Sexism Racism And Oppression:

Sexism, Racism, and Oppression Arthur Brittan, Mary Maynard, 1984-01-01 *Feminist Theory* Bell Hooks, 2000 A new edition of a classic work a sweeping examination of the core issues of sexual politics by one of feminism s most important and critical voices **Oppression, Privilege, and Resistance** Lisa Maree Heldke, Peg O'Connor, 2004 This anthology is a philosophical reader on racism sexism heterosexism and classism with a distinct theoretical framework that provides coherence and cohesion to the readings The book is framed by a model of racism sexism heterosexism and classism that understands these phenomena as interlocking systems of oppression Resting upon this oppression model are two sets of theories one concerned with the phenomenon of privilege the companion of oppression and the other with resistance the response to oppression **The Physiology of Sexist and Racist Oppression** Shannon Sullivan, 2015 This book argues that gender and race are physiologically constituted through the biopsychosocial effects of sexism and racism Sullivan skillfully combines feminist and critical philosophy of race with the biological and health sciences to provide new strategies for fighting male and white privilege **A Broken Silence** Lena Myers, 2002-02-28 This book addresses the interlocking systems of race and gender in institutions of higher education in America The study is based on empirical data from African American women of various disciplines in faculty and administrative positions at traditionally white colleges and universities It focuses primarily on narratives of the women in terms of how they are affected by racism as well as sexism as they perform their duties in their academic environments The findings suggest that a common thread exists relative to the experiences of the women The book challenges and dispels the myth that Black progress has led to equality for African American women in the academy The results of this study make it even more critical that the voices of African American women be heard and their experiences in the academy be expressed This may be one way to inform academic and lay readers that racism and sexism are not dead The Cambridge Companion to Black Theology Dwight N. Hopkins, Edward P. Antonio, 2012-07-26 This volume discusses normative theological categories from a black perspective and argues that there is no major Christian doctrine on which black theology has not commented Part One explores introductory questions such as what have been the historical and social factors fostering a black theology and what are some of the internal factors key to its growth Part Two examines major doctrines which have been important for black theology in terms of clarifying key intellectual foci common to the study of religion The final part discusses black theology as a world wide development constituted by interdisciplinary approaches The volume has an important role in bringing Christian thought into confrontation with one of the central challenges of modernity namely the problem of race and racism This Companion puts theological themes in conversation with issues of ethnicity gender social analysis politics and class and is ideal for undergraduate and graduate students **The Wrong of Injustice** Mari Mikkola, 2016-07-01 This book examines contemporary structural social injustices from a feminist perspective It asks what makes oppression discrimination and domination wrongful Is there a single wrongness making

feature of various social injustices that are due to social kind membership Why is sexist oppression of women wrongful What does the wrongfulness of patriarchal damage done to women consist in In thinking about what normatively grounds social injustice the book puts forward two related views First it argues for a paradigm shift in focus away from feminist philosophy that is organized around the gender concept woman and towards feminist philosophy that is humanist This is against the following theoretical backdrop Politically effective feminism requires ways to elucidate how and why patriarchy damages women and to articulate and defend feminism's critical claims In order to meet these normative demands an influential theoretical outlook has emerged for emancipatory purposes feminist philosophers should articulate a thick conception of the gender concept woman around which feminist philosophical work is organized However Part I of the book argues that we should resist this move and that feminist philosophers should reframe their analyses of injustice in humanist terms Second the book spells out a humanist alternative to the more prevalent gender focus in feminist philosophy This hinges on a notion of dehumanization which Part II of the book develops The argued for understanding of dehumanization is used to explicate the wrongness making feature of social injustices both in general and of those due to patriarchy Dehumanization is not another form of injustice rather it is that which makes forms of social injustice unjust The book's second part then provides a regimentation of social injustice from a feminist perspective in order to spell out the specifics of the proposed humanist feminism and to demonstrate how it improves some non feminist analyses of injustice too

Race and Racism in the United States Charles A. Gallagher, Cameron D. Lippard, 2014-06-24 How is race defined and perceived in America today and how do these definitions and perceptions compare to attitudes 100 years ago or 200 years ago This four volume set is the definitive source for every topic related to race in the United States In the 21st century it is easy for some students and readers to believe that racism is a thing of the past in reality old wounds have yet to heal and new forms of racism are taking shape Racism has played a role in American society since the founding of the nation in spite of the words all men are created equal within the Declaration of Independence This set is the largest and most complete of its kind covering every facet of race relations in the United States while providing information in a user friendly format that allows easy cross referencing of related topics for efficient research and learning The work serves as an accessible tool for high school researchers provides important material for undergraduate students enrolled in a variety of humanities and social sciences courses and is an outstanding ready reference for race scholars The entries provide readers with comprehensive content supplemented by historical backgrounds relevant examples from primary documents and first hand accounts Information is presented to interest and appeal to readers but also to support critical inquiry and understanding A fourth volume of related primary documents supplies additional reading and resources for research

Feminism in Coalition Liza Taylor, 2022-11-11 In **Feminism in Coalition** Liza Taylor examines how US women of color feminists coalitional politics provides an indispensable resource to contemporary political theory feminist studies and intersectional social justice activism Taylor charts the

theorization of coalition in the work of Bernice Johnson Reagon Audre Lorde Barbara Smith the Combahee River Collective Gloria Anzald a Cherr e Moraga and others For these activist scholars coalition is a dangerous struggle that emerges from a shared political commitment to undermining oppression and an emphasis on self transformation Taylor shows how their coalitional understandings of group politics identity consciousness and scholarship have transformed how activists and theorists build alliances across race class gender sexuality faith and ethnicity to tackle systems of domination Their coalitional politics enrich current discussions surrounding the impetus and longevity of effective activism present robust theoretical accounts of political subject formation and political consciousness and demonstrate the promise of collective modes of scholarship In this way women of color feminists have been formulating solutions to long standing problems in political theory By illustrating coalition s vitality to a variety of practical and philosophical interdisciplinary discussions Taylor encourages us to rethink feminist and political theory

Laclau and Mouffe Anna Marie Smith, 2012-10-12 Laclau and Mouffe The Radical Democratic Imaginary is the first full length overview of the important work of Ernesto Laclau and Chantal Mouffe Anna Marie Smith clearly shows how Laclau and Mouffe s work has brought Gramscian poststructuralist and psychoanalytic perspectives to revitalize traditional political theory With clarity and insight she shows how they have constructed a highly effective theory of identity formation and power relations that carefully draws from the criticism of political theory from postmodern anti foundationalist political theory

Issues in the Psychology of Women Maryka Biaggio, Michel Hersen, 2007-05-08 Over the past 15 years I MB have taught a graduate level course in Psychology of Women to students in two different professional psychology programs Because my students were at the doctoral level and often had some familiarity with the psychology of women these courses

focused on bringing a feminist analysis of psychology and integrating a feminist analysis into one's scholarly work and professional activities. Although I used several fine psychology of women textbooks during this time I found none that was specifically designed for graduate students. Thus I always augmented the textbook with journal articles on specific aspects of the topic and these focused articles have typically been well received by the students. The students whom I have encountered in these courses have often expressed a wish for a textbook that is designed for their needs. I think what they are asking for is one that could serve as a foundation for their scholarly analysis of psychology as well as a springboard for thoughtful application of a feminist perspective to the profession of psychology. Therefore *Issues in the Psychology of Women* has been designed to serve as a textbook for advanced undergraduate or graduate courses including Psychology of Women or Feminist Analysis of Psychology. This book is the collective work of authors with special expertise in their chapter topic.

Sister Species Lisa Kemmerer, 2011-06-08 There is a very strong association between women animals and activism. In *Women Social Justice and Animal Advocacy* activist Lisa A. Kemmerer presents the narratives of fourteen ecofeminist activists who describe their own experiences in the field, often from the perspective of discovering the extent of a particular kind of animal oppression and resolving to do something about it. The narratives are bold and gripping, sometimes horrifying, and cover a range of topics relating to animal rights and liberation. The writers discuss contemporary cockfighting, factory farming, orphaned primates in Africa, the wild bird trade, scientific experimentation on animals, laws against dangerous dogs, and violence against baby seals. *Sister Species* provides a wide survey of what women are doing in the animal activism movement. The writers ask readers to rethink how we view animals in our daily lives and how we can take action to protect them. Kemmerer's introduction explains why she collected these particular stories and how she views the relationship between feminism and animal suffering. The foreword is by Carol J. Adams, author of *The Sexual Politics of Meat* (1990), *Neither Man nor Beast: Feminism and the Defense of Animals* (1994), *The Feminist Care Tradition in Animal Ethics: A Reader* (2007), and many other books. None of these essays has been previously published.

Promoting Diversity and Social Justice Diane J. Goodman, 2011-05-15 *Promoting Diversity and Social Justice* gives theory, perspectives, and strategies that are useful for working with adults from privileged groups on diversity and social justice issues.

Feminism and Men Steven Schacht, Doris Ewing, 1998-10 Too often feminism has been defined as a woman-only arena or in competitive terms of male versus female privilege rather than a cooperative effort to improve the quality of life for everyone. Contributors to *FEMINISM AND MEN* argue that the feminist movement should no longer view with suspicion those men who have proved themselves sympathetic to issues of gender equity.

Women of Color Diane Long Hoeveler, Janet K. Boles, 2001-08-30 Beginning in the late 1960s, women's studies scholars worked to introduce courses on the history, literature, and philosophies of women. While these initial efforts were rather general, women's studies programs have started to give increasing amounts of attention to the special concerns of women of color. The topic itself is politically charged, and there is growing awareness that the issues

facing women of color are diverse and complex Expert contributors offer chapters on the major concerns facing women of color in the modern world particularly in the United States and Latin America Each chapter treats one or more groups of women who have been underrepresented in women s studies scholarship or have had their experiences misinterpreted including African Americans Latina Americans Asian Americans and Native Americans Women of Color includes chapters on theories related to race gender and identity One section provides discussions of literature by women of color including works by such authors as Toni Morrison and Maxine Hong Kingston The book also focuses on the place of women of color in higher education including chapters on women of color and the women s studies curriculum and the role of librarians in shaping women s studies programs

The Psychology of Women and Gender Nicole M. Else-Quest, Janet Shibley Hyde, 2017-12-07 A psychology of women textbook that fully integrates transgender research issues and concerns With clear comprehensive and cutting edge coverage The Psychology of Women and Gender Half the Human Experience delivers an authoritative analysis of classical and up to the minute research from a feminist psychological viewpoint Authors Nicole M Else Quest and Janet Shibley Hyde examine the cultural and biological similarities and differences between genders noting how they are often a result of inequality The Ninth Edition emphasizes rigorous methodology and reviewing and evaluating empirical evidence helping demystify the scientific process in this field of study Hands on applications through case studies that integrate research from other disciplines give students further experience with key issues This proven resource equips students with a strong foundation for understanding the dynamic influences of gender sexual orientation and ethnicity in the context of psychology and society along with strategies for thinking critically about popular culture and using psychological science to improve people s lives and promote gender equality

Weiss, Marilyn Friedman, 1995 Author note Penny A Weiss Associate Professor of Political Science at Purdue University is the author of Gendered Community Rousseau Sex and Politics Marilyn Friedman Associate Professor of Philosophy at Washington University is the author of What Are Friends For Feminist Perspectives on Personal Relationships and Moral Theory

Human Behavior and the Social Environment, Macro Level Katherine Van Wormer, Fred Besthorn, 2017-03-13 A timely revision in this global age Human Behavior and the Social Environment Macro Level develops a sophisticated and original view of the cultural global spiritual and natural worlds that people inhabit and explores the impact of these worlds on human behavior An ecosystems sustainability framework emerges as a key characteristic of contemporary practice What is sustainable social work What are the characteristics of a sustainable community How is the present exploitation of environmental resources unsustainable for future generations In accordance with the 2015 Council on Social Work Education CSWE standards attention is paid to environmental justice as well as diversity and difference

Metasemantics and Intersectionality in the Misinformation Age Derek Egan Anderson, 2021-09-03 This book investigates the impact of misinformation and the role of truth in political struggle It develops a theory of objective truth for political controversy over topics such as racism and

gender based on the insights of intersectionality the Black feminist theory of interlocking systems of oppression Truth is defined using the tools of model theory and formal semantics but the theory also captures how social power dynamics strongly influence the operation of the concept of truth within the social fabric Systemic ignorance propagated through false speech and misinformation sustains oppressive power structures and perpetuates systemic inequity Truth tends to empower marginalized groups precisely because oppressive systems are maintained through systemic ignorance If the truth sets people free then power will work to obscure it Hence the rise of misinformation as a political weapon is a strategy of dominant power to undermine the political advancement of marginalized groups
