Streufert,2022-06-07 Language for God draws readers into the necessity of language and images for God that are expansive and inclusive of all genders People hunger for scriptural and theological explanations that adequately answer criticisms and support dialogue Using Lutheran perspectives as a compass Mary J Streufert offers scriptural theological and historical insights that advance Christianity s ongoing reformation of androcentric images and language for God This book is

for a variety of people including those who are unsure of why language and images for God matter those who need assurance that language and images for God include all genders including people who identify as queer and those who want language for God to be faithful to the Scriptures and to the witness of the Christian theological tradition It is also for people who need convincing that God is Mother as much as Father pregnant Christ as much as crucified Christ and Godhead beyond all gendered appellations The book is pastoral in that it explores the deeply personal communal and social ways language and images influence who we are and how we live It takes seriously the hunger for more for God beyond the Father This book is also intellectual in that it challenges contemporary arguments for Father and Son as exclusive names for the first two persons of the Trinity by exploring historical developments in the ways people define sex gender and sexuality Without a rigorous assessment of how these views affect Christianity Christian language and images for God will remain androcentric Insights from the Reformation most pointedly from Martin Luther and the Lutheran tradition offer points on a compass toward the reformation of Christian language and images for God in our day

Signs of Masculinity, 2023-12-14 Masculinity is becoming an increasingly popular area of study in areas as diverse as sociology politics and cultural studies yet significant research is lacking into connections between masculinity and literature Signs of Masculinity aims at beginning to fill the gap Starting with an introduction to and intervention within numerous debates concerning the cultural construction of various masculinities the volume then continues with an investigation of representations of masculinity in literature from 1700 to the present Close readings of texts are intended to demonstrate that masculinity is not a theoretical abstract but a definitive textual and cultural phenomenon that needs to be recognised in the study of literature It is hoped that the wide ranging essays which raise numerous issues and are written from a variety of methodological approaches will appeal to undergraduate postgraduates and lecturers interest in the crucial but under researched area of masculinity
