Sexual Murder Catathymic And Compulsive Homicide:

Sexual Murder Louis B. Schlesinger, 2021-03-22 Sexual Murder Catathymic and Compulsive Homicides is the culmination of the author's 45 years of experience with and studying sexually motivated homicide. Sexual murders are generally of two types: catathymic and compulsive. Catathymic homicides are caused by a breakthrough of underlying sexual conflicts. They can be unplanned explosive acute attacks or planned murders stemming from a chronic obsession with or disturbed attachment to the victim. In compulsive homicides, a fusion of sex and aggression results in a powerful internal drive which pushes the offender to seek out victims to kill and the killing itself is sexually gratifying. These murders also may be planned or unplanned. In compulsive homicides that are unplanned, the urge breaks through and disrupts the offender's controls when a victim of opportunity crosses his path. The compulsive offender who plans his crimes often eludes law enforcement and as a result he can have multiple serial victims over extended periods of time. Both forms of sexual murder, the catathymic and the compulsive, are presented in this volume from a clinical descriptive perspective encompassing case studies with analysis. Recent advances in empirical research in sexual murder, including findings from the joint research project between John Jay College of Criminal Justice and the FBI Behavioral Analysis Unit in Quantico, has published many important studies. These include such topics as necrophilia, foreign object insertions in sexual homicide, ritual and signature, and temporal patterns in serial sexual homicide, mass murder, crime scene staging in homicide, and undoing symbolic reversal at homicide scenes. All such research will be included and incorporated into this fully updated Second Edition, including approximately fifty new clinical case studies.

A Global Casebook of Sexual Homicide Heng Choon (Oliver) Chan, 2019-06-22 This book comprehensively discusses 13 infamous cases of serial and non-serial sexual homicide committed around the globe in the past four decades (1974-2010). Offering a psycho-criminological perspective, it analyzes the cases theoretically, i.e., contributing and precipitating factors and offender typology, and considers the practical implications, i.e., investigative and crime preventive measures and social services. The first book to offer a glimpse of this topic from a global perspective, it adopts a unique approach: case background and critical analysis. As such, it is a valuable source of reference for scholars, clinicians, and law enforcement practitioners wanting to gain a better understanding of this type of violent offender.
