The Look of Van Dyck John Peacock, 2017-07-05 Based on a close study of Van Dyck s Self portrait with a Sunflower this book examines the picture s context in the symbolic discourses of the period and in the artist s oeuvre The portrait is interpreted as a programmatic statement made in the ambience of the Caroline court after Van Dyck s appointment as Principal Painter of his view of the art of painting This statement formulated in appropriately visual terms characterizes painting as a way of looking and seeing a mode of vision In making such a claim the artist steps aside from the familiar debate about whether painting was a manual or an intellectual discipline and moves beyond any idea of it as simply a means of representing the external world the painter s definitive faculty of vision can reach further than those realities which present themselves to the eye John Peacock analyses the motif of looking the ways in which figures regard or disregard each other throughout Van Dyck s work and the images of the sunflower and the gold chain in this particular portrait to reveal what is essentially an idealist conception of pictorial art He contradicts previous opinions that the artist was pedestrian in his thinking by showing him to be familiar with a range of ideas current in contemporary Europe about painting and the role of the painter

500 Self-Portraits Julian Bell, 2004-04 The mirror above all the mirror is our teacher wrote Leonardo da Vinci Portraits are an endless source of fascination responding as they do to the basic human impulse to scrutinize a face and strive to peer into the person behind it Self portraits have the added fascination that comes from looking into the mirror and trying to study one s own face and the elusive self lurking behind its surface This striking and sensitive compilation presents an uninterrupted sequence of 500 self portraits in chronological order all the way from ancient Egypt to the late twentieth century and including painting drawing sculpture and photography The challenge of

interpreting and re creating their own likenesses has proven irresistible to artists throughout the ages Included here are powerfully evocative works by many of the world s greatest painters and sculptors from D rer and Rembrandt to Frida Kahlo and Andy Warhol Each image is both a work of art and a rigorous exploration in psychology and self perception Presented without commentary these works speak for themselves a compelling collection for every student of art and human nature The illuminating introduction is by the renowned painter and writer Julian Bell *Self-portraits* Peggy Roalf,1993-01-01 An exploration of painting through 2000 years of art history focusing on self portraits by such artists as Leonardo da Vinci Rembrandt Gorky and Picasso *Soviet Life* ,1978 **ART is More** Jan Laurens SIESLING,2015-06-15 This book turns traditional art history inside out Not styles or forms or movements or artists or art theories are its point of departure but the reason for being of art in civilization Since the very beginnings of society art has raised and responded to the existential questions of the human kind The history of the arts is the history of those questions and from that angle art should be presented here it is When reading this book unfolding like a novel we think yes of course no doubt why didn t we think of this before And we agree that art is not a hobby or a profession or an entertainment but the very heartbeat of the human race

art church architecture iconography painting music and literary texts And in Orthodoxy beauty has always been the main form of religious expression more than verbal presentation of Christian teaching which is embedded in the aesthetic context of liturgy In Christian theology beauty has often been seen as a form of divine revelation related to the mystery of incarnation The relation between aesthetics and religious belief has acquired new relevance in our secularised world Today the visible products of Catholic and Orthodox aesthetics are for many people the main means through which they come into contact with Christianity and many people without affinity to religion are attracted by the beauty of Christian art inside and outside the church In modern religious studies the experience of beauty is recognised as a factor in explaining religious feelings The papers are divided in four sections 1 Comparative aspects of Orthodox and Catholic aesthetics 2 Religious aesthetics in Russian literary culture 3 Applied aesthetics in church art 4 Art theoretical ideological and religious philosophical aspects

can be gained from considering a painting not only as an image but also a material object How does the painter's own experience of the process of making matter for our understanding of both the painting and its maker The Painter's Touch addresses these questions to offer a radical reinterpretation of three paradigmatic French painters of the eighteenth century In this beautifully illustrated book Ewa Lajer Burcharth provides close readings of the works of François Boucher Jean Simón Chardin and Jean Honoré Fragonard entirely recasting our understanding of these painters' practice Using the notion of touch she examines the implications of their strategic investment in materiality and sheds light on the distinct contribution of painting to the culture of the Enlightenment Lajer Burcharth traces how the distinct logic of these painters' work the operation of surface in Boucher the deep materiality of Chardin and the dynamic morphological structure in Fragonard contributed to the formation of artistic identity Through the notion of touch she repositions these painters in the artistic culture of their time shifting attention from institutions such as the academy and the Salon to the realms of the market the medium and the body Lajer Burcharth analyzes Boucher's commercial tact Chardin's interiorized craft and Fragonard's materialization of eros Foregrounding the question of experience that of the painters and of the people they represent she shows how painting as a medium contributed to the Enlightenment's discourse on the self in both its individual and social functions By examining what paintings actually say in brushstrokes texture and paint The Painter's Touch transforms our understanding of the role of painting in the emergence of modernity and provides new readings of some of the most important and beloved works of art of the era
