Heavy makeup gaudy jewelry dramatic hairstyles and clothes that are considered cheap fake too short too tight or too masculine working class Black and Latina girls and women are often framed as embodying excessive styles that are presumed to indicate sexual deviance In Aesthetics of Excess Jillian Hernandez examines how middle class discourses of aesthetic value racialize the bodies of women and girls of color At the same time their style can be a source of cultural capital when appropriated by the contemporary art scene Drawing on her community arts work with Black and Latina girls in Miami Hernandez analyzes the art and self image of these girls alongside works produced by contemporary artists and pop musicians such as Wangechi Mutu Kara Walker and Nicki Minaj Through these relational readings Hernandez shows how notions of high and low culture are complicated when women and girls of color engage in cultural production and how they challenge the policing of their bodies and sexualities through artistic authorship *Work-Life Balance in the Modern Workplace* Sarah De Groo,2017-06-23 The term work life balance refers to the relationship between paid work in all of its various forms and personal life which includes family but is not limited to it In addition gender permeates every aspect of this relationship This volume brings together a wide range of perspectives from a number of different disciplines presenting research findings and their implications for policy at all levels national sectoral enterprise workplace Collectively the contributors seek to close the gap between research and policy with the intent of building a better work life balance regime for workers across a variety of personal circumstances needs and preferences Among the issues and topics covered are the following differences and similarities between men and women and particularly between mothers and fathers in their work choices third shift work work at home at night or during weekends effect of the extent to which employers perceive management of this process to be a burden employers exploitation of the psychological interconnection between masculinity and breadwinning organisational culture that is more available for supervisors than for rank and file workers weak enforcement mechanisms and token penalties for non compliance by employers trade unions as the best hope for precarious workers to improve work life balance crowd work on demand performance of tasks by persons selected remotely through online platforms from a large pool of potential and generic workers an example of how to use work life balance insights to evaluate the law collective self scheduling employers duty to accommodate and financial hardship as a serious threat to work life balance As it has been shown clearly that work life conflict is associated with negative health outcomes exacerbates gender inequalities and many other concerns this unusually rich collection of essays will resonate particularly with

concerned lawyers and legal academics who ask what work life balance literature has to offer and how law should respond

Economics of the Family and Family Policies Christina Jonung, Inga Persson, 1997-10-16 Economic analysis of the family is a recent but already well established area in economics This book bears evidence to the lively and relevant research in the area Essays in this comprehensive collection provide a clear picture of the state of the art of economics of the family and explore theoretical and empirical applications The contributors **Managing the Work Situation** Lars

Klemsdal, 2025-02-25 *Managing the Work Situation* outlines a perspective on how organization and management in the contemporary world of work happens as active everyday accomplishments by workers and managers facing and handling complex work situations with an excess of expectations Based on philosophical and sociological phenomenology notably Jean Paul Sartre's and Erving Goffman's works the book coins a situation centric perspective on organization and management and the concept of situational sensemaking as the driving mechanism of organization as well as the focus of management characterized as situation management The book addresses an academic audience with interests in organization and management of work both theoretically and practically A prime audience will be academic and executive master students in organization and management **Measured Excess** Laura C. Nelson, 2000 Following a backlash against consumerism in

the late 1980s the government spearheaded a program of frugality that eschewed imported goods and foreign travel in favor of strengthening South Korea's national identity Consumption with its focus on immediate gratification threatened those future oriented aspects of the state's discourse of national unity *Gender and the Poetics of Excess* Karen Jackson Ford, 2011-02-25 The argument posed in this analysis is that the poetic excesses of several major female poets excesses that have been typically regarded as flaws in their work are strategies for escaping the inhibiting and sometimes inimical conventions too often imposed on women writers The forms of excess vary with each poet but by conceiving of poetic excess in relation to literary decorum this study establishes a shared motivation for such a strategy Literary decorum is one instrument a culture employs to constrain its writers Perhaps it is the most effective because it is the least definable The excesses discussed here like the criteria of decorum against which they are perceived cannot be itemized as an immutable set of traits Though decorum and excess shift over time and in different cultures their relationship to one another remains strikingly stable Thus nineteenth century standards for women's writing and late twentieth century standards bear almost no relation Emily Dickinson's do not anticipate Gertrude Stein's or Sylvia Plath's or Ntozake Shange's Yet the charges of indecorousness leveled at these women poets repeat a fixed set of abstract grievances Dickinson Stein Plath Jayne Cortez and Shange all engage in a poetics of excess as a means of rejecting the limitations and conventions of female writing that the larger culture imposes on them In resisting conventions for feminine writing these poets developed radical new poetics yet their work was typically criticized or dismissed as excessive Thus Dickinson's form is classified as hysterical and her figures tortured Stein's works are called repetitive and nonsensical Plath's tone is accused of being at once virulent and

confessional Cortez's poems violent and vulgar Shange's work vengeful and self-righteous The publishing history of these poets demonstrates both the opposition to such an aesthetic and the necessity for it **Sweet Excess** Ishita Dey, 2025-09-09

From Lack to Excess Yolanda Martínez-San Miguel, 2008 *From Lack to Excess* analyzes the narrative and rhetorical structures of Latin American colonial texts by establishing a dialogue with studies on minority discourse minor literatures and postcolonial theory After reviewing the main contributions and limitations of Transatlantic Early Modern and Postcolonial studies for the interpretation of Latin American colonial textualities Martínez San Miguel takes as a point of departure the subtle yet pervasive semantic link between the terms minority and colonialism prevalent in current studies on ethnic and sexual identities She then engages the disciplinary debate between Colonial Latin American studies and Early Modern Transatlantic and Postcolonial studies paying attention to the epistemic and institutional junctures that explain the current reconfiguration of these fields As an alternative to an exhausted debate Martínez San Miguel uses Gilles Deleuze and Félix Guattari's notion of a minor literature along with current studies on minority discourse to propose new close readings of texts by Hernán Cortés Alvar Núñez Cabeza de Vaca the Inca Garcilaso de la Vega Carlos de Sigüenza y Gongora and Sor Juana Inés de la Cruz *From Lack to Excess* traces a discursive voyage that configures a linguistic matrix from the initial lack of language to the excessive Baroque representation of American reality

BOOK JACKET "The Uses of Excess in Visual and Material Culture, 1600-2010" Julia Skelly, 2017-07-05 Directing unprecedented attention to how the idea of excess has been used by both producers and consumers of visual and material culture this collection examines the discursive construction of excess in relation to art material goods and people in various global contexts The contributors illuminate how excess has been perceived quantified and constructed revealing in the process how beliefs about excess have changed over time and how they have remained consistent The collection as a whole underscores the fact that the concept of excess must

always be considered critically whether in scholarship or in lived experience Although the idea of excess has often been used to shame and degrade many of the essays in this collection demonstrate how it has also been used as a strategy for self fashioning transgression and empowerment particularly by women and queer subjects This volume examines a range of material including diamonds ceramics paintings dollhouses caricatures interior design and theatrical performances Each case study sheds new light on how excess was used in a specific cultural context including canonical sites of study such as the Netherlands in the eighteenth century Victorian Britain and Paris in the 1920s and under studied contexts such as Canada and Sweden **The Uses of Excess in Visual and Material Culture, 1600-2010** Ms Julia Skelly, 2014-08-28

World Development Report 2012 The International Bank for Reconstruction and Development / The World Bank The International Bank for Reconstruction and Development / The World Bank, 2011-09-28 The lives of women around the world have improved dramatically at a pace and scope difficult to imagine even 25 years ago Women have made unprecedented gains in rights education health and access to jobs and livelihoods More countries than ever guarantee equal rights in property marriage and other domains Gender gaps in primary schooling have closed in many countries while in a third of all countries girls now outnumber boys in secondary school And more young women than men attend universities in 60 countries Women are using their education to participate more in the labor force they now make up for 40 percent of the global labor force and 43 percent of its farmers Moreover women now live longer than men in every region of the world Despite the progress gaps remain in many areas Women are more likely to die relative to males in many low and middle income countries than their counterparts in rich countries especially in childhood and during their reproductive years Primary and secondary school enrollments for girls remain much lower than for boys in many Sub Saharan African countries and some parts of South Asia as well as among disadvantaged populations Women are more likely than men to work as unpaid family laborers or in the informal sector to farm smaller plots and grow less profitable crops operate in smaller firms and less profitable sectors and generally earn less Women especially poor women have less say over decisions and less control over household resources And in most countries fewer women participate in formal politics than men and are

underrepresented in the upper echelons The World Development Report 2012 Gender Equality and Development argues that closing these persistent gender gaps matters It matters because gender equality is a core development objective in its own right But it is also smart economics Greater gender equality can enhance productivity improve development outcomes for the next generation and make institutions more representative Building on a growing body of knowledge on the economics of gender equality and development the Report identifies the areas where gender gaps are most significant both intrinsically and in terms of their potential development payoff and where growth alone cannot solve the issues It then sets forth four priorities for public action Reducing excess female mortality and closing education gaps where they remain Improving access to economic opportunities for women Increasing women s voice and agency in the household and in society Limiting the reproduction of gender inequality across generations
