Jean-Philippe Béja

Shadow Over China:

China's India War Bertil Lintner, 2018-01-25 The Sino Indian War of 1962 delivered a crushing defeat to India not only did the country suffer a loss of lives and a heavy blow to its pride the world began to see India as the provocateur of the war with China merely defending its territory This perception that China was largely the innocent victim of Nehru's hostile policies was put forth by journalist Neville Maxwell in his book *India's China War* which found readers in many opinion makers including Henry Kissinger and Richard Nixon For far too long Maxwell's narrative which sees India as the aggressor and China as the victim has held court Nearly 50 years after Maxwell's book Bertil Lintner's *China's India War* puts the border dispute into its rightful perspective Lintner argues that China began planning the war as early as 1959 and proposes that it was merely a small move in the larger strategic game that China was playing to become a world player one that it continues to play even today

The Impact of China's 1989 Tiananmen Massacre Jean-Philippe Béja, 2010-11-18 The 1989 pro democracy movement in China constituted a huge challenge to the survival of the Chinese communist regime This book assesses the impact of the movement and of the ensuing repression on the political evolution of the People's Republic of China It discusses how the events of 1989 are remembered and have affected China's international relations and diplomacy how human rights law enforcement policing and liberal thought have developed over two decades

The People's Republic of China Jeff Hay, 2012-10-26 This volume explores genocide and persecution in the People's Republic of China including the historical and cultural background of events from the rise of the communist People's Republic of China in 1949 to the present Issues surrounding events such as China's Great Leap Forward the Cultural Revolution the Tiananmen Square crackdown and the treatment of minority groups and political dissidents in China are richly examined Personal narratives from people touched by the events in China including childhood memories of growing up during the Great Leap Forward and the Cultural Revolution and the recent experiences of a Uighur activist

To Govern China Vivienne Shue, Patricia M. Thornton, 2017-10-26 How practically speaking is the Chinese polity as immense and fissured as it has now become actually being governed today Some analysts highlight signs of progress in the direction of more liberal open and responsive rule Others dwell instead on the many remaining obstacles to a hoped for democratic transition Drawing together cutting edge research from an international panel of experts this volume argues that both those approaches rest upon too starkly drawn distinctions between democratic and non democratic regime types and concentrate too narrowly on institutions as opposed to practices The prevailing analytical focus on adaptive and resilient authoritarianism a neo institutionalist concept fails to capture what are often cross cutting currents in ongoing processes of political change Illuminating a vibrant repertoire of power practices employed in governing China today these authors advance instead a more fluid open ended conceptual approach that privileges nimbleness mutability and receptivity to institutional and procedural invention and evolution

Inside China's Legal System Chang Wang, Nathan Madson, 2013-10-31 China's legal system is vast and complex and robust scholarship on the subject is difficult to obtain. *Inside China's Legal System* provides readers with a comprehensive look at the system including how it works in practice, theoretical and historical underpinnings and how it might evolve. The first section of the book explains the Communist Party's utilitarian approach to law, rule by law. The second section discusses Confucian and Legalist views on morality, law and punishment and the influence such traditional Chinese thinking has on contemporary Chinese law. The third section focuses on the roles of key players including judges, prosecutors, lawyers and legal academics in the Chinese legal system. The fourth section offers Chinese legal case studies in civil, criminal, administrative and international law. The book concludes with a comparison of China's fundamental governing and legal principles with those of the United States in such areas as checks and balances, separation of powers and due process. Uses extensive legal materials and historical documents generally unavailable to Western-based academics. Gives insider knowledge including first-hand experience, teaching law and close involvement with judges, attorneys and law professors in China. Analyses legal issues from historical and cultural perspectives holistically.

China's Thought Management Anne-Marie Brady, 2012-02-06 China's Thought Management argues that by re-emphasizing and modernizing propaganda and thought work since 1989, the CCP has managed to overcome a succession of local and national level crises: the Tiananmen Square protests of 1989, the impact of the collapse of Socialism in the Eastern bloc, SARS, ethnic clashes in Tibet and Xinjiang, to name but a few. Emerging, re-strengthened and as dominant in Chinese society as ever. The contributors to this book address such crucial issues as the new emphasis on economic propaganda, the continued importance of the PLA propaganda system in China's overall propaganda work and political stability, how the CCP uses Confucianism in its foreign and domestic propaganda and new approaches to mass persuasion such as campaigns of mass distraction. Each chapter is a case study of the multiple ways in which the CCP has modified and adjusted its propaganda to reflect China's changed economic and political environment. Challenging readers to reconceptualise mainstream understandings of the CCP's hold on power and the means the CCP government adopts to maintain its authority to rule, this book will be invaluable reading for anyone interested in the Chinese media and Chinese politics.

Xi Jinping's China Mr Jayadeva Ranade, 2017-09-15 The book examines how, since his appointment to China's three top posts simultaneously for the first time in 30 years, Xi Jinping has deftly used ideology and nationalism to accumulate power and ensure the Chinese Communist Party (CCP)'s legitimacy and monopoly on power. Xi Jinping has imposed progressively stricter domestic measures leading to the steady hardening and inflexibility of the Chinese state. It looks at the reforms in the Party, Government and Military and the unprecedentedly sustained and bruising drive against corruption in the People's Liberation Army (PLA). In the process, Xi Jinping has eliminated political rivals and whittled down opposition to the most extensive and far-reaching reforms the PLA has witnessed in its 90 years. Developments related to Tibet are especially analysed. The book analyses China's One Belt One Road, now called the

Belt and Road Initiative and the China Pakistan Economic Corridor initiatives intended to alter its strategic environment and expand power and influence well beyond its borders and up to Europe It concludes that China will squeeze the strategic space of its neighbours China's rise and bid to establish itself as the dominant power in the Indo Pacific however will not be uncontested India Japan and the USA's response will be important

China's Maritime Power And Strategy: History, National Security And Geopolitics Hailong Ju, 2015-04-08 This book conducts a comprehensive study on China's maritime strategy It discusses the lessons of maritime power history that must be learnt by Chinese today the relations between China's maritime strategy and domestic developing problems of China the status and influence of maritime strategy from China's overall development strategy perspective and the geopolitical targets of Chinese navy in 2050 China's maritime strategy is one of the most important academic and realistic subjects in the present and future This book is the first book to discuss China's maritime strategy comprehensively in and outside China It will give readers a better sense of why China has to develop its sea power why it lays so much emphasis on Taiwan and the South China sea why the country can make friends with India but not Japan and why China's maritime strategy will never challenge America but has to face the pressure from America's maritime hegemony and so on

China's Global Reach George Zhibin Gu, Zhibin Gu, Andre Gunder Frank, 2006 China's new economic surge is a surprise to all but this ancient land remains a myth to both foreigners and Chinese Get the inside story from a Chinese journalist consultant about China's business society and politics under globalization and capitalism This revised volume gives an insider's analysis on what's behind China's surge and its implications to the world It covers key global issues such as manufacturing and job transfers Chinese multinationals vs global giants and changing production trade and investment trends as well as evolving international relations China's Global Reach explores The ever increasing influence of foreign multinationals 15 plus case studies National and business competition The ever expanding power of Chinese multinationals 15 plus case studies Global job and manufacturing transfers The rise of Chinese consumers vs opportunities China's political economic reform Changing global production and economic map Comparative studies on China US Europe Japan and India Evolving international relations Convergent movement of global civilizations and And more including an afterword by Andre Gunder Frank China's Global Reach Markets Multinationals and Globalization is a straightforward and timely analysis of a changing world in relation to a fast developing China It is a book perfect for professionals investors policy makers educators and students as well as for anyone who questions how the world will move ahead to the next stages Reviews James Borton China Venture News Must read for all businessmen going to China William Ratliff Hoover Fellow at Stanford University Five Stars Dr Paul Close Centre for the Study of Globalization and Regionalization University of Warwick UK Very insightful valuable information analysis and argument of interest for readers of whatever kind should be on all bookshelves Ronald Hilton Hoover Fellow at Stanford University President World Association of International Studies It takes up history of globalization together with Afterword by Andre Gunder Frank fits

China Rising Yong Deng, Fei-Ling Wang, 2005 Despite its increasingly secure place in the world the People's Republic of China remains dissatisfied with its global status Its growing material power has simultaneously led to both greater influence and unsettling questions about its international intentions China also has found itself in a constant struggle to balance its aspirations abroad with a daunting domestic agenda This authoritative book provides a unique exploration of the complex and dynamic motivations behind Beijing's foreign policy The authors focus on China's choices and calculations on issues such as the ruling Communist party regime's interests international status and image nationalism Taiwan human rights globalization U.S. hegemony international institutions and the war on terrorism Taken together the chapters offer a comprehensive diagnosis of the emerging paradigms in Chinese foreign policy illuminating especially China's struggle to engineer and manage its rise in light of the opportunities and perils inherent in the post cold war and post 9/11 world

China's Role in the Arctic Nong Hong, 2020-04-13 This book explores the growing interests of China in the Arctic and examines the nature of its interests and motivations in maintaining its involvement and presence in the region The new geopolitical landscape of the Arctic today is a significant departure from the great power politics that existed in the region during the Cold War era Apart from traditional Arctic states more and more international organizations and non Arctic states are showing an increased interest in this region not least China Many have attempted to interpret China's intention in moving to the high north and this book aims to add to the existing literature from three approaches China's participation in the international institutions China's relationships with the Arctic stakeholders and China's sectoral engagement in the Arctic In taking a three dimensional approach to the analysis the author builds a comprehensive picture of China's interests and activities in the Arctic not only from the perspective of China but also from the viewpoint of other Arctic states Russia Canada the U.S. Norway Sweden Denmark Finland and Iceland One of the first books in English to cover the subject since the release of China's Arctic policy white paper in January 2018 this analysis will be of interest to academics students of Arctic studies maritime law and international law as well as policy makers in Arctic and non Arctic states

China's Air Pollution Problems Claudio O. Delang, 2016-04-20 China's rapid industrialisation has led to an air pollution catastrophe Concerted efforts to achieve economic growth have led to veiled skies of toxic air and created health and morbidity problems as well as tremendous environmental degradation China's Air Pollution Problems provides an overview of air pollution in China describing how and why China has ended up in such a dire situation what the government is doing to address the problem and the difficulties it is encountering in attempting to reduce the pollution The analysis is based on both grey literature newspaper articles NGO reports Chinese government information and on academic studies The grey literature gives a voice to those who suffer from the pollution their advocates and government officers and allows the reader to better grasp the conditions on the ground and

the impact of air pollution among people in different areas in China The academic literature adds a theoretical perspective and brings these different case studies into a broader context This book will be of great interest to students of environmental pollution and contemporary Chinese studies looking for an introduction to the topic and also for researchers looking for an extensive list of sources and analysis of China's environmental problems **Contentious Integration** Chien-peng

Chung,2016-05-13 The Asian Pacific is now one of the most important regions in the global system where the interplay of integrative economic geo political and sociocultural processes provide increasing scope for regional leadership to be exercised particularly by China and Japan This book studies the relationship between the People's Republic of China and Japan as the basis of the construction and maintenance of economic and security arrangements in this region It explains how these arrangements have been challenged by the occasionally testy ties between these two major Asian powers and explores their dynamic interactions in promoting their own agenda and ambitions and obstructing that of the others in contending for leadership of East Asia In so doing it highlights the complex interdependence and competitiveness of China and Japan with careful observation from the United States This book provides practical guidance for foreign policymaking in China Japan and the United States and makes theoretical inferences for the study of Sino Japanese relations regional integration and international relations generally *Paradoxes Of China's Prosperity: Political Dilemmas And Global Implications* Guoguang

Wu,2015-01-15 The world seems divided to either applaud or fear the rise of China but this book probes deeper by investigating three aspects of the phenomenon in detail 1 the institutional dilemmas of the prosperity as it integrates Asian authoritarianism with globalizing capitalism to create economic accomplishments 2 the political struggles alongside the prosperity as Chinese citizens begin to demand equality rights and justice that might be viewed to disturb the continuity of stability and development and 3 the global implications entailed by the prosperity not only in power politics war and peace or competitions among nations but especially on global public goods termed human security Articles included here combine political economic analyses lens with historical depth and global concerns to add a perspective that highlights the paradoxes of prosperity surrounding the ongoing debate on the rise of China and its global ramifications Readers will find an analysis that goes beyond the dichotomy viewing the rise of China either in positive or negative perspectives Investigations on the internal dilemmas and the global implications of the rise of China are well situated in the historical context of China's own search for modernization since the late 19th century This is one of the few books in which China's rise is examined from a global perspective rather than from a national perspective of China the United States or any other specific nation a global perspective that addresses the challenges facing all human societies with the rise of China State, Foreign Operations, and Related Programs Appropriations for 2017 United States. Congress. House. Committee on Appropriations. Subcommittee on State, Foreign Operations, and Related Programs,2016 **State Capitalism's Uncertain Future** Scott B.

MacDonald,Jonathan Lemco,2015-07-20 A provocative and timely look at the current state of global economics particularly

how the state owned companies of Russia China Latin America and other emerging markets are influencing how people work how they consume and how they prosper The global economy is changing experts are noting slow growth in the advanced economies greater volatility in international markets and the emergence of state owned companies in the competitive marketplace This forward looking reference explores the role that state capitalism plays within the political structures of countries throughout the world The text begins with an introduction to state capitalism moves into an in depth examination of several countries and regions and concludes with a discussion on the future of state capitalism in the next decade Coauthors Scott B MacDonald and Jonathan Lemco examine the challenges that state owned companies face in the global economy including a weak legal and commercial infrastructure a conflict of interest between politics and business and massive corruption in local and regional governments A close review of the perils of state capitalism based on meritocracy devolving into crony capitalism invites debate on the longevity of this economic system versus a free market economy

Korea Naval War College (U.S.). Asia-Pacific Studies Group. Asia-Pacific Forum, 2006 This book is a collection of 16 essays by international authors who participated in an academic conference on Korea sponsored by the U S Naval War College Papers were originally presented at the Naval War College s Asia Pacific Forum the annual conference of the college s Asia Pacific Studies Group held in Newport R I on 26 27 August 2004 Politics of China's Environmental Protection Gang Chen, 2009 As the dazzling economic and social changes in China have imposed substantial impact upon the quality of environmental governance it is time to review the problems and progress in the politics of China s environmental protection This book analyzes the factors in China s governance and political process that affect and restrain its capacity to handle the mounting environmental problems It argues that solutions to China s ecological woes to a larger extent lie in the political and institutional changes rather than in engineering technological and investment input The book talks about new policies and reform measures in the green area taken by the government since 2007 arguing that some of them may be quite effective in the long run as long as they alter institutional factors and the OC growth firstOCO mindset that obstruct the green effort The book also includes discussion of China s climate change policy not only because global warming has come under the limelight of the international community in recent years but also because it offers a unique dimension to analyze the country s environmental diplomacy and domestic bureaucratic structure on emissions cutting and related energy issues China is currently at the crossroads of further political and economic reform and the intensified public attention to environmental pollution may help the Chinese Communist Party to decisively push forward the long sluggish political reforms
