Interpersonal Relationships and Health Christopher R. Agnew, Susan C. South, 2014-03-01 Gathering leading thinkers in social and clinical psychology public health medicine and sociology Interpersonal Relationships and Health considers theoretical and empirical issues relevant to understanding the social and clinical psychological mechanisms linking close relationship processes with mental and physical health outcomes The volume arises out of a recent explosion of interest across multiple academic and research fields in the ways that interpersonal relationships affect health and well being This volume pulls together a range of scholars who focus on different aspects of relationships and health in order to encourage

both collaboration and cross disciplinary initiatives This is the first edited volume to pull together noted experts across myriad disciplines whose research is at the intersection of human relationships and health Topics addressed include key biological processes that influence and in turn are influenced by close relationships Interpersonal Relationships and Health presents research that demonstrates the connections between interpersonal relationships mental and physical health outcomes and biophysical markers that figure prominently in the fields of psychoneuroimmunology endocrinology and cardiology In addition it highlights recent work on marital family and social relationships and their interplay with health and well being Chapters also address sexual health among young and older adults as well as clinical intervention efforts that focus on the role of relational factors in influencing health Each chapter highlights extant theoretical and empirical findings and suggests future avenues for research in this burgeoning area *Emotional Safety* Don R. Catherall, 2006-11-06

Emotional Safety is designed to help couple therapists identify and conceptualize the problems of their clients and to provide solutions focusing on the two central elements of emotion and attachment Problems occur in relationships when the partners no longer feel safe being open and vulnerable with each other *Emotional Safety Viewing Couples Through the Lens of Affect* enables couple therapists to recognize and articulate the emotional subtext of their clients interactions The emotional safety model is based on modern affect theory and focuses on the affective tone of messages in the areas of attachment and esteem The model allows therapists to address the subtle interplay of perceived threat and emotional reaction which underlies their clients difficulties and disrupts emotional safety

Promoting Healing and Resilience in People with Cancer: A Nursing Perspective Mary Grossman, 2022-12-08 This is the first Nursing book on cancer care designed around a conceptual model of whole person care Key concepts are stress healing resilience and health As a clinical model nursing goals desired outcomes key concepts and proposed psychosocial interventions with patients and family caregivers advance the practice of clinical nursing toward a more comprehensive understanding of the whole person with cancer and their loved ones As a model for teaching nursing students about chronic illness it provides a scientific basis for students to learn how to assess and care for the whole person and his loved one As a model for clinical research in the field of cancer care it serves as a predicate for the development evaluation and interpretation of clinical interventions The model is a dynamic framework that both informs and is informed by research findings It is hoped that future research findings will reveal the optimal combination of interventions to provide comprehensive care across clinical contexts With a patient centred humanistic focus anchored by the quality of the nurse patient and family caregiver relationships it is hoped that the nurse s technical procedural and medical expertise may complement rather than define the nurse s approach to the whole patient and family The book is structured to facilitate the reader s easy access to needed information Each chapter examines a key concept of the model and is organized around an introduction learning objectives definitions and relevant research findings that serve as the scientific predicate for suggested interventions discussed in Part 4 Nursing approaches Clinical and personal

anecdotes tables and figures illustrate the concepts under discussion Nurse practitioners clinic nurse specialists nursing professors graduate students and nurse researchers may find this book a useful reference for conceptualizing whole person care and for determining relevant interventions that promote healing resilience and health But it is also relevant for family doctors and fourth year students learning to care for the whole person with a chronic illness **An Update on Adult**
