Outstanding Academic Title The period of prohibition from 1919 to 1933 marks the fault line between the cultures of Victorian and modern America In Domesticating Drink Murdock argues that the debates surrounding alcohol also marked a divide along gender lines For much of early American history men generally did the drinking and women and children were frequently the victims of alcohol associated violence and abuse As a result women stood at the fore of the temperance and prohibition movements and as Murdock explains effectively used the fight against drunkenness as a route toward political empowerment and participation At the same time respectable women drank at home in a pattern of moderation at odds with contemporaneous male alcohol abuse During the 1920s with federal prohibition a reality many women began to assert their hard won sense of freedom by becoming social drinkers in places other than the home Murdock s study of how this development took place broadens our understanding of the social and cultural history of alcohol and the various issues that surround it As alcohol continues to spark debate about behaviors attitudes and gender roles Domesticating Drink provides valuable historical context and important lessons for understanding and responding to the evolving use and abuse of drink

Slipping Through the Cracks Mark Sanders, 2011-12-01. Clients who have multiple addictions and disorders are more difficult to engage and treat than clients with a single disorder. Many of the current systems are ill equipped to address the myriad challenges of these clients; their relapse and recidivism rates are higher and many of these clients tend to slip through the cracks, often going back and forth among addictions, treatment, psychiatric and medical hospitalizations and incarceration. Too many difficult to reach clients are at risk for relapse because their practitioners lack effective, innovative strategies for this unique client base who remain part of a revolving door syndrome. Now Certified Alcohol and Drug Addictions Counselor, Mark Sanders, LCSW, offers specific strategies to assist therapists and counselors who work with difficult and at risk populations including those with multiple addictions, co-occurring disorders, adolescents, rural methamphetamine users, antisocial personality disorder, criminality and addiction trauma or grief and chemical dependency, history of chronic relapse and recidivism. *Slipping Through the Cracks* is an encyclopedic handbook to specific traits of the difficult to reach client as well as a concise guidebook to effective strategies that will be useful to anyone working with clients in private practice or in treatment programs who have both mental health and substance abuse issues. *A Guide for Physician Training in Substance Abuse*, United States. Veterans Administration. On the Other Side of Chaos, Ellen Van Vechten, 2018-12-04. A lawyer turned drug counselor.

examines the disruption many families endure when addiction impacts their lives Based in part on her own family's journey Ellen Van Vechten explains the science of addiction the theory of treatment and the Twelve Step model of recovery providing sensible information and tips for reasoned action in support of a loved one while fostering personal growth and recovery Powerlessness over another's addiction has a caustic effect on the family Too often parents and partners equate letting go with giving up While acceptance of a lack of control is essential to coping with the disease within the family system there is nothing passive about supporting a partner or child on their journey to recovery This concept is the foundation of Van Vechten's original approach to empower individuals with knowledge which when coupled with acceptance allows any family dealing with active addiction to make thoughtful and reasoned decisions to facilitate the recovery of both their loved ones and themselves Crime, Justice, and Society Calvin J.
