contribution to both border studies and short story studies In today s world there is ample evidence of the return of borders worldwide as material reality as a concept and as a way of thinking This collection of critical essays focuses on the ways in which the contemporary British short story mirrors questions and engages with border issues in national and individual life At the same time the concept of the border as well as neighbouring notions of liminality and intersectionality is used to illuminate the short story s unique aesthetic potential The first section Geopolitics and Grievable Lives includes chapters that address the various ways in which contemporary stories engage with our newly bordered world and borders within contemporary Britain The second section examines how British short stories engage with Ethnicity and Liminal Identities while the third Animal Encounters and Metamorphic Bodies focuses on stories concerned with epistemological borders and borderlands of existence and identity Taken together the chapters in this volume demonstrate the varied and complex ways in which British short stories in the twenty first century engage with the concept of the border      Shakespeare's Books Stuart Gillespie,2001-08-08 This is a comprehensive reference guide to Shakespeare s literary knowledge An A Z of nearly 200 entries covers the full range of writers and texts that influenced Shakespeare s work from classical to contemporary Entries for all major sources feature surveys of their place in Shakespeare s time sample excerpts detailed discussion of their relationship to the plays and poems and full bibliography      *Shakespeare and the Twentieth Century* International Shakespeare Association.
