## **Sexual Ideology Schooling Towards De:**

**Sexual Ideology and Schooling** Alexander McKay, 1999-11-04 Sexuality education in the schools has become a key battleground in the wider social conflict over the sexual norms of Western culture In Sexual Ideology and Schooling Alexander McKay conceptualizes the sexuality debates as a battle between two basic but diametrically opposed belief systems about the nature and purpose of sexuality in human life and society Restrictive and Permissive He outlines the philosophical moral foundations of a democratic approach to teaching young people about sexuality and persuasively argues that public institutions including the schools should base public policy related to sexuality on democratic principles rather than the dictates of sexual ideology Schooling, Ideology and the Curriculum Len Barton, Roland Meighan, Stephen Walker, 2011 Although the different contributions to this book range over a wide spectrum of substantive issues they share a common interest This is a concern to explore the ways in which notions of the relations between theory and practice between belief and action can be used to develop three kinds of sensitivity in the sociology of education A sensitivity towards how school systems are created maintained and made to function towards developing a more refined critical and constructive awareness of the reliability and validity of descriptions analyses and explanations offered in this field of study and a sensitivity towards the ways in which changes take place within the education system and how the insights and realisations generated in the discipline might be used to control such occurrences *Schooling, Ideology and the Curriculum (RLE Edu L)* Len Barton, Roland Meighan, Stephen Walker, 2012-04-27 Although the different contributions to this book range over a wide spectrum of substantive issues they share a common interest This is a concern to explore the ways in which notions of the relations between theory and practice between belief and action can be used to develop three kinds of sensitivity in the sociology of education A sensitivity towards how school systems are created maintained and made to function towards developing a more refined critical and constructive awareness of the reliability and validity of descriptions analyses and explanations offered in this field of study and a sensitivity towards the ways in which changes take place within the education system and how the insights and realisations generated in the discipline might be used to control such occurrences

**Resources in Education** ,2000-04 **Encyclopedia of Diversity in Education** James A. Banks, 2012-05-17 The diversity education literature both nationally and internationally is broad and diffuse Consequently there needs to be a systematic and logical way to organize and present the state of research for students and professionals American citizens need to understand the dynamics of their increasingly diverse communities and institutions and the global world in which we live work and lead With continually evolving information on diversity policies practices and programs it is important to have one place where students scholars teachers and policymakers can examine and explore research policy and practice issues and find answers to important questions about how diversity in U S education enriched with theories research and practices in other nations are explained and communicated and how they affect institutional change at both the K 12 and

postsecondary levels With about 700 signed entries with cross references and recommended readings the Encyclopedia of Diversity in Education 4 volumes in both print and electronic formats will present research and statistics case studies and best practices policies and programs at pre and postsecondary levels Diversity is a worldwide phenomenon and while most of the entries in the Encyclopedia will focus on the United States diversity issues and developments in nations around the world including the United States are intricately connected Consequently to illuminate the many aspects of diversity this volume will contain entries from different nations in the world in order to illuminate the myriad aspects of diversity From A to Z this Encyclopedia will cover the full spectrum of diversity issues including race class gender religion language exceptionality and the global dimensions of diversity as they relate to education This four volume reference work will be the definitive reference for diversity issues in education in the United States and the world

### **Sexual Revolutions in Cuba** Carrie

Hamilton,2012-03-12 In Sexual Revolutions in Cuba Carrie Hamilton delves into the relationship between passion and politics in revolutionary Cuba to present a comprehensive history of sexuality on the island from the triumph of the Revolution in 1959 into the twenty first century Drawing on an unused body of oral history interviews as well as press accounts literary works and other published sources Hamilton pushes beyond official government rhetoric and explores how the wider changes initiated by the Revolution have affected the sexual lives of Cuban citizens She foregrounds the memories and emotions of ordinary Cubans and compares these experiences with changing policies and wider social political and economic developments to reveal the complex dynamic between sexual desire and repression in revolutionary Cuba Showing how revolutionary and prerevolutionary values coexist in a potent and sometimes contradictory mix Hamilton addresses changing patterns in heterosexual relations competing views of masculinity and femininity same sex relationships and homophobia AIDS sexual violence interracial relationships and sexual tourism Hamilton s examination of sexual experiences across generations and social groups demonstrates that sexual politics have been integral to the construction of a new revolutionary Cuban society

### **Sexual Violence Policies and Sexual Consent Education at Canadian Post-Secondary Institutions** D. Scharie Tavcer,Vicky Dobkins,2023-01-18

This book is the culmination of three years of research into sexual violence policies and sexual consent education at post secondary institutions across Canada The prevalence of sexual violence has not changed in more than 30 years and its reporting to police or school authorities has only waxed and waned over those years In response this book asks what can be done differently to reduce the number of victims and potential perpetrators The book provides an environmental scan of over 120 post secondary institutions PSIs across Canada as well as a deeper analysis of 7 PSIs that also include student and staff experiences and opinions The three year research project employed various phases to capture over 160 student voices and

over 20 sexual violence staff and subject experts Subject experts and students were also involved in reviewing the draft iterations of the proposed sexual consent education module This book delivers readers with a broad brush approach to understanding the landscape of sexual violence prevention and education services at PSIs across Canada It provides a narrowed focus on 7 PSIs where student and staff survey responses and interviews provide positionality in response to the available literature The book concludes with a proposed sexual consent education module including its strengths and limitations as a point of discussion for PSIs to include into their sexual violence prevention education repertoire This book is intended for post secondary audiences in Canada North America and elsewhere for undergraduate and graduate students and faculty staff and administrators where it is crucial to consider ways to address its prevalence and the ways we can incorporate prevention education into our campus communities *Young People's Views on Sex Education* Dr Lynda Measor, Lynda Measor, Katrina Miller, Coralie Tiffin, 2012-11-12 Based on observation of sex education programmes and in depth interviews with young people the authors aim to understand more about adolescent s attitudes to sexuality and their sexual behaviour in order to develop policies which will meet their needs more appropriately and effectively Issues covered in this interesting and accessible book include the ways adolescent informal culture affects sex education programmes and practice the impact of gender inequality on sex education and safer sex behaviours legislation and policy frameworks which effect sex education policies the way young people see legislation and evaluate sex education programmes and the impact health professionals can have in school sex education The authors contend that the insights into the values and views that young people bring to bear on the sex education they receive should have an important role to play in the development of policy and practice of those involved in sex education work *Sex Ed for Caring Schools* Sharon Lamb, 2015-04-25 While arguments for and against teaching abstinence the use of contraceptives and sexual identity are becoming more and more polarized most people agree that students must learn to navigate an increasingly sexual world Sex Ed for Caring Schools presents a curriculum that goes beyond the typical health education most students receive today As part of a critical pedagogy movement that connects education to social justice enterprises this book and the corresponding online curriculum encourage students to talk write and think about the moral and relational issues underlying sex in society today Addressing the real concerns of todays teens this book includes lessons on pornography prostitution media objectification religion and stereotypes Gendered and Sexual Norms in Global South Early Childhood Education Deevia Bhana, Yuwei Xu, Vina Adriany, 2023-12-01 This volume examines gendered and heteronormative norms embedded within early childhood education ECE in the Global South including Brazil China Pakistan South Africa and Vietnam In this book the contributors explore how gender culture religion masculinity sport and conservative politics intersect to perpetuate and resist gendered and sexual norms The book presents a range of possibilities for disrupting and challenging these norms within early childhood educational contexts Grounded in colonial and postcolonial discourses the book emphasises the entanglement of gender and

sexuality in ECE with legacies of colonisation and surrounding social and cultural dynamics highlighting our responsibility to address gender inequalities and injustices The book will appeal to researchers faculty and teacher educators with interests in gender and sexuality in education international and comparative education and early childhood education Framing a Revolution Rachel Schmidt, 2023-03-09 Rhetorical contests about how to frame a war run alongside many armed conflicts With the rise of internet access social media and cyber operations these propaganda battles have a wider audience than ever before Yet such framing contests have attracted little attention in scholarly literature What are the effects of gendered and strategic framing in civil war How do different types of individuals victims combatants women commanders utilize the frames created around them and about them Who benefits from these contests and who loses Following the lives of eleven ex combatants from non state armed groups and supplemented by over one hundred interviews conducted across Colombia Framing a Revolution opens a window into this crucial part of civil war Their testimonies demonstrate the importance of these contests for combatants commitments to their armed groups during fighting and the Colombian peace process while also drawing implications for the concept of civil war worldwide *Handbook of Urban Educational Leadership* Rene O. Guillaume, Noelle Witherspoon Arnold, Azadeh F. Osanloo, 2021-10-15 This book is the second edition of the highly successful Handbook of Urban Educational Leadership This book examines the uniqueness of the urban school and those in leadership roles that affect urban students and schools It examines community district school and teacher leadership influencing urban schools This edition examines conceptualizations of urban ecologies as well as other critical geographies and how these shape understandings in educational contexts Contributions for this edition focused on areas that examined social technological international and other processes with intersections of issues of race class and gender power politics and capital and how they influence urban educational leadership We also included place and space based theories and discourses that influence urban realities which include but were not limited to networks assemblages safe brave space placemaking flow thirdspace homeplace and urban normativity *Journal - Association Canadienne Pour la Santé, L'éducation Physique, Le Loisir Et la Danse*, 1999 **Ideology, Discourse, and School Reform** Zeus Leonardo, 2003-10-30 Leonardo introduces an integrated theory of ideology that examines its necessary negative and positive functions A three dimensional theory highlights the concept of ideology during the reform process and links it to domination Through an ideological critique of reform language the book provides insights into domination and ways to counteract it The movement for educational change lacks a concerted engagement with ideology with respect to school reform Ideology is a central structuring concept in education especially regarding the intractable problem of domination Race class and gender inequalities have become dilemmas that plague many students chances for academic success let alone the good life In addition to constructing ideology as a form of distortion the book considers it as a necessary mechanism for teachers as they make meaning of their daily experiences as well as a positive force for teachers who combat relations of domination This work introduces an integrated

theory of ideology that examines its necessary negative and positive functions A three dimensional theory highlights the concept of ideology during the reform process and links it to educational and social inequality This work looks at the rhetoric of education reform and ways to counteract it so that the goal of educational equality will be possible for all     **A Critical Analysis of Sexuality Education in the United States** Tiffani Kocsis,2019-10-11 A Critical Analysis of Sexuality Education in the United States explores the development of sexuality education in North America and uses economic legal and psychological paradigms to identify and trace exclusionary programming and practices in schools By analyzing legal and political documents as well as state and private curricula this insightful text considers the historical and contemporary experiences of adolescents in connection to the social structures of sexuality education Challenging the current state of sex education in the United States in terms of both content and delivery the chapters succinctly illustrate how schools are failing to meet the developmental needs of all students Student perspectives and evidence based research demonstrate that an exclusionary curriculum is failing to equip students with the knowledge and understanding they require to undergo a process of empowerment about their sexuality and engage in safe informed and consensual sexual activity Finally by employing a rights based approach to sexuality education the author offers important recommendations for change in state and federal curricula Offering unique and comprehensive insight into the state of sex education in the United States this text will be of great interest to graduate and postgraduate students academics researchers policy makers and libraries in the fields of sexuality education education policy and politics sociology of education gender studies and curriculum studies

**Education and the Family** Sampson Lee Blair,Timothy J. Madigan,2025-05-26 Chapters cover a wide array of topics such as family emotional support for students family stressors and education gendered nature of parental support cultural variation in parental engagement and involvement among others     Rethinking Sexual Identity in Education Susan Birden,2005 Rethinking Sexual Identity in Education responds to the wide spread abuse of lesbian gay bisexual transgender and questioning persons LGBTQs in diverse educational environments by utilizing published narratives of LGBTQs educational experiences Conceptualizing a praxis for LGBTQ allies to use in teaching and learning about sexual identity in ways that can transform educational practices and policies this work bridges gaps between theory and practice liberal and postmodern thought invention and intervention Visit our website for sample chapters     Civilization without Sexes Mary Louise Roberts,2009-02-15 In the raucous decade following World War I newly blurred boundaries between male and female created fears among the French that theirs was becoming a civilization without sexes This new gender confusion became a central metaphor for the War s impact on French culture and led to a marked increase in public debate concerning female identity and woman s proper role Mary Louise Roberts examines how in these debates French society came to grips with the catastrophic horrors of the Great War In sources as diverse as parliamentary records newspaper articles novels medical texts writings on sexology and vocational literature Roberts discovers a central question how to come to terms with rapid

economic social and cultural change and articulate a new order of social relationships She examines the role of French trauma concerning the War in legislative efforts to ban propaganda for abortion and contraception and explains anxieties about the decline of maternity by a crisis in gender relations that linked soldiery virility and paternity Through these debates Roberts locates the seeds of actual change She shows how the willingness to entertain or simply the need to condemn nontraditional gender roles created an indecisiveness over female identity that ultimately subverted even the most conservative efforts to return to traditional gender roles and irrevocably altered the social organization of gender in postwar France

web what is a tensor let  $V$  be a finite dimensional vector space 1 it could be  $\mathbb{R}^n$  it could be the tangent space to a manifold at a point or it could just be an abstract vector space a  $k$  tensor is a map  $T: V \times \dots \times V \rightarrow \mathbb{R}$  where there are  $k$  factors of  $V$  that is linear in each factor 2 that is for  $x \in V$   $\sum v_i x_i = \sum v_i x_i$
