

En este mes tan significativo para el mundo del síndrome de Down, conmemoramos o celebramos (respetable decisión) el 21 de marzo el día mundial del síndrome de Down **DMSD**, designado por la Asamblea General de la ONU en diciembre de 2011.

Con esta conmemoración o celebración, la ONU pretende crear mayor conciencia pública sobre esta característica de vida y recordar la dignidad inherente, la valía y las valiosas contribuciones de las personas con síndrome de Down como promotores del bienestar y de la diversidad de sus comunidades. Asimismo, quiere resaltar la importancia de su autonomía e independencia individual, en particular la libertad de tomar sus propias decisiones.

El **síndrome de Down** siempre ha formado parte de la condición humana, existe en todas las regiones del mundo y habitualmente tiene efectos variables y significativos en los estilos de aprendizaje, las características físicas o la salud.

El acceso adecuado a la atención de la **salud**, a los programas de intervención **temprana** y a la **educación inclusiva**, así como la **investigación** adecuada, son vitales para el crecimiento y el desarrollo de estas personas.

La esterilización de las personas con discapacidad intelectual Pedro Luis Landestoy Méndez,2023-12-13 En la investigación desarrollada por el autor y que hoy desemboca en esta obra jurídica aplicando categorías de la dialéctica están perfectamente sincronizados el contenido con la forma La estructura del trabajo ha resultado armónica de modo que lo sustantivo y lo procesal logran una perfecta simbiosis Aunque la

investigación se perfila en el Derecho civil concretamente en la parte concerniente a las personas la arista procesal va tomando protagonismo hasta ocupar espacios estelares en el discurso académico del autor En efecto el más importante aporte de esta investigación no es solo que per se también lo es el estudio de la discapacidad intelectual sino del modelo procesal idóneo para la tramitación en el orden judicial de la solicitud de esterilización de personas que tienen ciertas discapacidades intelectuales Es un trabajo meticuloso en el que la transversalidad de otras ciencias como la psiquiatría la sociología la metodología de la investigación la filosofía entre otras se impuso Leonardo Pérez Gallardo *Programa de Educación Afectiva Y Sexual* Ana Rodríguez Molares, 2009 El síndrome de DOWN José Quintanal Díaz, José M^a Altés Boronat, Juan Amodia de la Riva, M^a Jose Mudarra Sánchez, Paz Rodríguez del Rincón, Juan Carlos Sánchez Huete, 2018-07-02 Cuando hablamos de Down nos estamos refiriendo a esa triplicación que padece total o parcialmente algunos sujetos en su cromosoma 21 trisomía 21 que provoca algunas alteraciones somáticas Y al definirlo de esta manera queremos evitar el carácter de síndrome que con frecuencia se le atribuye a esta característica Por qué Por las connotaciones negativas que la definición del término suele conllevar No necesariamente Porque un síndrome según la RAE también se refiere a esos síntomas que caracterizan un estado Y como tal nos gustará que se viera Es eso una característica que irremediablemente a la familia o a la escuela que conviven con él interesa Es en estos términos como quisiéramos presentar esta obra un manual que recoge un análisis del Down que ofrece una explicación y una respuesta a todo lo que genera interés en el entorno del niño o de la niña Y eliminar cualquier connotación que permitiese atisbar una preocupación desmesurada por la cuestión De ahí el planteamiento integrador que hacemos como podrá apreciarse en las páginas siguientes Porque entendemos que aún podemos ir más allá de cuestiones inclusivas que deben permitirse normalizar ese estado Abogamos por esa normalización y todo por una buena razón porque los niños y niñas con trisomía 21 cada día nos demuestran que son capaces de todo Va por ellos *Entre la resistencia, el amor y la esperanza* Mirian Adriana Cinquegrani, 2022-04-04 En Argentina la implementación de programas fundados en la educación inclusiva de estudiantes con discapacidad en los niveles de escolaridad obligatoria sigue siendo una deuda del sistema educativo El desfase entre los marcos conceptuales y normativos que abren el camino hacia la inclusión en relación con las prácticas escolares puede ser visualizado a partir del reclamo sostenido de los movimientos asociativos de familias de estudiantes con discapacidad quienes se convirtieron en un dispositivo clave de resistencia y lucha para la plena efectivización del derecho a la educación inclusiva A lo largo de más de diez años las familias desarrollaron una activa labor dirigida a lograr que las personas con discapacidad tengan el derecho a educarse en escuelas comunes independientemente de los diagnósticos y bajo un enfoque social de ciudadanía y de derechos humanos Ahora bien qué experiencias y emociones emergen a partir de sus recorridos qué condiciones condujeron a la prevalencia de situaciones de exclusión y segregación motivo de las luchas familiares cuáles es su repertorio de reivindicaciones cuáles son los modos de resistencia qué estrategias de lucha erigen cuáles ha sido su incidencia en las políticas públicas Estos son algunos de los interrogantes que se desarrollan en

Pacientes con síndrome de Down Alicia Fagliano, 2021-02-12 Este libro se centra en el estudio del material clínico de un niño con deficiencias cognitivas por Síndrome de Down tratado con psicoterapia psicoanalítica con hora de juego Se trata de una investigación audaz ya que los niños que presentan deficiencias cognitivas por causas orgánicas genéticas o lesionales no son tomados habitualmente en tratamiento psicoterapéutico Las preguntas principales que orientaron la investigación dirigidas a determinar la posibilidad de que sean tratados manteniendo el encuadre habitual de este tipo de psicoterapia con niños Se espera que las conclusiones de este trabajo sean un aporte que podrá llevar a un cambio de paradigma acerca de los sujetos que presentan deficiencias cognitivas evitando la estigmatización y el prejuicio **Hacia una antropología del cuidado** Jhonathan Maldonado Ramírez, 2018 Comenzamos a dar cuenta de sí mismos en virtud de nuestra inevitable relación con los otros esto significa que la escena de interpelación es un acto que entra a la postulación de un sujeto que no es autofundante sino constituido en un marco normativo de dependencia que hace posible la aparición de un encuentro entre el otro y yo Dadas las circunstancias el texto plantea como discusión central la experiencia de cuidadores de personas con síndrome de Down con la finalidad de desvelar la formación corporal de un sujeto cuidador que se enfrenta a un marco normativo de dependencia asediado por la regulación de género la heteronormatividad y la integridad corporal obligatoria Por eso decirlo el cuidado condensa la corporeización de un sujeto que se enfrenta a circunstancias que van más allá del propio control ese se enfrenta a eso es una modalidad que dir Judith Butler define la afectividad del cuerpo Enfrentarse a la alteridad relacional es en este singular episodio del síndrome de Down lo que anima la capacidad de respuesta en un collage de afectos sufrimiento amor esperanza enojo felicidad desconsuelo y orgullo Los afectos son el hilo conductor de una realidad empírica que confiesa que el gesto de cuidar en la discapacidad no es un acto espontáneo sino ante todo la consecuencia de cierto campo de inteligibilidad que enmarca la experiencia de cuidadores a una relación de subordinación por ende cuestionar el contexto de estratificación social heterosexismo capacitismo crea una oportunidad para que la vulnerabilidad del cuerpo se piense más allá de una serie de desigualdades y violencias permitiendo asumir la responsabilidad de sabernos
