Paranoid Science Antony Alumkal, 2019-04-01 Explores the Christian Right's fierce opposition to science explaining how and why its leaders came to see scientific truths as their enemy For decades the Christian Right's high profile clashes with science have made national headlines From attempts to insert intelligent design creationism into public schools to climate change denial efforts to cure gay people through conversion therapy and opposition to stem cell research the Christian Right has battled against science How did this hostility begin and more importantly why has it endured Antony Alumkal provides a comprehensive background on the war on science how it developed and why it will continue to endure Drawing upon Richard Hofstadter's influential 1965 essay *The Paranoid Style in American Politics* Antony Alumkal argues that the Christian Right adopts a similar paranoid style in their approach to science Alumkal demonstrates that Christian Right leaders see conspiracies within the scientific establishment with scientists not only peddling fraudulent information but actively concealing their true motives from the American public and threatening to destroy the moral foundation of society By rejecting science Christian Right leaders create their own alternative reality one that does not challenge their literal reading of the Bible While Alumkal recognizes the many evangelicals who oppose the Christian Right's agenda he also highlights the consequences of the war on reality both for the evangelical community and the broader American public A compelling glimpse into the heart of the Christian Right's anti science agenda *Paranoid Science* is a must read for those who hope to understand the Christian Right's battle against science and for the scientists and educators who wish to stop it *The Mulatta and the Politics of Race* Teresa C. Zackodnik, 2009-09-18 From abolition through the years just before the civil rights struggle began African American women recognized that a mixed race woman made for a powerful and at times very useful figure in the battle for racial justice *The Mulatta and the Politics of Race* traces many key instances in which black women have wielded the image of a racially mixed woman to assault the color line In the oratory and fiction of black women from the late 1840s through the 1950s Teresa C. Zackodnik finds the mulatta to be a metaphor of increasing potency Before the Civil War white female abolitionists created the image of the tragic mulatta caught between races rejected by all African American women put the mulatta to diverse political use Black women used the mulatta figure to invoke and manage American and British abolitionist empathy and to contest racial stereotypes of womanhood in the postbellum United States The mulatta aided writers in critiquing the New Negro Renaissance and gave writers leverage to subvert the aims of mid twentieth century mainstream American culture *The Mulatta and the Politics of Race* focuses on the antislavery lectures and appearances of Ellen Craft and Sarah Parker Remond the domestic fiction of Pauline Hopkins and Frances Harper the Harlem Renaissance novels of Jessie Fauset and Nella Larsen and the little known 1950s texts of Dorothy Lee Dickens and Reba Lee Throughout the author discovers the especially valuable and as yet unexplored contributions of these black women and their uses of the mulatta in prose and speech **Filming Difference** Daniel Bernardi, 2009-12-03 Addressing representation and identity in a variety of production styles and genres including experimental film and documentary

independent and mainstream film and television drama *Filming Difference* poses fundamental questions about the ways in which the art and craft of filmmaking force creative people to confront stereotypes and examine their own identities while representing the complexities of their subjects. Selections range from C A Griffith's *Del Otro Lado* *Border Crossings* *Disappearing Souls* and *Other Transgressions* and Celine Perre as Shimizu's *Pain and Pleasure in the Flesh* of Machiko Saito's *Experimental Movies* to Christopher Bradley's *I Saw You Naked* *Hard Acting in Gay Movies* along with Kevin Sandler's interview with Paris Barclay Yuri Makino's interview with Chris Eyre and many other perspectives on the implications of film production writing producing and acting. Technical aspects of the craft are considered as well including how contributors to filmmaking plan and design films and episodic television that feature difference and how the tools of cinema such as cinematography and lighting influence portrayals of gender race and sexuality. The struggle between economic pressures and the desire to produce thought provoking socially conscious stories forms another core issue raised in *Filming Difference*. Speaking with critical rigor and creative experience the contributors to this collection communicate the power of their media.

Sinfully Sweet Janelle Denison, Jacquie D'Alessandro, Kate Hoffmann, 2010-02-01 The owners of *Sinfully Sweet* an upscale sweets shop want to test their theory that chocolate is the ultimate aphrodisiac. So they conduct an unorthodox study disguised as a Valentine's Day promotion. When the unsuspecting customers start grabbing up the chocolates the experimental results go right off the charts. Sensible Rebecca Moore impulsively decides to take up the offer of millionaire playboy Connor Bassett to have a wildly erotic fling. Uptight Daniel Montgomery and free spirited Carlie Pratt find out that opposites don't just attract they set the sheets on fire. Kel Martin and Darcy Scott who shared a one night stand five years ago are suddenly back in bed together and they can't get out. But the ultimate test is when the last of the chocolates melt in their mouths will the passion remain.

Born Killers Christopher Berry-Dee, 2009-11-02 Presenting an analysis of some of the world's worst serial killers this title looks at their early years in an effort to understand why. It also shows how developing serial killers can be predicted through the use of an incredibly sophisticated system of psychological profiling.
