many people have surrendered to the belief that dissatisfaction neglect infidelity abuse disrespect conflict exploitation and betrayal are natural normal and unavoidable characteristics of romantic relationships and even marriage We are presented with a choice relationships that don't last and relationships that do as long as participants are willing to endure inevitable suffering mistreatment and victimization usually at the hands of one another *Loving in the Grown Zone* is a rejection of that thinking It is testament to the authors belief that while there may be no such thing as a perfect relationship that is not justification for accepting anything less than healthy relationships No one is required to accept mistreatment as the price of a loving safe and sustainable relationship of honor esteem and respect Furthermore establishing such healthy resilient and fulfilling relationships are not a matter of luck or chance but of intention learnable skills and practices and commitment to personal growth *Loving in the Grown Zone* urges you to learn those skills and commit to those practices including recognizing the difference between the attractors that motivate us to initiate romantic relationships and the sustainers required to ensure that such relationships are healthy safe and affirming for both partners **Making Sense of Sex**

Sexual Life in Sweden Hans Zetterberg, 2021-10-14 Now available in English Sexual Life in Sweden is a classic piece of sex research by one of Sweden s most distinguished social scientists Sponsored by the Royal Commission on Sex Education more than thirty years ago it remains the only study of sexual behavior in a randomly selected adult population sample ever funded by a government Because an astonishing response rate was achieved 91 percent during the course of Zetterberg s research the claim that Sweden is one of the few countries where generalizations about national sexual behavior can be made may be stated with confidence Zetterberg s study matches the gender of interviewers to that of subjects From a theoretical perspective Zetterberg analyzes the change in Sweden from a restrictive to a contraceptive society The study makes it clear that with over 1 000 acts of intercourse for every live birth 90 percent of sexual activity between consenting adults in modern Sweden does not result simply for procreation Nevertheless the research yields a picture of a highly responsible society Zetterberg explores the emergence of two powerful new norms when having sex you must use contraception and when in an existing sexual relationship you must not start another one He also examines the issue of abortion as part of a concept of social justice The author compares the behavior of those who experience an unwanted pregnancy with those who do not and explains that abortion is seen by Swedes as part of the provision of the welfare and social justice system Included is an examination of the sexual behavior of young people the age of their first sexual experience the circumstances surrounding it whether positive parental involvement in their children s lives has any influence on their sexual conduct and sex education programs in the schools This translation of Zetterberg s study has been prepared by British sociologist Graham Fennell who also authored a new introduction positioning Zetterberg s work in the history of sex research and comparing its findings with contemporary studies in Scandinavia Western Europe and North America In light of the ongoing controversies about sex education its conclusions remain relevant to policy discussions today **Race**

and Sex across the French Atlantic Frieda Ekotto, 2012-07-10 Jean Genet's masterpiece *Les Nègres* was first published in 1958 in the midst of the Algerian war and first performed at the Théâtre de Lutèce in Paris in October 1959. Yet even though the play is more than 50 years old, it remains a fundamental contribution to critical race theory as Genet unequivocally posits that no matter what a black person does or doesn't do, simply to be black in our times is itself a tragedy. Placing Genet in the context of the Negritude movement, *Race and Sex across the French Atlantic* equally reveals and examines blackness within the African American dialogue with a white French author's provocative questions about race: Is a black man always black, and even more fundamentally, What is blackness? Within this framework to question blackness, therefore, is to set out on an ontological quest as blackness has become a real living thing in its own right within European ideology, social theory, and historical consciousness. Even as *Les Nègres* has taken its place as a major text in the francophone and philosophical tradition of writing on race, in essence, this book concentrates on the way in which language, particularly the French language, has shaped ideas about race within transatlantic discourses, and with its companion continental philosophy, has also shaped the historical understanding of discourse on race. It navigates between multiple readings of race within the French Atlantic, using Lorraine Hansberry's play *Les Blancs*, Dany Laferrière's *Comment faire l'amour avec un Nègre sans se fatiguer*, Genet's dialogue with the Black Panthers, and different conceptions of the so-called N-word. *Race and Sex across the French Atlantic* thus explores how *Les Nègres* offered a groundbreaking reading of how race functioned and continues to function as an all-pervasive discourse that provides a central principle around which society in general is organized. The play stages a deeply self-reflexive and critical examination of the very essence of race.

Grey Sex Alexandra Kogl, 2024-10-15 Grey sex is saying yes but thinking no. It's feeling invisible like you're not even in the room. It's wondering afterwards, is that really what I wanted or did I just let that happen? Many people have sexual experiences that fall into a grey area between assault and normal sex. Looking at heterosexuality and everyday domination, this book shows that in doing so, we are neither simply victims nor failing to assert ourselves. We are caught in relations of gendered power that may be hard to name or that may in a world filled with violence not seem worth mentioning. Tempting as it is to blame individuals for grey sexual experiences, Kogl argues that we can't make sense of the power at work if we remain stuck in self-blame or point the finger at perpetrators. The personal is still political; the most intimate activities are both shaped by and shapers of unjust sexual hierarchies. *Grey Sex* walks us through the shadowy places between good and bad sex. With compelling insight into power relations that shape ambiguous sexual experiences and our sense of freedom, it is a valuable read for people interested in sexual intimacy and relationships, gender-based violence, and inequality.
