

# Aging Sexual Knowledge and Attitudes Scale

Charles B. White,<sup>1</sup> *Trinity University*

The Aging Sexual Knowledge and Attitudes Scale (ASKAS) is designed to measure two realms of sexuality: (a) knowledge about changes (and nonchanges) in sexual response to advanced age in males and females and (b) general attitudes about sexual activity in older adults. The items are largely specific to elderly persons rather than a general sexual knowledge-attitudes scale. The ASKAS was developed for use in assessing the impact of group or individual interventions on behalf of sexual functioning in older adults using, for example, a pretest-posttest procedure. Furthermore, the measure may form the basis for group and individual discussion about sexual attitudes and sexual knowledge. The scale is also appropriate for use in educational programs for those working with older adults.

The actual numerical scores may be conveniently used for research purposes, but the individual items are also useful to assess the extent of an individual's knowledge on which to base clinical interventions, as well as identifying attitudinal obstacles to sexual intimacy in old age.

## Description, Response Mode, and Timing

The ASKAS consists of 61 items, 35 true/false/don't know in format and 26 items responded to on a 7-point Likert-type scale as to degree of agreement or disagreement with the particular item. The 35 true/false questions assess knowledge about sexual changes and nonchanges that are or are not age related. The 26 agree/disagree items assess attitudes toward sexual behavior in older adults. The items are counterbalanced. The instrument takes 20-40 minutes to complete.

## Scoring

The ASKAS may be given in an interview or paper-and-pencil format and may be group administered or individually administered. The nature of the scoring and items are readily adaptable to computer-scoring systems.

Scoring is such that a low knowledge score indicates high knowledge, and a low attitude score indicates a more permissive attitude. The rationale for the low knowledge score reflecting high knowledge is that we have given don't know a value of 3, indicating low knowledge. In the knowledge section, Questions 1 through 35, the following scoring applies: true = 1, false = 2, and don't know = 3. Items 1, 10, 14, 17, 20, 30, and 31 are reversed scored. In the exhibit, the correct answers are in parentheses for Items 1 through 35. The attitude questions, 36 through 61, are each scored according to the value selected by the respondent

with the exception of Items 44, 47, 48, 50-56, and 59, in which the scoring is reversed.

## Reliability

The reliability of the ASKAS has been examined in several different studies, and in varying ways, summarized in Table 1. As can be seen, reliabilities are very positive and at acceptable levels.

## Validity

Presented in Table 2 are the means and standard deviations of ASKAS scores from several studies. These means are not meant to be viewed as normative but rather are illustrative of group variation in ASKAS performance.

The validity of the ASKAS has been examined in a sexual education program for older persons, by individuals working with older persons, and by adult family members of aged persons in which each group received the psychological-educational intervention separately (White & Catania, 1981). Each experimental group had a comparable nonintervention control group. In all cases, the educational intervention resulted in significant increases in knowledge

**The Making of English Popular Culture** John Storey, 2016-05-20 The Making of English Popular Culture provides an account of the making of popular culture in the nineteenth century While a form of what we might describe as popular culture existed before this period John Storey has assembled a collection that demonstrates how what we now think of as

popular culture first emerged as a result of the enormous changes that accompanied the industrial revolution. Particularly significant are the technological changes that made the production of new forms of culture possible and the concentration of people in urban areas that created significant audiences for this new culture. Consisting of fourteen original chapters that cover diverse topics ranging from seaside holidays and the invention of Christmas tradition to advertising music and popular fiction, the collection aims to enhance our understanding of the relationship between culture and power as explored through areas such as race, ethnicity, class, sexuality, and gender. It also aims to encourage within cultural studies a renewed historical sense when engaging critically with popular culture by exploring the historical conditions surrounding the existence of popular texts and practices. Written in a highly accessible style, *The Making of English Popular Culture* is an ideal text for undergraduates studying cultural and media studies, literary studies, cultural history, and visual culture.

**Culture and Change** Margaret Lael Mikesell, Adele F. Seeff, 2003. These issues of city building and institutional change involved more than the familiar push and pull of interest groups or battles between bosses, reformers, immigrants, and natives. Revell explores the ways in which technical values, a distinctive civic culture of expertise helped to reshape ideas of community, generate new centers of public authority, and change the physical landscape of New York City. **The English Renaissance** Kate Aughterson, 2001-08-23. This anthology collects together primary texts and documents written by Elizabeth Tudor, Machiavelli, Edmund Spenser, Francis Bacon, Ben Jonson, Galileo Galilei, James I, Walter Raleigh, and Michel Montaigne, relevant to the literature, culture, and intellectual life in England between 1550 and 1660. Divided into sections, this collection of primary sources covers such topics as religion, politics, society, and social life, education, literary and cultural theories, science, and magic, gender, and sexuality, and exploration and trade. *Awfully Devoted Women* Cameron Duder, 2011-01-01. The lives of many lesbians prior to 1965 remain cloaked in mystery. Historians have turned the spotlight on upper middle class romantic friends and on working class butch and femme women, but the lives of the lower middle class majority remain in the shadows. *Awfully Devoted Women* offers a portrait of middle class lesbianism in the decades before the gay rights movement in English Canada. This intimate study of the lives of women who were forced to love in secret not only challenges the idea that lesbian relationships in the past were asexual; it also reveals the courage it took to explore desire in an era when women were supposed to know little about sexuality.

**The Routledge Research Companion to Nineteenth-Century British Literature and Science** John Holmes, Sharon Ruston, 2017-05-18. Tracing the continuities and trends in the complex relationship between literature and science in the long nineteenth century, this companion provides scholars with a comprehensive, authoritative, and up-to-date foundation for research in this field. In intellectual, material, and social terms, the transformation undergone by Western culture over the period was unprecedented. Many of these changes were grounded in the growth of science. Yet science was not a cultural monolith; then, any more than it is now, and its development was shaped by competing world views. To cover the full range of literary engagements with

science in the nineteenth century this companion consists of twenty seven chapters by experts in the field which explore crucial social and intellectual contexts for the interactions between literature and science how science affected different genres of writing and the importance of individual scientific disciplines and concepts within literary culture Each chapter has its own extensive bibliography The volume as a whole is rounded out with a synoptic introduction by the editors and an afterword by the eminent historian of nineteenth century science Bernard Lightman Thinking Sex with the Early Moderns Valerie Traub,2016 What do we know about early modern sex and how do we know it How when and why does sex become history In Thinking Sex with the Early Moderns Valerie Traub addresses these questions and in doing so reorients the ways in which historians and literary critics feminists and queer theorists approach sexuality and its history Her answers offer interdisciplinary strategies for confronting the difficulties of making sexual knowledge Based on the premise that producing sexual knowledge is difficult because sex itself is often inscrutable Thinking Sex with the Early Moderns leverages the notions of opacity and impasse to explore barriers to knowledge about sex in the past Traub argues that the obstacles in making sexual history can illuminate the difficulty of knowing sexuality She also argues that these impediments themselves can be adopted as a guiding principle of historiography sex may be good to think with not because it permits us access but because it doesn't Encyclopedia of Historians and Historical Writing Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies Bernard Mandeville's "A Modest Defence of Publick Stews" I. Primer,2006-03-15 In this study of Bernard Mandeville's A Modest Defence of Publick Stews Irwin Primer breaks new ground by arguing that in addition to being an advocacy for the establishment of state regulated houses of prostitution Mandeville's writing is also a highly polished work of literature A Surgical Temptation Robert Darby,2024-05-31 In the eighteenth century the Western world viewed circumcision as an embarrassing disfigurement peculiar to Jews A century later British doctors urged parents to circumcise their sons as a routine precaution against every imaginable sexual dysfunction from syphilis and phimosis to masturbation and bed wetting Thirty years later the procedure again came under hostile scrutiny culminating in its disappearance during the 1960s Why Britain adopted a practice it had traditionally abhorred and then abandoned it after only two generations is the subject of A Surgical Temptation Robert Darby reveals that circumcision has always been related to the question of how to control male sexuality This study explores the

process by which the male genitals and the foreskin especially were pathologized while offering glimpses into the lives of such figures as James Boswell John Maynard Keynes and W H Auden Examining the development of knowledge about genital anatomy concepts of health sexual morality the rise of the medical profession and the nature of disease Darby shows how these factors transformed attitudes toward the male body and its management and played a vital role in the emergence of modern medicine

The World We Have Won Jeffrey Weeks, 2007-06-21 This book explores the life changes since 1945 from welfarism to the pill and from globalization to individualization Rejecting the cultural pessimism it argues that this is a world we are increasingly making for ourselves a world we have won

*English Masculinities, 1660-1800* Tim Hitchcock, Michelle Cohen, 2014-07-30 This collection of specially commissioned essays provides the first social history of masculinity in the long eighteenth century Drawing on diaries court records and prescriptive literature it explores the different identities of late Stuart and Georgian men The heterosexual fop the homosexual the polite gentleman the blackguard the man of religion the reader of erotica and the violent aggressor are each examined here and in the process a new and increasingly important field of historical enquiry is opened up to the non specialist reader The book opens with a substantial introduction by the Editors This provides readers with a detailed context for the chapters which follow The core of the book is divided into four main parts looking at sociability virtue and friendship violence and sexuality Within this framework each chapter forms a self contained unit with its own methodology sources and argument The chapters address issues such as the correlations between masculinity and Protestantism masculinity Englishness and taciturnity and the impact of changing representations of homosexual desire on the social organisation of heterosexuality Misogyny James Boswell s self presentation the literary and metaphorical representation of the body the roles of gossip and violence in men s lives are each addressed in individual chapters The volume is concluded by a wide ranging synoptic essay by John Tosh which sets a new agenda for the history of masculinity An extensive guide to further reading is also provided Designed for students academics and the general reader alike this collection of essays provides a wide ranging and accessible framework within which to understand eighteenth century men Because of the variety of approaches and conclusions it contains and because this is the first attempt to bring together a comprehensive set of writings on the social history of eighteenth century masculinity this volume does something quite new It de centres and problematises the male standard and explores the complex and disparate masculinities enacted by the men of this period This will be essential reading for anyone interested in eighteenth century British social history

*Sex between Body and Mind* Katie Sutton, 2019-11-25 Ideas about human sexuality and sexual development changed dramatically across the first half of the 20th century As scholars such as Magnus Hirschfeld Iwan Bloch Albert Moll and Karen Horney in Berlin and Sigmund Freud Wilhelm Stekel and Helene Deutsch in Vienna were recognized as leaders in their fields the German speaking world quickly became the international center of medical scientific sex research and the birthplace of two new and distinct professional disciplines sexology and psychoanalysis This is the first book to closely examine vital encounters among this era's German speaking researchers across their emerging professional and disciplinary boundaries Although psychoanalysis was often considered part of a broader sexual science sexologists increasingly distanced themselves from its mysterious concepts and clinical methods Instead they turned to more pragmatic interventionist therapies in particular to the burgeoning field of hormone research which they saw as crucial to establishing their own professional relevance As sexology and psychoanalysis diverged heated debates arose around concerns such as the sexual life of the child the origins and treatment of homosexuality and transgender phenomena and female frigidity This new story of the emergence of two separate approaches to the study of sex demonstrates that the distinctions between them were always part of a dialogic and competitive process It fundamentally revises our understanding of the production of modern sexual subjects

*Facing the Complexities of Women's Sexual Desire* Vera S. Maass, 2006-11-22 This book represents a broad based approach to a narrow but complex issue The issue causes distress for many and has been instrumental in family disruption and divorce Women's sexual desire whether it is too little or too much has become an issue of growing concern and vague promises for solution In the meantime the women are looking for answers consulting professionals in the field of human sexuality physicians or therapists media advice and self help books The material discussed in this book is not part of any structured research The women encountered in the pages of this book have not been selected on a random basis Some have been clients some are volunteers from the general population and another group is made up of undergraduate college students The college students came from a varied ethnic and cultural background while the clients mainly were of white and African American background The volunteers were predominantly from a white middle class population There is no claim that the women are representative of all women in the general population
