Shadow Summer:

Summer's Shadow Anna Wilson, 2014-07-03 Her mother's will states that Summer's legal guardian is her uncle Tristan a man Summer has never even heard of before Forced to leave her life in London Summer moves to Tristan's creepy ancient house in Cornwall There she is met with indifference from him open hostility from her cousin and an aunt who has chosen to leave rather than to tolerate her presence Soon Summer comes to believe that the house may be haunted But is it haunted by ghosts or by the shadows of her family's past Scared and lonely Summer begins to spend more and more time in the beautiful sheltered cove she discovers nearby But she's not alone A local boy frequents it too Can Summer find first love and the answers to the mysteries of her new home with this good looking boy who appears to be too perfect to be true **Summer's Promise** Barbara Cameron, 2019-09-17 Can she leave everything she knows for love Summer Carson has lived near the Amish community in Paradise Pennsylvania all her life Now she's following in her father's footsteps and earning her degree in agricultural science so she can continue his work helping local farmers In her job at the county extension office Summer moves between the English and the Amish worlds While she sometimes finds herself speaking and even thinking in Pennsylvania Deutsch the transition isn't always easy But what has come naturally to Summer is her attraction to one of the farmers Abram Yoder is handsome steady and hardworking He's everything so many of the English men she knows are not And Summer quickly realizes that she's caught his eye as well Can Summer give up the comforts she's always known for a life with this Amish man And is Abram willing to let her try **In Pursuit of Poem Shadows** Kay Pritchett, 2011-04-07 Born in the small Extremaduran town of Moraleja in 1946 Spanish poet Pureza Canelo at the age of twenty five published her first collections of poetry *Celda verde* and *Lugar común* winner of the 1970 Adonais Prize By 1979 she had settled upon an understanding of her own aesthetic evolution which she elaborated in *Habitable Primera poética* Then in 1986 after a period of disenchantment with the written word during which she published only two chapbooks *Espacio de emoción* 1981 and *Vega de la paloma* 1984 she redefined her position in *Tendido verso Segunda poética* Designed to complement Nature's Colloquy with the Word Pureza Canelo's First Poetics Bucknell 2004 the current text deciphers the intricate poetic language of the poet's mature works which at the time of writing included the two above mentioned chapbooks as well as *Tendido verso Pasion in dita* 1990 and *No escribir* 1999 The author traces recurrent aesthetic and philosophical positions that serve to differentiate the poet's first and second poetics *Tendido verso* is the volume in which temporality supersedes essence and in so doing breaks with insights expressed by Juan Ramón Jiménez during his Modernist phase In *Pasion in dita* the intimate pronominal discourse between poet and creative other allows them to coalesce into an indeterminate being At this point the desired goal of the creative process is achieved the holy wedding hierogamos of poet and creative other occurs *No escribir* abandons the struggle of Canelo's previous books and carries out the method prescribed by her second poetics She recognizes that only the creative process can satisfy her desire and that love the dominant symbol for creation indeed allows

the pain of poetic failure to cease Passion nonetheless must stop short of fulfillment since the written poem laden with the poet's gaze and subjectivity cannot exist apart from its shadow

Sticks, Stones, and Shadows Martin Isler, 2001 What do the

pyramids of Egypt really represent What could have driven so many to so great and often so dangerous an effort Was the motivation religious or practical Illustrated with more than 300 photographs and drawings this book presents an original

approach to the subject of pyramid building It reveals the connection between devices that served both a practical need for survival and a spiritual belief in gods and goddesses It examines Egyptian technologies and techniques from the origins of pyramid development to the step by step details of how the ground was leveled how the site was oriented and how the stone was raised and placed to meet at a distant point in the sky Here the author also asks and answers questions virtually ignored for the last century He discloses for example the ancient use of shadows now denigrated to the ornamental back yard sundial but once an important tool for telling the height of an object geographical directions the seasons of the year and the time of day He also reinterprets the ancient stretching of the cord ceremony which once was thought to have only religious significance but here is shown as the means of establishing the sides of a pyramid Emergency Preparedness and the Licensing Process for Commercial Nuclear Power Reactors: The Shoreham nuclear powerplant United States.
