Ömie Sex Affiliation Marta Rohatynskyj, 2022-10-14 The practice of affiliating the female child with the mother and the male child with the father was considered a rare and inexplicable practice in Papua New Guinean ethnography at the time the original data was collected some forty years ago Marta Rohatynskyj undertakes a shift in her analytical concepts of kinship studies to reveal the deep seated disjuncture between female and male that this practice represents The author argues that this practice is associated with a totemic animistic ontology and has currency in a particular type of Melanesian society

Promoting gender-transformative change with men and boys: A Manual to spark critical reflection on harmful gender norms with men and boys in Aquatic Agricultural Systems Promundo-US, CGIAR Research on Aquatic Agricultural Systems, 2016-10-04 The CGIAR Research Program CRP on Aquatic Agricultural Systems AAS led by WorldFish aims to lift millions of people out of poverty and promote positive transformative change in aquatic agricultural development The AAS

Gender on the Edge Niko Besnier, Kalissa Alexeyeff, 2014-12-31

Transgender identities and other forms of gender and sexuality that transcend the normative pose important questions about society culture politics and history They force us to question for example the forces that divide humanity into two gender categories and render them necessary inevitable and natural The transgender also exposes a host of dynamics that at first glance have little to do with gender or sex such as processes of power and domination the complex relationship among agency subjectivity and structure and the mutual constitution of the global and the local Particularly intriguing is the fact that gender and sexual diversity appear to be more prevalent in some regions of the world than in others This edited volume is an exploration of the ways in which non normative gendering and sexuality in one such region the Pacific Islands are implicated in a wide range of socio cultural dynamics that are at once local and global historical and contemporary The authors recognize that different social configurations cultural contexts and historical trajectories generate diverse ways of being transgender across the societies of the region but they also acknowledge that these differences are overlaid with commonalities and predictabilities Rather than focus on the definition of identities they engage with the fact that identities do things that they are performed in everyday life that they are transformed through events and movements and that they are constantly negotiated By addressing the complexities of these questions over time and space this work provides a model for future endeavors that seek to embed dynamics of gender and sexuality in a broad field of theoretical import

Charles Darwin, 1871 **Men, Masculinities and Disaster** Elaine Enarson, Bob Pease, 2016-06-17 In the examination of gender as a driving force in disasters too little attention has been paid to how women s or men s disaster experiences relate to the wider context of gender inequality or how gender just practice can help prevent disasters or address climate change at a structural level With a foreword from Kenneth Hewitt an afterword from Raewyn Connell and contributions from renowned international experts this book helps address the gap It explores disasters in diverse environmental hazard political and

cultural contexts through original research and theoretical reflection building on the under utilized orientation of critical men s studies This body of thought not previously applied in disaster contexts explores how men gain maintain and use power to assert control over women Contributing authors examine the gender terrain of disasters through men s eyes considering how diverse forms of masculinities shape men s efforts to respond to and recover from disasters and other climate challenges The book highlights both the high costs paid by many men in disasters and the consequences of dominant masculinity practices for women and marginalized men It concludes by examining how disaster risk can be reduced through men s diverse efforts to challenge hierarchies around gender sexuality disability age and culture Handbook of Studies on Men and Masculinities Michael S. studies and of interest to students of sociology psychology and political sociology **The Descent of Man, and Selection in Relation to Sex** ,1871 *Transgender* Aaron Devor,Ardel Haefele-Thomas,2019-02-15 This book provides a crucial resource for readers who are investigating trans issues It takes a diverse and historic approach focusing on more than one idea or one experience of trans identity or trans history *Transgender A Reference Handbook* is a go to resource about the transgender experience The book takes contemporary as well as historic aspects into consideration It looks at ancient indigenous cultures that honored third fourth and fifth gender identities as well as more contemporary ideas of what transgender means Notably it focuses not only on Western medical ideas of gender affirmation but on cultural diversity surrounding the topic This book will primarily serve as a reference guide and jumping off point for further research for those seeking information about what it means to be transgender While a reference book it contains original work that may be cited in addition to the encyclopedia itself In particular the perspectives section of the book includes writings from some of the world s foremost trans writers activists artists and historians *Folklore Series* ,1952
