Early Modern Drama and the Eastern European Elsewhere Monica Matei-Chesnoiu, 2009 This study explores how Eastern European spaces and meanings are constituted in specific cultural contexts in early modern English drama Focusing on the ways in which these texts integrate the articulation of Eastern European space and geography into a variety of interpretative conventions the book develops ways of thinking critically and reflexively about the production of knowledge and identity in Shakespeare and his contemporaries through representations of space in drama **Shakespeare in the Romanian**

**Cultural Memory** Monica Matei-Chesnoiu, 2006 This book with a foreword by Arthur F Kinney covers the major issues of the stage history and translation in the negotiation between Romanian culture and Shakespeare raising questions about what a Shakespeare play becomes when incorporated in a different and allegedly liminal culture The study reflects the growing cross fertilization of approaching Shakespeare in Romanian translations productions literary adaptations and criticism looking at the way in which Romania's collective cultural memory is constructed re-examined and embedded in the adoption of Shakespeare in certain periods While it posits the problematics in the historical development of Shakespeare's presence in Romanian culture the study gives a detailed history of the translations and productions of the plays focusing on the most significant aspects of their literary social and political appropriation over the past two centuries **Shakespeare**

Vikram Chopra, 1996 Contributed articles The Routledge Research Companion to Shakespeare and Classical Literature Sean Keilen, Nick Moschovakis, 2017-03-31 In this wide ranging and ambitiously conceived Research Companion contributors explore Shakespeare's relationship to the classic in two broad senses The essays analyze Shakespeare's specific debts to classical works and weigh his classicism's likeness and unlikeness to that of others in his time they also evaluate the effects of that classical influence to assess the extent to which it is connected with whatever qualities still make Shakespeare himself a classic arguably the classic of modern world literature and drama The first sense of the classic which the volume addresses is the classical culture of Latin and Greek reading translation and imitation Education in the canon of pagan classics bound Shakespeare together with other writers in what was the dominant tradition of English and European poetry and drama up through the nineteenth and even well into the twentieth century Second and no less central is the idea of classics as such that of books whose perceived value exceeding that of most in their era justifies their protection against historical and cultural change The volume's organizing insight is that as Shakespeare was made a classic in this second antiquarian sense his work's reception has more and more come to resemble that of classics in the first sense of ancient texts subject to labored critical study by masses of professional interpreters who are needed to mediate their meaning simply because of the texts growing remoteness from ordinary life language and consciousness The volume presents overviews and argumentative essays about the presence of Latin and Greek literature in Shakespeare's writing They coexist in the volume with thought pieces on the uses of the classical as a historical and pedagogical category and with practical essays on the place of ancient

classics in today's Shakespearean classrooms      **Shakespeare Scholars in Conversation** Michael P. Jensen, 2019-07-29  
 Twenty-four of today's most prominent Shakespeare scholars discuss the best-known works in Shakespeare studies along with some nearly forgotten classics that deserve fresh appraisal. An extensive bibliography provides a reading list of the most important works in the field. A filmography then lists the most important Shakespeare films along with the films that influenced Shakespeare filmmakers. Interviewees include Sir Stanley Wells, Sir Jonathan Bate, Sir Brian Vickers, Ann Thompson, Virginia Mason Vaughan, George T. Wright, Lukas Erne, MacDonald P. Jackson, Peter Holland, James Shapiro, Katherine Duncan Jones, and Barbara Hodgdon.      Accessions List, South Asia Library of Congress Office, New Delhi, 1996-05      **South African Essays on 'Universal' Shakespeare** Chris Thurman, 2016-04-01  
 South African Essays on Universal Shakespeare collects new scholarship and extant but previously unpublished material reflecting the changing nature of Shakespeare studies across various generational gaps. Each essay in exploring the nuances of Shakespearean production and reception across time and space is inflected by a South African connection. In some cases this is simply because of the author's nationality or institutional affiliation; in others there is a direct engagement with what Shakespeare means or has meant in South Africa. By investigating the universality of Shakespeare from both implicitly and explicitly southern perspectives, the book presents new possibilities for considering and reassessing shifting manifestations of Shakespeare's work in major Shakespearean centres such as Britain and the United States as well as across the global North and South.      **The Routledge Companion to World Literature** Theo D'haen, David Damrosch, Djelal Kadir, 2011-09-14

 This book explores the complex dialectical interplay between the classic and creativity through a unique comparative lens that bridges Chinese and Western literary traditions. The interplay between the classic and creativity has been a fundamental question in literary criticism, although readers may be more familiar with discussions from the Western literary tradition such as T. S. Eliot's seminal essay *Tradition and the Individual Talent*. In this comparative study, the author examines the parallel discussions in both Chinese and Western literary traditions, highlighting the inherently dialectical relationship between classics and creativity. She introduces the rich traditions of poetry and poetics from ancient China to

modern times equally illuminating is her commentary on Western literary critics such as Alexander Pope William Wordsworth T S Eliot and Oscar Wilde Her engagement with literary works such as Shakespeare s *The Tempest* and the *Book of Poetry* and with literary practices such as adaptation and commentary is also remarkable as she addresses the contemporary challenges of studying the classics in an age of world literature Clear and accessible this work in East West comparative poetics will be valuable to scholars and students of literary theory comparative literature and world literature **A**

**European Literature** Walter Cohen,2017-01-19 Walter Cohen argues that the history of European literature and each of its standard periods can be illuminated by comparative consideration of the different literary languages within Europe and by the ties of European literature to world literature World literature is marked by recurrent systematic features outcomes of the way that language and literature are at once the products of major change and its agents Cohen tracks these features from ancient times to the present distinguishing five main overlapping stages Within that framework he shows that European literatures ongoing internal and external relationships are most visible at the level of form rather than of thematic statement

or mimetic representation European literature emerges from world literature before the birth of Europe during antiquity whose Classical languages are the heirs to the complex heritage of Afro Eurasia This legacy is later transmitted by Latin to the various vernaculars The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular long dominated by Romance literatures That development subsequently informs the second crucial differentiating dimension of European literature the multicontinental expansion of its languages and characteristic genres especially the novel beginning in the Renaissance This expansion ultimately results in the reintegration of European literature into world literature and thus in the creation of today's global literary system The distinctiveness of European literature is to be found in these interrelated trajectories

Barry Sheils, 2016-03-03 Arguing for a reconsideration of William Butler Yeats's work in the light of contemporary studies of world literature Barry Sheils shows how reading Yeats enables a fuller understanding of the relationship between the extensive map of world literary production and the intensities of poetic practice Yeats's appropriation of Japanese Noh theatre his promotion of translations of Rabindranath Tagore and Shri Purohit Swami and his repeated ventures into American culture signalled his commitment to moving beyond Europe for his literary reference points Sheils suggests that a reexamination of the transnational character of Yeats's work provides an opportunity to reflect critically on the cosmopolitan assumptions of world literature as well as on the politics of modernist translation Through a series of close and contextual

readings the book demonstrates how continuing global debates around the crises of economic liberalism and democracy fanaticism asymmetric violence and bioethics were reflected in the poet's formal and linguistic concerns Challenging orthodox readings of Yeats as a late romantic nationalist W B Yeats and World Literature The Subject of Poetry makes a compelling case for reading Yeats's work in the context of its global modernity
