McCrossin, 1997-04 Jesuit scholar G Michael McCrossin has written a book for those who have abandoned Christian faith sharing new insights about God sin and Jesus Christ that he believes more adequately expresses the full experience of a contemporary Christian Our Tribal Future David R. Samson, 2023-05-30 Winner of the 2023 Balsillie Prize for Public Policy An astounding and inspiring look at the science behind tribalism and how we can learn to harness it to improve the world around us What do you think of when you hear the word tribalism For many it conjures images of bigotry xenophobia and sectarian violence Others may envision their own tribe family friends and the bonds of loyalty that keep them together Tribalism is one of the most complex and ancient evolutionary forces it gave us the capacity for cooperation and competition and allowed us to navigate increasingly complex social landscapes It is so powerful that it can predict our behavior even better than race class gender or religion But in our vast modern world has this blessing become a curse Our Tribal Future explores a central paradox of our species how altruism community kindness and genocide are all driven by the same core adaptation Evolutionary anthropologist David R Samson engages with cutting edge science and philosophy as well as his own field research with small scale societies and wild chimpanzees to explain the science ethics and history of tribalism in compelling and accessible terms This bold and brilliant book reveals provocative truths about our nature Readers will discover that tribalism cannot and should not be eliminated entirely to do so would be to destroy what makes us human But is it possible to channel the best of this instinct to enrich our lives while containing the worst of its dangers **Values, Nature, and Culture in the American Corporation** William C. Frederick, 1995-09-21 In Values Nature and Culture in the American Corporation distinguished ethicist William Frederick explores issues of fundamental importance to all who aspire to conduct their business affairs ethically He begins with an examination of the three value systems in business that are basically incompatible and therefore in constant tension The first is the need for managers to efficiently allocate resources for maximum profits The second is the natural tendency for managers in pursuit of the first goal to accumulate power for its own sake The third is the desire for people in the community to create relationships that will perpetuate these communities Frederick brings in a range of ideas and concepts from the social sciences as well as the natural sciences to illuminate his discussion In the final section of the book he explores a range of issues of current concern to managers including corporate culture and technology *The Ethical Primate* Mary Midgley, 1994 Scientists and philosophers have found it difficult to understand how each human being can be both a living part of the natural world and at the same time be free In *The Ethical Primate* Mary Midgley explores their responses to this seeming paradox and argues that our evolutionary origin properly understood both explains why and how human freedom and morality have come about **Language, Society, and Culture**
