Erotic Innocence James Russell Kincaid, 1998 Explores the current preoccupation with child molesting and children's sexuality and the ways that this degree of fascination is itself suspect *Child Sexual Abuse: Whose Problem?* Sue Richardson, Heather Bacon, 2018-09-26 In Cleveland in 1987 a medical diagnosis of child sexual abuse was made in 127 children resulting in their removal from home The consequent intense scrutiny and public criticism around the case together with the subsequent Butler Sloss inquiry resulted in the medical evidence being discredited giving rise to a system which relies on children to speak out about their abuse This book argues that this 1987 crisis continues to shape child protection today resulting in opportunities to protect children being missed Now re issued with a substantial new introduction and concluding reflections this book provides the only account by key professionals directly involved in the Cleveland cases allowing readers to understand what really took place in Cleveland and why it continues to matter today It analyses the many failures to address the plight of sexually abused children and makes constructive suggestions for the way forward to provide more effective interventions for children at risk

Treatment of Child and Adult Survivors Byrgen P. Finkelstein, 2013-08-06. First published in 1995. This is Volume five of a series that looks at the developmental stages in addressing the complex and social problem of child abuse. The articles in this volume address the treatment of child victims and adult survivors of childhood sexual, physical, and emotional abuse and neglect. Where physical abuse is concerned, treatment of victims and survivors lagged far behind the treatment of sexual abuse victims and survivors. This may be due in part to the fact that in cases of physical abuse with its physical manifestations that heal more attention is paid to the immediate physical safety of children than to their short and long term emotional needs. Thereafter the focus of treatment tended to be on parents in hopes of preventing further abuse rather than on the abused children.
