Refugees In America In The 1990s A Reference Handbook:

Refugees in America in the 1990s David W. Haines, 1996-07-17 A study of refugees in the United States discussing the general patterns and policies governing refugee resettlement looking at the histories of immigrants from individual countries and comparing the experiences of multiple refugee groups

Refugee Resettlement in the United States Marnie K. Watson, Pritha Gopalan, 2022-07-28 This book focuses on refugee resettlement in the post 9 11 environment of the United States with theoretical work and ethnographic case studies that portray loss transition and resilience Each chapter unpacks resettlement at the macro or micro scale underscoring the multiple and mostly unsupported negotiations refugees must undertake in their familial social educational and work spheres to painstakingly reconstruct and reintegrate their lives The contributors show how civil society groups and individuals push back against xenophobic policies and strive to support refugee communities and how agentive efforts result in refugees establishing stable lives despite punishing odds This volume will be of interest to anthropologists and other scholars with a focus on refugee and migration studies

Refugees in Europe, 1919-1959 Matthew Frank, Jessica Reinisch, 2017-09-21 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched *Refugees in Europe 1919 1959* offers a new history of Europe's mid 20th century as seen through its recurrent refugee crises By bringing together in one volume recent research on a range of different contexts of groups of refugees and refugee policy it sheds light on the common assumptions that underpinned the history of refugees throughout the period under review The essays foreground the period between the end of the First World War which inaugurated a series of new international structures to deal with displaced populations and the late 1950s when Europe's home grown refugee problems had supposedly been solved and attention shifted from the identification of an exclusively European refugee problem to a global one Borrowing from E H Carr's *The Twenty Years Crisis* first published in 1939 the editors of this volume test the idea that the two post war eras could be represented as a single crisis of a European dominated international order of nation states in the face of successive refugee crises which were both the direct consequence of that system and a challenge to it Each of the chapters reflects on the utility and limitations of this notion of a forty years crisis for understanding the development of specific national and international responses to refugees in the mid 20th century Contributors to the volume also provide alternative readings of the history of an international refugee regime in which the non European and colonial world are assigned a central role in the narrative

Debating Immigration in the Age of Terrorism, Polarization, and Trump Joshua Woods, C. Damien Arthur, 2017-09-27 This book offers a broad interdisciplinary approach to the changes in the U S immigration debate before and after 9 11 A nation's reaction to foreigners has as much to do with sociology as it does with political science economics and psychology Without drawing on this knowledge our understanding of the immigration debate remains mundane partial and imperfect Therefore our story accounts for multiple factors including culture and politics power organizations social psychological processes and

political change Examining this relationship in the contemporary context requires a lengthy voyage across academic disciplines a synthesis of seemingly contradictory assumptions and a grasp of research traditions so vast and confusing that an accurate rendering may seem implausible And yet to tell the story of the immigration debate in the age of terrorism polarization and Trump in any other way is to tell it in part The immigration debate in the United States has always been about openness Two questions in particular how open should the door be and what type of immigrant should walk through it have characterized policy disputes for well over a century In the current debate expansionists want to see more legal immigrants in the U S and greater tolerance if not respect for immigrants Restrictionists favor lower levels of immigration stronger borders and tighter law enforcement measures to stop the stream of illegal migration and alleged crime The aim of this book is to describe how these opposing views materialized in the news media political rhetoric and ultimately in policy Much of our argument rests on the idea that history matters that the dominant narrative about immigration is in constant flux and that the winner of the immigration debate is determined by a vector of contextual elements the joint impact of current events enduring traditions and political economic forces Our approach to the immigration debate avoids deterministic claims and grand scale projections Although we argue with conviction that a climate of fear played an important role in shaping the debate the fear itself and its effects on social attitudes and public policy were neither inevitable nor necessarily long lasting

Contemporary Ethnic Geographies in America Christopher A. Airriess, 2015-09-28 Ethnic diversity has marked the United States from its inception and it is impossible to separate ethnicity from an understanding of the United States as a country and Americans as a people Since the 1965 Immigration and Nationality Act the United States has experienced watershed transformations in its social cultural and ethnic geographies Considering the impact of these wide ranging changes this unique text examines the experiences of a range of ethnic groups in both historical and contemporary context It begins by laying out a comprehensive conceptual framework that integrates immigration theory globalization transnational community formation and urban cultural and economic geography The contributors then present a rich set of case studies of the key Latin American Asian American and Middle Eastern communities comprising the vast majority of newer immigrants Each case offers a brief historical overview of the group s immigration experience and settlement patterns and discusses its contemporary socioeconomic dynamics All these communities have transformed and been transformed by the places in which they have settled Exploring these changing communities places and landscapes this book offers a nuanced understanding of the evolution of America s contemporary ethnic geographies

Growing Up Between Two Cultures Farideh Salili, Rumjahn Hoosain, 2014-05-01 This volume deals with social emotional and educational issues of Muslim children growing up in a Western country It aims at shedding light on factors that contribute to the successful adjustment of these immigrant children and ways of helping them to adjust to the new life in their new country

Buddhists Todd Lewis, 2014-04-02 *Buddhists Understanding Buddhism through the Lives of Practitioners* provides a

series of case studies of Asian and modern Western Buddhists spanning history gender and class whose lives are representative of the ways in which Buddhists throughout time have embodied the tradition Portrays the foundational principles of Buddhist belief through the lives of believers illustrating how the religion is put into practice in everyday life Takes as its foundation the inherent diversity within Buddhist society rather than focusing on the spiritual and philosophical elite within Buddhism Reveals how individuals have negotiated the choices tensions and rewards of living in a Buddhist society Features carefully chosen case studies which cover a range of Asian and modern Western Buddhists Explores a broad range of possible Buddhist orientations in contemporary and historical contexts **Guarding the Golden**

Door Roger Daniels, 2005-01-12 Immigration is now front page news and to grasp the background of current issues this is the book to read David Reimers author of *Unwanted Strangers* American Identity and the Turn Against Immigration As renowned historian Roger Daniels shows in this brilliant new work America's inconsistent often illogical and always cumbersome immigration policy has profoundly affected our recent past The federal government's efforts to pick and choose among the multitude of immigrants seeking to enter the United States began with the Chinese Exclusion Act of 1882 Conceived in ignorance and falsely presented to the public it had undreamt of consequences and this pattern has been rarely deviated from since Immigration policy in Daniels skilled hands shows Americans at their best and worst from the nativist violence that forced Theodore Roosevelt's 1907 gentlemen's agreement with Japan to the generous refugee policies adopted after World War Two and throughout the Cold War And in a conclusion drawn from today's headlines Daniels makes clear how far ignorance partisan politics and unintended consequences have overtaken immigration policy Irreverent deeply informed and authoritative *Guarding the Golden Door* presents an unforgettable interpretation of modern American history Engaging and lively Publishers Weekly As Americans continue to debate immigration in a world divided by international terrorism few books offer a fuller context for the key issues Booklist A powerful and provocative argument about why the United States has remained an immigrant country and why it should stay one for its own benefit Eric Rauchway author of *Murdering McKinley*

Rightlessness A. Naomi Paik, 2016-01-08 In this bold book A Naomi Paik grapples with the history of U S prison camps that have confined people outside the boundaries of legal and civil rights Removed from the social and political communities that would guarantee fundamental legal protections these detainees are effectively rightless stripped of the right even to have rights Rightless people thus expose an essential paradox while the United States purports to champion inalienable rights at home and internationally it has built its global power in part by creating a regime of imprisonment that places certain populations perceived as threats beyond rights The United States status as the guardian of rights coincides with indeed depends on its creation of rightlessness Yet rightless people are not silent Drawing from an expansive testimonial archive of legal proceedings truth commission records poetry and experimental video Paik shows how rightless people use their imprisonment to protest U S state violence She examines demands for redress by Japanese Americans interned during

World War II testimonies of HIV positive Haitian refugees detained at Guantamo in the early 1990s and appeals by Guantamo's enemy combatants from the War on Terror. In doing so she reveals a powerful ongoing contest over the nature and meaning of the law over civil liberties and global human rights and over the power of the state in people's lives.

Southeast Asian Diaspora in the United States Jonathan H. X. Lee, 2014-10-16. *Southeast Asian Diaspora in the United States: Memories and Visions Yesterday, Today and Tomorrow* provides various exploratory interpretations on Southeast Asian American subjectivities, communities, histories, creativities, and cultural expressions as they are revealed, informed or infused with visions, dreams, and/or memories of self in relation to others, places, time, and events historically significant or quotidian. The interaction and interplay of visions, memories, and subjectivities is the focus of examination and interpretation, either directly or tangentially. Authors explore varieties of homes, religiosities, creativities, cultural forms and productions, and queer sexualities utilizing critical ethnic and Asian American studies discourses coupled with other interdisciplinary approaches to provide new and alternative visions on Cambodian, Hmong, Filipino, Indonesian, Lao, Thai, and Vietnamese American subjects and their communities that links Southeast Asia to America in vexing, creative, and purposeful ways.
