Shadow Tales:

A Shadow's Tale Jennifer Hanlon, 2014-02-28 A Shadow's Tale is an Urban Fantasy Bildungsroman that follows the life of a half demon girl as she comes to terms with who she is. The life of one of every two half demons is controlled by prophecy. The more powerful the demonic parent the more impact the prophecy has on the hybrid's life. When the half demon race wilfully became extinct certain prophecies were deemed never to come to pass. They were wrong. Shadow has to learn how to cope with who she is, how to deal with people who won't accept her half demon status and what her future has in store for her.

The Complete Fairy Tales George MacDonald, U. C. Knoepfelmacher, 1999-09-01 George MacDonald occupied a major position in the intellectual life of his Victorian contemporaries. This volume brings together all eleven of his shorter fairy stories as well as his essay The Fantastic Imagination. The subjects are those of traditional fantasy: good and wicked fairies, children embarking on elaborate quests and journeys into unsettling dreamworlds. Within this familiar imaginative landscape his children's stories were profoundly experimental, questioning the association of childhood with purity and innocence and the need to separate fairy tale wonder from adult scepticism and disbelief.

The Light Princess and Other Fairy Tales George MacDonald, 2013-02-27 Good and evil fairies abound in this rich collection of compelling tales by one of the foremost fantasy writers of the nineteenth century. So do magical lands, sinister monsters, giants, ogres and other creatures from the realm of the imagination. In The Light Princess a young royal bewitched at birth by her spiteful aunt is cursed with uncontrollable bouts of lightness. Gravity it seems doesn't affect her. A little boy in The Golden Key is told he can find a magical key at the end of the rainbow. What the key will open though is part of its mystery. And in The Giant's Heart the monster in question is truly heartless for he's hidden his heart and it's up to two determined children to find the awful thing and put an end to the colossal ogre. These and five other beguiling tales, all delightfully illustrated by famed pre-Raphaelite painter Arthur Hughes, are sure to charm readers of all ages, those already familiar with MacDonald and those about to meet him for the first time.

Fairy Tales George MacDonald, 1920 **The Interpretation of Fairy Tales** Marie-Louise von Franz, 2017-10-10 A Jungian psychologist argues how careful analyses of fairy tales like Beauty and the Beast can lead to a deeper understanding of human psychology. Of the various types of mythological literature, fairy tales are the simplest and purest expressions of the collective unconscious and thus offer the clearest understanding of the basic patterns of the human psyche. Every people or nation has its own way of experiencing this psychic reality and so a study of the world's fairy tales yields a wealth of insights into the archetypal experiences of humankind. Perhaps the foremost authority on the psychological interpretation of fairy tales is Marie-Louise von Franz. In this book, originally published as An Introduction to the Interpretation of Fairy Tales, she describes the steps involved in analyzing and illustrates them with a variety of European tales from Beauty and the Beast to The Robber Bridegroom. Dr von Franz begins with a history of the study of fairy tales and the various theories of interpretation. By way of illustration she presents a detailed examination of a simple Grimm's tale. The

Walking Shadows Ib Johansen, 2015-08-25 Walking Shadows focuses on the American fantastic and the American grotesque attempting in this manner for the first time to establish an overview of and a theoretical approach to two literary modes that have often been regarded as essential to an understanding of the American cultural canon The central importance of these two literary forms has been pointed out earlier by important theorists such as Stanley Cavell David Reynolds and William Van O Connor A number of literary works from the beginning of the nineteenth to the end of the twentieth centuries are taken up in order to illustrate the inherent links or family resemblances between the two modes with special reference to the way in which a Bakhtinian reading may facilitate our appreciation of their status within the canon These excursions into the House of Fantastic and Grotesque Fiction may be of interest not only to hardcore aficionados but also to philosophically minded readers in general in particular perhaps to those who have paid acute attention to debates on late twentieth and early twenty first century post structuralism and deconstruction where the classic positions of Foucault Derrida et al still appear to be relevant

Shadows of Empire Laurie Jo Sears, 1996 Shadows of Empire explores Javanese shadow theater as a staging area for negotiations between colonial power and indigenous traditions Charting the shifting boundaries between myth and history in Javanese Mahabharata and Ramayana tales Laurie J Sears reveals what happens when these stories move from village performances and palace manuscripts into colonial texts and nationalist journals and most recently comic books and novels Historical anthropological and literary in its method and insight this work offers a dramatic reassessment of both Javanese literary theatrical production and Dutch scholarship on Southeast Asia Though Javanese shadow theater wayang has existed for hundreds of years our knowledge of its history performance practice and role in Javanese society only begins with Dutch documentation and interpretation in the nineteenth century Analyzing the Mahabharata and Ramayana tales in relation to court poetry Islamic faith Dutch scholarship and nationalist journals Sears shows how the shadow theater as we know it

today must be understood as a hybrid of Javanese and Dutch ideas and interests inseparable from a particular colonial moment In doing so she contributes to a re envisioning of European histories that acknowledges the influence of Asian African and New World cultures on European thought and to a rewriting of colonial and postcolonial Javanese histories that questions the boundaries and content of history and story myth and allegory colonialism and culture Shadows of Empire will appeal not only to specialists in Javanese culture and historians of Indonesia but also to a wide range of scholars in the areas of performance and literature anthropology Southeast Asian studies and postcolonial studies Myths and Myth-makers: Old Tales and Superstitions Interpreted by Comparative Mythology Fiske,1892 **Tales and Stories by Hans Christian Andersen**
