Utopia's Suicide John Paul, 2013-12-12 Having one foot in North America and one in Europe the author inevitably compares these two continents their surroundings their people and their modus vivendi The interpretation of happenings on these continents as they relate to one life's adventure is the scope of this work which is before everything else a collage of personal biography illuminated by flashes of the remarkable historical moments preceding the emigration There are moreover interpretations of impressions colored with romantic enchanting mysticism and alternatively subjective impressions of immigrants who came to America to find a better life and expected to some extent to find a promised land on a platter In either case impressions are based on predispositions of what immigrants from the old country envisioned American to be like However gratia is not a prerequisite it does not exist in the meaning of emi nor immi gratia Is this memoir an unprejudiced evaluation and objective notation of experiences as they were or a biased overflow of emotions ridicule and sarcasm or delight and adornment What is the difference between autobiography memoir and diary versus a fictitious rather historical novel in the first place A degree of deviation from factual reality A conglomerate relatively dry when transferred onto paper this cacophony without regard to categorization may enlighten the mind of one American or one potential immigrant by informing or reforming the picture of the mirage of a once magical New World or the romanticism of the Old One

Anarchism and utopianism Laurence Davis, Ruth Kinna, 2024-06-04 This collection of original essays examines the relationship between anarchism and utopianism

exploring the intersections and overlaps between these two fields of study and providing novel perspectives for the analysis of both. The book opens with an historical and philosophical survey of the subject matter and goes on to examine antecedents of the anarchist literary utopia, anti-capitalism and the anarchist utopian literary imagination, free love as an expression of anarchist politics and utopian desire and revolutionary practice. Contributors explore the creative interchange of anarchism and utopianism in both theory and modern political practice, debunk some widely held myths about the inherent utopianism of anarchy, uncover the anarchistic influences active in the history of utopian thought and provide fresh perspectives on contemporary academic and activist debates about ecology, alternatives to capitalism, revolutionary theory and practice and the politics of art, gender and sexuality. Scholars in both anarchist and utopian studies have for many years acknowledged a relationship between these two areas but this is the first time that the historical and philosophical dimensions of the relationship have been investigated as a primary focus for research and its political significance given full and detailed consideration.

Exiled Shadow Norman Manea, 2023-01-01 A virtuoso collage novel about narrative identity and exile from international literary sensation. Norman Manea, one of the most eloquent living witnesses of the European 20th century, at 87 has brought out *Exiled Shadow*, a contemplative work of fiction in a strong, clarion translation into English by Carla Baricz. A fitting summarization of a rich and deeply honorable career. Sam Sacks, *Wall Street Journal*. *Exiled Shadow* belongs among the great intricate and uncompromising works of contemporary literature. Jan Knoffke, *Neue Zürcher Zeitung*, Switzerland. In this vibrant mosaic of voices, sources and stories, the protagonist known only as the Nomadic Misanthrope leaves communist Romania and is reunited with his friend Gunther, an unrepentant Marxist exiled in Berlin. Their meeting sparks a spirited dialogue that endures throughout the Nomadic Misanthrope's subsequent decades in the United States. At the center of the plot is the figure of the shadow, the insubstantial shape of the exile, the wandering Jew, the death camp survivor, the individual under totalitarianism, the dark side of the Jungian personality, a figure that calls into question the boundaries of the human condition. Recalling the beloved nineteenth-century German tale of Peter Schlemihl, the man who sold his shadow for a bag of gold, this is Norman Manea's most daring work yet, an intimate record of alienation and endurance.
