Shadows On The Seine Paris 195:

Shadows in the City of Light Sara R. Horowitz, Amira Bojadzija-Dan, Julia Creet, 2021-05-01 The essays in *Shadows in the City of Light* explore the significance of Paris in the writing of five influential French writers Sarah Kofman Patrick Modiano George Perec Henri Raczymow and Irene Nemirovsky whose novels and memoirs capture and probe the absences of deported Paris Jews These writers move their readers through wartime and postwar cityscapes of Paris walking them through streets and arrondissements where Jews once resided looking for traces of the disappeared The city functions as more than a backdrop or setting Its streets and buildings and monuments remind us of the exhilarating promise of the French Revolution and what it meant for Jews dreaming of equality But the dynamic space of Paris also reminds us of the Holocaust and its aftermath The shadowed paths traced by these writers raise complicated questions about ambivalence absence memory secularity and citizenship In their writing the urban landscape itself bears witness to the absent Jews and what happened to them For the writers treated in this volume neither their Frenchness nor their Jewishness is a fixed point Focusing on Paris's dual role as both a cultural hub and a powerful symbol of hope and conflict in Jewish memory the contributors address intersections and departures among these writers Their complexity of thought artistry and depth of vision shape a new understanding of the impact of the Holocaust on Jewish and French identity on literature and literary forms and on the development of Jewish secular culture in Western Europe

In the Shadow of the General Sudhir Hazareesingh, 2012-07-26 The French writer Francois Mauriac once predicted that when de Gaulle will be here no longer he will still be here This insight has proved prophetic In contemporary France Charles de Gaulle has become a figure of legend consistently acclaimed as the nation's pre eminent historical figure Central to this popularity is the recognition of his pivotal role as the founder and then the leader of the Resistance movement during the Second World War Once might be tempted to conclude that it is the man who became mythical not the institutions he created But here the paradoxes abound For one thing his personal popularity sits oddly with his social origins and professional background Neither the nobility nor the Catholic Church nor the Army is particularly well regarded in France today in their different ways they all symbolize antiquated traditions and values So why then do the French nonetheless identify with celebrate and even revere this austere and devout nobleman who remained closely wedded to military values throughout his life In the *Shadow of the General* resolves this mystery and explains how de Gaulle has to come occupy such a privileged position in the French imagination Sudhir Hazareesingh's story of how an individual life transformed into national myth also tells a great deal about the French collective self in the twenty first century its fractured memory its aspirations to greatness and its manifold anxieties Alongside the tale of de Gaulle's legacy a much broader narrative unfolds the story of modern France
