Sexual Life In Sweden:

Sexual Life in Sweden Hans Zetterberg, 2021-10-14 Now available in English Sexual Life in Sweden is a classic piece of sex research by one of Sweden's most distinguished social scientists Sponsored by the Royal Commission on Sex Education more than thirty years ago it remains the only study of sexual behavior in a randomly selected adult population sample ever funded by a government Because an astonishing response rate was achieved 91 percent during the course of Zetterberg's research the claim that Sweden is one of the few countries where generalizations about national sexual behavior can be made may be stated with confidence Zetterberg's study matches the gender of interviewers to that of subjects From a theoretical perspective Zetterberg analyzes the change in Sweden from a restrictive to a contraceptive society The study makes it clear that with over 1 000 acts of intercourse for every live birth 90 percent of sexual activity between consenting adults in modern Sweden does not result simply for procreation Nevertheless the research yields a picture of a highly responsible society Zetterberg explores the emergence of two powerful new norms when having sex you must use contraception and when in an existing sexual relationship you must not start another one He also examines the issue of abortion as part of a concept of social justice The author compares the behavior of those who experience an unwanted pregnancy with those who do not and explains that abortion is seen by Swedes as part of the provision of the welfare and social justice system Included is an examination of the sexual behavior of young people the age of their first sexual experience the circumstances surrounding it whether positive parental involvement in their children's lives has any influence on their sexual conduct and sex education programs in the schools This translation of Zetterberg's study has been prepared by British sociologist Graham Fennell who also authored a new introduction positioning Zetterberg's work in the history of sex research and comparing its findings with contemporary studies in Scandinavia Western Europe and North America In light of the ongoing controversies about sex education its conclusions remain relevant to policy discussions today

Intimacy in Later Life Kate M. Davidson, Graham Fennell, 2017-07-12 To love and be loved is arguably one of the most powerful and fundamental driving forces sustaining self esteem and self identity throughout the life course Need for reciprocal loving does not change as we grow older despite failures of health loss of a partner late divorce and alterations of personality due to the aging process However most studies of human sexuality have ignored the problems and developing patterns of older adults entering into new partnerships To fill this gap Intimacy in Later Life brings together a wide range of distinguished international scholars to address this neglected research area *Desire* Anna Clark, 2012-11-12 the rich range of historical information that Clark weaves into her chapters makes this ambitious overview of sex in Europe a highly accessible and successful endeavour Times Higher Education Supplement Provides a valuable overview of the history of sexuality in Europe since classical antiquity synthesising as it does a mass of studies of specific regions and periods which have appeared during the last two decades Lesley Hall Wellcome Library UK *Desire A History of European Sexuality* is a

sweeping survey of sexuality in Europe from the Greeks to the present day It traces two concepts of sexual desire that have competed in European history desire as dangerous polluting and disorderly and desire as creative transcendent even revolutionary This book follows these changing attitudes toward sexuality through the major turning points of European history Written in a lively and engaging style the book contains many fascinating anecdotes drawing on a rich array of sources including poetry novels pornography and film as well as court records autobiographies and personal letters While Anna Clark builds on the work of dozens of historians she also takes a fresh approach and introduces the concepts of twilight moments and sexual economies Desire integrates the history of heterosexuality with same sex desire and focuses on the emotions of love as well as the passions of lust the politics of sex as well as the personal experiences The Natural Laws of Sexual Life Anton Nystrom,1912 *The Natural Laws of Sexual Life* Anton Kristen Nyström,1908 Nordic Moral Climates Ulla Bondeson, Morality was a dominant theme in the 1990s but concerns about morality seem omnipresent in the first years of the third millennium The year 2002 witnessed the greatest corporate scandals ever seen in the United States with immense impact financially and in human terms Sex scandals were pervasive among Catholic priests in the United States disrupting the lives of thousands of abused children In Scandinavia moral debates and scandals are of a smaller magnitude and more often related to questions about the handling of money by politicians This volume takes an overarching look at the impact of such moral questions in the Nordic countries Its approach is multi disciplinarian embracing philosophy history sociology and political science Based mainly upon a survey of representative samples in Denmark Finland Norway and Sweden this unique study combines interview questions on crime and justice with moral questions concerning equality confidence tolerance and also personal social religious political and national values Bondeson first discusses the Nordic countries from a historical perspective and in statistical terms She then presents interview data on the general sense of justice in Nordic countries in particular exploring how much social and legal equality the Scandinavians have achieved in their welfare states She touches upon criminal behavior and victimization and discusses crime prevention and punishment Bondeson also reviews the problems and methods of the study Finally she adds depth to the statistical analysis by using a number of indexes of morality A trend analysis illustrates the stability of these attitudes over time Nordic Moral Climates is an original empirical study of moral values in Scandinavia It is one of the few comprehensive studies on this subject conducted in any nation or group of nations The book will be of great interest to criminologists sociologists and social theorists Ulla V Bondeson has been professor of criminology at the University of Copenhagen since 1980 and was previously professor of sociology of law at Lund University She has also been a guest professor at several American universities including Harvard and Yale She is the author of Prisoners in Prison Societies available from Transaction *The Continuum Complete International Encyclopedia of Sexuality* Robert T. Francoeur, Raymond J. Noonan, 2004-01-01 A completely updated one volume edition of the 4 volume International Encyclopedia of Sexuality Includes nearly 60 countries and places 12 not

previously covered by more than 200 authorities It is the only reference work of its kind in any language **Historical Dictionary of Sweden** Elisabeth Elgán,Irene Scobbie,2015-09-17 Sweden s transformation in the last century was brought about not by the military prowess of exceptional Swedes indeed neutrality has been a key element in Swedish policy for almost two centuries but by the creative ability of its people Sweden has emerged as a model welfare state and a well ordered democracy to which economists sociologists feminists architects and scientists from sophisticated nations have paid study visits Sweden now depends on international trade to preserve its high standard of living and in a world of harsh international competition often has to struggle to maintain its welfare system and its reputation Despite its present difficulties however it remains one of the world s most advanced and affluent democracies This third edition of Historical Dictionary of Sweden contains a chronology an introduction appendixes an extensive bibliography and a dictionary section with more than 300 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Sweden

Sexual behaviour, debut and identity among Swedish Schoolchildren Åsa A. Kastbom,2015-12-02 Background Sexual behaviour among schoolchildren and adolescents is a sparsely researched area and there are delicate methodological obstacles and ethical concerns when conducting such research Still it is a subject that engages both parents and professionals A sexualized behaviour or an early sexual debut younger than 14 years can be a sign of sexual abuse It is therefore of importance to describe what is common and what is uncommon sexual behaviour among children and what the consequences of an early or a late sexual debut may be for the individual upon reaching late adolescence Adolescents who identify themselves as lesbian gay or bisexual LGB are also a group that needs further attention and research since they are often described as having a lower quality of life and more often experience child abuse than heterosexual teens Aims The research leading to this thesis had four goals 1 to elucidate the sexual behaviour of children between the ages of 7 and 13 as observed by their parents 2 to investigate the relationship between an early sexual debut before 14 years of age and socio demographic data sexual experience health experience of child abuse and behaviour at 18 years of age 3 to explore associations with no sexual debut no oral vaginal or anal sex at the age of 18 and 4 to describe the relationship between sexual identification and socio demographic background data sexual behaviour health and health behaviour experiences of child sexual and or physical abuse and present behaviour among Swedish adolescents Methods The parents of 418 children answered questionnaires about their child s behaviour both general and sexual and a sample of 3432 Swedish high school students completed a survey about sexuality health and abuse at the age of 18 In addition 362 members of the Swedish Federation for Lesbian Gay Bisexual and Transgender Rights RFSL completed the same survey at a mean age of 21 4 years Results Most of the sexual behaviours among the schoolchildren were common and in part related to or varied with age and gender A small number of sexual behaviours often referred to as sexualised or problematic behaviours for example kissing

adults with the tongue imitating intercourse masturbating in public and touching other children's genitals with the mouth were found to be very unusual or not reported by any parent in this normative group of Swedish children. Among the adolescents an early debut younger than 14 years of age correlated positively with number of partners, experience of oral and anal sex, smoking, drug and alcohol use, and antisocial behaviour such as being violent, lying, stealing, and running away from home. Girls with an early sexual debut had significantly more experience of sexual abuse, while boys with an early sexual debut were more likely to have a weak sense of coherence, low self-esteem, and poor mental health, together with experience of sexual abuse, selling sex, and physical abuse. A multiple logistic regression model showed that a number of antisocial acts and health behaviours remained significant, but early sexual debut did not increase the risk of psychiatric symptoms, low self-esteem, or low sense of coherence at 18 years of age. Just under a quarter (24.6%) of the 3,380 adolescents had not had their sexual debut, no oral, anal, or vaginal sex, by the age of 18. There was a positive correlation between not debuting sexually at age 18 and a number of factors such as being more likely to have caring fathers, parents born outside Europe, low sexual desire, lower pornography consumption, lower alcohol and tobacco consumption, less antisocial behavior, and fewer experiences of sexual abuse than 18-year-olds who had already made their sexual debut. Adolescents with a minority sexual identity more often described their relationship with their parents as based on low care and high overprotection than did their heterosexual peers. The minority adolescents used alcohol and drugs to a significantly higher degree than the heterosexual adolescents. Multivariate analysis showed a positive correlation between a minority sexual identity and experience of anal sex, higher sexual lust, experience of sexual abuse, physical abuse, and sexual exploitation. It was more than twice as common to have experience of penetrating sexual abuse and physical abuse with a sexual minority identity.

Conclusions: Behaviours usually referred to as sexualised and problematic are uncommon among children at 7–13 years of age. Professionals should give a child showing a sexualised behaviour special attention and investigate the reasons for the behaviour. Early sexual debut seems to be associated with problematic behaviours during later adolescence, indicating the fact that the early debut for some children is associated with an increased vulnerability which has to be addressed. Family socio-demographics such as family stability and/or cultural status matter when it comes to time of sexual debut. Personality also seems to matter, and further studies are needed to investigate if there is any correlation between personality traits and late sexual debut. Adolescents with no sexual debut at 18 years of age reported fewer antisocial acts, were less likely to smoke and drink alcohol, had less sexual desire, and less experience of sexual abuse. Young people with a sexual minority identity (homo and bisexual) could be seen to have a lower quality of life compared to heterosexual peers, and studies need to be done to further explore possible reasons. They have a higher risk of having experience of sexual and physical abuse compared to heterosexual adolescents. Professionals need to be more aware of this group's additional vulnerability, including the increased risk of child abuse, and offer different forms of support.

Alva and Gunnar Myrdal in Sweden and America, 1898-1945 Walter A. Jackson, 2021-05-17 Alva and Gunnar Myrdal are the only couple ever awarded Nobel prizes as individuals Gunnar won the prize in Economics in 1974 and Alva won the Peace Prize in 1982 This dual biography examines their work as architects of the modern welfare state and probes the connections between the public and private dimensions of their lives Drawing on their extensive personal correspondence and diaries between their electrifying first meeting in 1919 and their protracted marital crisis in the early 1940s this book presents the psychologist and the economist as they sought to combine love and work in an equal partnership Alva and Gunnar simultaneously experimented with a new kind of intimate relationship and designed the social supports necessary for women both to bear and raise children and to contribute their talents and energies to society Like all genuine revolutionaries they struggled to free themselves from the burdens of their upbringings to evaluate their own actions with what they called

unsparing honesty and to test their policy recommendations in practice measuring everything against the values they shared

Jonathan Zimmerman, 2015-02-22 The first comprehensive history of sex education around the world Too Hot to Handle is the first truly international history of sex education As Jonathan Zimmerman shows the controversial subject began in the West and spread steadily around the world over the past century As people crossed borders however they joined hands to block sex education from most of their classrooms Examining key players who supported and opposed the sex education movement Zimmerman takes a close look at one of the most debated and divisive hallmarks of modern schooling In the early 1900s the United States pioneered sex education to protect citizens from venereal disease But the American approach came under fire after World War II from European countries which valued individual rights and pleasures over social goals and outcomes In the so called Third World sex education developed in response to the deadly crisis of HIV AIDS By the early 2000s nearly every country in the world addressed sex in its official school curriculum Still Zimmerman demonstrates that sex education never won a sustained foothold parents and religious leaders rejected the subject as an intrusion on their authority while teachers and principals worried that it would undermine their own tenuous powers Despite the overall liberalization of sexual

attitudes opposition to sex education increased as the century unfolded Into the present it remains a subject without a home
Too Hot to Handle presents the stormy development and dilemmas of school based sex education in the modern world
