Monopoly Problems in Regulated Industries United States. Congress. House. Committee on the Judiciary. Antitrust Subcommittee (No. 5).,1961 The San Francisco System and Its Legacies Kimie Hara,2014-11-20

In September 1951 Japan signed a peace treaty with forty eight countries in San Francisco in April 1952 the treaty came into effect The San Francisco Peace Treaty is an international agreement that in significant ways shaped the post World War II international order in the Asia Pacific With its associated security arrangements it laid the foundation for the regional structure of Cold War confrontation the San Francisco System fully reflected the strategic interests and policy priorities of the peace conference s host nation the United States The treaty fell far short of settling outstanding issues in the wake of the Pacific War or facilitating a clean start for the post war period Rather critical aspects of the settlement were left equivocal and continue to have significant and worrisome implications for regional international relations This book examines the key developments of the contentious political and security issues in the Asia Pacific that share a common foundation in the post war disposition of Japan particularly the San Francisco Peace Treaty These include both tangible and intangible issues such as disputes over territories and history problems Taking the San Francisco System as its conceptual grounding the authors examine how these issues developed and have remained contentious long after the San Francisco arrangements To provide bases for producing solutions the chapters offer comprehensive accounts that explain and deepen our understanding of these complex regional issues and the San Francisco System as a whole By closely and systematically examining the legacy and various ramifications of the San Francisco System this fascinating book adds to our understanding of current and growing tensions in the region As such it will be of great interest to students and scholars of Asian studies history international relations and politics *Species Diversity of Animals in Japan* Masaharu Motokawa,Hiroshi Kajihara,2016-11-26 This book summarizes the status quo of the knowledge about the biodiversity in terrestrial freshwater and marine animals that live in Japan Consisting of some 6 800 islands that are arrayed for approximately 3 500 km from north to south the Japanese archipelago has a complex history in a paleogeographic formation process over time and harbors rich flora and fauna This work will contribute to establishing a general biogeographic theory in archipelagoes around continental shelves Facing the ongoing extinction crisis one of the most important tasks for our generation is to bequeath this precious natural heritage to future generations As the first step toward this goal a species list has been compiled through solid steady alpha taxonomic work in each taxon Furthermore the phylogeography and population genetic structure for each species is elucidated for deeper understanding of the local fauna

the scientific results of which should be the basis for establishing conservation policies and strategies Also the problem of alien or introduced species is investigated as another threat to the native fauna Each of the 27 chapters is written by the most active specialist leading the field thus readers can acquire up to date knowledge of the animal species diversity and their formation process of Japanese animals in the most comprehensive form available This book is recommended for researchers and students who are interested in species diversity biogeography and phylogeography

San Francisco (Calif.),1898 *Sale of the American-Oriental Mail Line by the United States Shipping Board* United States. Congress. Senate. Committee on Commerce,1926 Marriage Migrants of Japanese Women in Australia Takeshi Hamano,2019-05-30 This book investigates the experience of Japanese women who have immigrated to Australia through marriage to a local partner Based on long term participant observations gathered with a Japanese ethnic association in Sydney and on in depth interviews with the association s members it examines the ways in which the women remould themselves in Australia by constructing gendered selves that reflect their unique migratory circumstances through cross border marriage In turn the book argues that the women tend to embrace expressions of Japanese femininity that they once viewed negatively and that this is due to their lack of social skills and access to the cultural capital of mainstream Australian society Re molding the self through conventional Japanese notions of gender ironically provides them with a convincing identity that of minority migrant women Nevertheless by analyzing these women s engagement with a Japanese ethnic association in a suburb of Sydney the book also reveals a nuanced sense of ambivalence a tension between the women s Japanese community and their lives in Australia Accordingly the book provides a fresh perspective on interdisciplinary issues of gender and migration in a globalized world and engages with a wide range of academic disciplines including sociology of migration sociology of culture cultural anthropology cultural studies Japanese studies Asian studies gender studies family studies migration studies and qualitative methodologies **Japan Weekly Mail** ,1876
