financial crisis that started in July 1997 and the political shocks that attended EU enlargement in 2004 Bohle and Greskovits show that the postsocialist states have established three basic variants of capitalist political economy neoliberal embedded neoliberal and neocorporatist The Baltic states followed a neoliberal prescription low controls on capital open markets reduced provisions for social welfare The larger states of central and eastern Europe Poland Hungary and the Czech and Slovak republics have used foreign investment to stimulate export industries but retained social welfare regimes and substantial government power to enforce industrial policy Slovenia has proved to be an outlier successfully mixing competitive industries and neocorporatist social inclusion Bohle and Greskovits also describe the political contention over such arrangements in Romania Bulgaria and Croatia A highly original and theoretically sophisticated typology of capitalism in postsocialist Europe this book is unique in the breadth and depth of its conceptually coherent and empirically rich comparative analysis
