**Europe on a G-String** L. A. Florrie, 2021-03-23 When three friends decide to throw caution to the wind quit their full time jobs and travel through Europe for six months they visualised an adventure they would never forget And they weren't wrong More than three decades later they were still gas bagging about the absurd situations they found themselves in From Brisbane to London via the Greek Islands and other intoxicating European countries to boot their looming escapade would become the topic of conversation for the rest of their lives Chained to their dreary office desks since school Brooke Claire and Lucy had finally had enough of the corporate world Existing like caged birds Monday to Friday was no longer an option It was time for them to spread their dormant wings and take flight Two Gemini's and a Capricorn made an interesting travel combination but when you're friends till the end it doesn't matter what star sign you are unless of course you're a Capricorn with Cancer rising and decide to give it all away in Venice because you fear for your life The road to Utopia was never meant to be easy but when you're filled with hopes and dreams who cares if you meet some oddballs along the way From Greek Gods to Italian models From a repulsive sex crazed Yugoslavian taxi driver to an irresistible Serbian ex con From brushes with the Police in Venice to French thieves on the Metro in Paris not to mention more than a few shady characters in between this would certainly be a trip they would never forget So if you're looking for fun under the European sun not to mention some unabashed sex and

romance to spice up your every day life grab your passport book a ticket and join us on our trip of a lifetime

**Hip Hop at Europe's Edge**  
Milosz Miszczynski, Adriana Helbig, 2017-03-27. Essays examining the impact of hip hop music on pop culture and youth identity in post-Soviet Central and Eastern Europe. Responding to the development of a lively hip hop culture in Central and Eastern European countries, this interdisciplinary study demonstrates how a universal model of hip hop serves as a contextually situated platform of cultural exchange and becomes locally inflected. After the Soviet Union fell, hip hop became popular in urban environments in the region, but it has often been stigmatized as inauthentic due to an apparent lack of connection to African American historical roots and black identity. Originally strongly influenced by aesthetics from the United States, hip hop in Central and Eastern Europe has gradually developed unique local trajectories, a number of which are showcased in this volume. On the one hand, hip hop functions as a marker of Western cosmopolitanism and democratic ideology, but as the contributors show, it is also a malleable genre that has been infused with so much local identity that it has lost most of its previous associations with the West in the experiences of local musicians, audiences, and producers. Contextualizing hip hop through the prism of local experiences and regional musical expressions, these valuable case studies reveal the broad spectrum of its impact on popular culture and youth identity in the post-Soviet world. The volume represents a valuable and timely contribution to the study of popular culture in central and eastern Europe. Hip Hop at Europe's Edge will not only appeal to readers interested in contemporary popular culture in central and eastern Europe but also inspire future research on post-socialism's unique local adaptations of global cultural trends. The Soviet and Post-Soviet Review. The authors of this edited volume do not romanticize and heroize the genre by automatically equating it with political opposition, a fate often suffered by rock before. Instead, the book has to be given much credit for presenting a very nuanced picture of hip hop's entanglement or non-entanglement for that matter with politics in this wide stretch of the world, past and present. The Russian Review.

Europe's Moderation Versus America's Wildness Brown, 2011-02. **New York Magazine**, 1990-03-05. **European Integration Since the 1920s** Mark Hewitson, 2024-10-14 Brexit populism and Euroscepticism seem to have challenged old assumptions about European integration and raised the prospect of disintegration This book re examines why the European Union and its forerunners were created and investigates how and why they have changed It links contemporary events to historical explanation arguing that there were long term sets of conditions dating back to the 1920s which pushed European governments to cooperate economically and to try to resolve their diplomatic differences The failure of the French and German governments to create what Aristide Briand had called a European federal union demonstrated both the precariousness of the enterprise and its connection to the domestic politics of European states After 1945 the unexpected advent of a Cold War and the military diplomatic and economic presence of the United States in Europe facilitated the gradual development of habits of cooperation and institutional integration but they also placed limits on European governments activities as did disagreements between political parties and the expectations of citizens As a consequence supranational bodies such as the European Commission have been accompanied and often overshadowed by intergovernmental institutions such as the European Council with the EU as a whole functioning in important respects as a type of confederation The volume addresses a series of large scale historical questions which are integral to an understanding of the European Union It asks how and why citizens of member states have identified with the EU how matters of security affected the development of the European Community during and after the Cold War whether economic and social convergence have taken place and with what consequences and why European institutions have come to function as they have The study is thematic focusing on the most important aspects of European integration and explaining why member states have decided to carry out or have consented to the unique experiment of the European Union
