The Coffin of Heqata Harco Willems, 1996 The coffin published in this book represents a type that had some popularity in southern Upper Egypt in the early Middle Kingdom but which despite its extraordinary decoration had not attracted attention so far The most striking feature of the decoration is that the object friezes the pictorial rendering of ritual implements usually found on coffin interiors of the period also include complete ritual scenes some of which are attested only here Apart from this the decoration includes an extensive selection of the religious texts known as the Coffin Texts The author first studies the archaeological context and dating of the coffin and attempts a reconstruction of the construction procedures from his technical description of the monument The detailed account of the decoration in the rest of the book interprets the ritual iconography and offers fresh translations and interpretations of the Coffin Texts A methodological innovation is that he regards the scenes and texts not as individual decoration elements but as components of an integral composition The background of this composition is argued to be a view of life in the hereafter in which the deceased is involved in an unending cycle of ritual action which reflects the funerary rituals that were actually performed on earth On the one hand these netherworldly rituals aim at bringing the deceased to new life by mummification on the other the newly regenerated deceased partakes in embalming rituals for gods representing his dead father Osiris or Atum These gods in their turn effectuate the deceased's regeneration The entire process results in a cycle of resuscitation in which the afterlife of the deceased and of the father gods are interdependent The sociological bias of this interpretation with its emphasis on kinship relations differs significantly from earlier attempts to explain Egyptian funerary religion

interpretations systems Foreigners in Ancient Egypt Flora Brooke Anthony, 2016-12-01 In ancient Egypt one of the primary roles of the king was to maintain order and destroy chaos Since the beginning of Egyptian history images of foreigners were used as symbols of chaos and thus shown as captives being bound and trampled under the king's feet The early 18th dynasty 1550-1372 BCE was the height of international trade diplomacy and Egyptian imperial expansion During this time new images of foreigners bearing tribute became popular in the tombs of the necropolis at Thebes the burial place of the Egyptian elite This volume analyses the new presentation of foreigners in these tombs Far from being chaotic they are shown in an orderly fashion carrying tribute that underscores the wealth and prestige of the tomb owner This orderliness reflects the ability of the Egyptian state to impose order on foreign lands but also crucially symbolises the tomb owner's ability to overcome the chaos of death and achieve a successful afterlife Illustrated with colour plates and black and white images this new volume is an important and original study of the significance of these images for the tomb owner and the functioning of the funerary cult How to Survive in Ancient Egypt Charlotte Booth, 2020-04-29 What would it be like if you were transported back to Thebes 1360 BCE This time traveler's guide is a fascinating way to find out Imagine you were transported back in time to Ancient Egypt and you had to start a new life there What would you see How would the people around you think and believe How would you fit in Where would you live What would you eat Where would you go to have your hair done or get help if you got ill or were mugged in the street All these questions and many more are answered in this engaging blend of self help and survival guide that plunges you into this historical environment and explains the many problems and strange new experiences you would face if you were there **The Cambridge World History of Sexualities: Volume 1, General Overviews** Merry E.
