Feminism and the Power of Love Adriana García-Andrade, Lena Gunnarsson, Anna Jónasdóttir, 2018-04-17 The power of love has become a renewed matter of feminist and non feminist attention in the 21st century s theory debates What is this power Is it a form of domination Or is it a liberating force in our contemporary societies Within *Feminism and the Power of Love* lies the central argument that although love is a crucial site of gendered power asymmetries it is also a vital source of human empowerment that we cannot live without Instead of emphasizing either or this enlightening title puts the dualities and contradictions of love center stage Indeed by offering various theoretical perspectives on what makes love such a central value and motivator for people this title will increase one s understanding as to why love can keep people in its grip even when practiced in ways that deplete and oppress In light of such analyses the contributions within *Feminism and the Power of Love* present new perspectives on the conditions and characteristics of non oppressive mutually enhancing ways of loving Bridging the gap between Feminist Affect Studies and Feminist Love Studies this book will appeal to undergraduate and postgraduate students including postdoctoral researchers interested in fields such as women s and gender studies sociology political science philosophy cultural studies and sexuality studies

Gender And Crime: A Reader Evans, Karen, Jamieson, Janet, 2008-07-01 Law

The SAGE Handbook of Feminist Theory Mary Evans, Clare Hemmings, Marsha Henry, Hazel Johnstone, Sumi Madhok, Ania Plomien, Sadie Wearing, 2014-08-12 At no point in recorded history has there been an absence of intense and heated discussion about the subject of how to conduct relations between women and men This Handbook provides a comprehensive guide to these omnipresent issues and debates mapping the present and future of thinking about feminist theory The chapters gathered here present the state of the art in scholarship in the field covering Epistemology and marginality Literary visual and cultural representations Sexuality Macro and microeconomics of gender Conflict and peace

The most important consensus in this volume is that a central organizing tenet of feminism is its willingness to examine the ways in which gender and relations between women and men have been and are organized. The authors bring a shared commitment to the critical appraisal of gender relations as well as a recognition that to think theoretically is not to detach concerns from lived experience but to extend the possibilities of understanding. With this focus on theory and theorizing about the world in which we live, this Handbook asks us across all disciplines and situations to abandon our taken-for-granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism. It is an essential reference work for advanced students and academics not only of feminist theory but of gender and sexuality across the humanities and social sciences.

Women, Knowledge, and Reality Ann Garry, Marilyn

Pearsall, 2015-07-17 This second edition of *Women, Knowledge, and Reality* continues to exhibit the ways in which feminist philosophers enrich and challenge philosophy. Essays by twenty-five feminist philosophers, seventeen of them new to the second edition, address fundamental issues in philosophical and feminist methods, metaphysics, epistemology, and the philosophies of science, language, religion, and mind/body. This second edition expands the perspectives of women of color, of postmodernism, and French feminism and focuses on the most recent controversies in feminist theory and philosophy. The chapters are organized by traditional fields of philosophy and include introductions which contrast the ideas of feminist thinkers with traditional philosophers. The collected essays illustrate both the depth and breadth of feminist critiques and the range of contemporary feminist theoretical perspectives.

Fires on the Border Rosemary

Hennessy, 2013-12-01 The history of the maquiladoras has been punctuated by workers' organized resistance to abysmal working and living conditions. Over years of involvement in such movements, Rosemary Hennessy was struck by an elusive but significant feature of these struggles: the extent to which organizing is driven by attachments of affection and antagonism, belief, betrayal, and identification. What precisely is the affective dimension of organizing for justice? Are affects and emotions the same? And how can their value be calculated? *Fires on the Border* takes up these questions of labor and community organizing, its affect culture on Mexico's northern border from the early 1970s to the present day. Through these campaigns, Hennessy illuminates the attachments and identifications that motivate people to act on behalf of one another and that bind them to a common cause. The book's unsettling even jarring narratives bring together empirical and ethnographic accounts of

specific campaigns the untold stories of gay and lesbian organizers love and utopian longing in concert with materialist theories of affect and the critical good sense of Mexican organizers Teasing out the integration of affect culture in economic relations and cultural processes Hennessy provides evidence that sexuality and gender as strong affect attractors are incorporated in the harvesting of surplus labor At the same time workers testimonies confirm that the capacities for bonding and affective attachment far from being entirely at the service of capital are at the very heart of social movements devoted to sustaining life

Love Anna G. Jónasdóttir, Ann Ferguson, 2013-11-12 This unique timely book of original essays sets the stage for a new materialist feminist debate on the analysis ethics and politics of love The contributors raise questions about social power and domination situating their research in a materialist feminist perspective that investigates love historically in order to understand changing ideologies representations and practices The essays range from studies of particular representations and examples of love feminist translation mass media images and internet love blogs to feminist theories of love and marriage to ethical and political theories describing critiquing or advocating the use of love in groups as a radical force They break new ground in bringing together questions of gendered interests in love temporal dimensions of loving practices and the politics of love in radical transformations of society

Development Betrayed Richard B Norgaard, 2006-05-18 Modernity promised control over nature through science material abundance through technology and effective government through rational social organization Instead of leading to this promised land it has brought us to the brink of environmental and cultural disaster Why has there been this gap between modernity's aspirations and its achievements Development Betrayed offers a powerful answer to this question Development with its unshakeable commitment to the idea of progress is rooted in modernism and has been betrayed by each of its major tenets Attempts to control nature have led to the brink of environmental catastrophe Western technologies have proved inappropriate for the needs of the South and governments are unable to respond effectively to the crises that have resulted Offering a thorough and lively critiques of the ideas behind development Richard Norgaard also offers an alternative co evolutionary paradigm in which development is portrayed as a co evolution between cultural and ecological systems Rather than a future with all peoples merging to one best way of knowing and doing things he envisions a future of a patchwork quilt of cultures with real possibilities for harmony

The Radicalism of Romantic Love Renata Grossi, David West, 2017-03-31 Undoubtedly Romantic love has come to saturate our culture and is often considered to be a or even the major existential goal of our lives capable of providing us with both our sense of worth and way of being in the world The Radicalism of Romantic Love interrogates the purported radicalism of Romantic love from philosophical cultural and

psychoanalytic perspectives exploring whether it is a subversive force capable of breaking down entrenched social political and cultural norms and structures or whether in spite of its role in the fight against certain barriers it is in fact a highly conservative impulse Exploring both the grounds for the central place of Romantic love in contemporary lives and the meaning extent and nature of its supposed radicalism this volume considers love from a variety of theoretical perspectives with attention to matters of gender sexuality class and ethnicity With authors examining a range of questions including the role of love in the same sex marriage debate polyamory and the notion of love as a political force *The Radicalism of Romantic Love* illuminates a fundamental but perplexing aspect of our contemporary lives and will appeal to scholars across the social sciences and humanities with interests in the emotions and love as a social and political phenomenon Iris Marion Young Michaela Ferguson, Andrew Valls, 2021-11-18 Iris Marion Young 1949 2006 was one of the most influential and innovative political theorists of her generation who had a significant impact on a wide range of topics such as democratic theory feminist theory and justice She bridged many longstanding divides among political theorists engaging in Continental and critical theory but also insisting on the importance of normative argument her corpus stands as a testament to the fruitfulness of engaging in both abstract theory and the real world of everyday politics This volume spans the several decades of her work illustrating her intellectual development over time through three major areas of innovation Gender Maintaining that gender is both conceptually and politically meaningful Young theorized gender in terms of structures that in combination position different people we call women in different ways such that some women have some structures in common without all women sharing all gendered structures in common Justice Young's early writings on a critical theory of justice evolved in her later and posthumously published works where she developed an account of justice that brought together her theorization of structure with her concern to respond to contemporary claims of injustice *The Politics of Difference* Young rejected universal and abstract theories of justice and maintained that justice instead required attending to the experiences of people marked by difference This volume will prove useful to scholars and students working in the fields of critical and political theory feminist theory international law and public diplomacy *Key Thinkers from Critical Theory to Post-Marxism* Simon Tormey, Jules Townshend, 2006-06-19 Tormey and Townshend have succeeded not only in making accessible the notoriously evasive ideas of Post Marxist thinkers they have begun the vital work of critically examining their contribution to Marx's project of overcoming capitalism James Martin Goldsmiths University of London Excellent textbook critical challenging and thoroughly engaging Richard White Sheffield Hallam University In language which is clear without being simplistic Tormey and Townshend help readers think about ways to live with and without Marx in the wake of Marxism's historical failures as well as its continuing relevance to life under globalizing capitalism Mark Rupert Syracuse University *Key Thinkers in Critical Theory to Post Marxism* is a comprehensive introduction to perhaps the most key intellectual trend in contemporary critical theory In jargon free language it seeks to unpack explain and review many of the key figures behind the rethinking of the

legacy of Marxism in theory and practice Key thinkers covered include Cornelius Castoriadis Jean Francois Lyotard Deleuze and Guattari Laclau and Mouffe Agnes Heller Jacques Derrida Jürgen Habermas and post Marxist feminism Each chapter covers a key thinker or contribution and thus can be read as a stand alone introduction to the principal aspects of their approach Each chapter is followed by a summary of key points with a guide to further reading Underlying the text is also the central question What is Post Marxism Instead of viewing Post Marxism as an ideology movement or tradition of theorizing the authors advocate Post Marxism as a loose appellation describing those who have problematised Marx's approach to understanding and challenging contemporary capitalism As such the book also offers an engaging commentary on some of the key political developments of our time including for example the anti globalisation movement Key Thinkers in Critical Theory to Post Marxism provides an ideal introduction to a hitherto complex subject and will be essential reading for students of contemporary social and political inquiry

Deferrals of Domain NA NA, 2016-04-30 Contemporary female novelists tend to portray the relationship between women and the state as profoundly negative in contrast to various constructions in current feminist theory Martine Watson Brownley analyzes novels by Margaret Atwood Paule Marshall Nadine Gordimer and Margaret Drabble to explore the significance of this disparity The book uses literary analysis to highlight elements of state power that many feminist theorists currently occlude ranging from women's still minimal access to state politics to the terrifying violence exercised by modern states At the same time however feminist theory clarifies major elements in many contemporary women's lives about which the novels are ambivalent or misleading such as romantic love and the role of sexuality in state politics Deferrals of Domain fills a double gap both authorial and topical in current critical treatments of

women writers and will be of interest to both literary and women s studies scholars
