Williams,2008
After reviewing the available evidence from this extensive case study the author concludes that these conducted energy weapons are excluded as the cause of death in 182 of the 212 cases In only two cases did the evidence tend to confirm the weapon was either a cause of death or a significant contributing factor While arguing that the TASER electronic control devices are safe less lethal weapons the author also cautions that they are not completely effective **Official Gazette of the United States Patent and Trademark Office** ,2006 **American Philanthropic Foundations** David C. Hammack,Steven Rathgeb Smith,2018-04-16 Once largely confined to the biggest cities in the mid Atlantic and Great Lakes states philanthropic foundations now play a significant role in nearly every state Wide ranging and incisive the essays in American Philanthropic Foundations Regional Difference and Change examine the origins development and accomplishments of philanthropic foundations in key cities and regions of the United States Each contributor assesses foundation efforts to address social and economic inequalities and to encourage cultural and creative life in their home regions and elsewhere This fascinating and timely study of contemporary America s philanthropic foundations vividly illustrates foundations commonalities and differences as they strive to address pressing public problems *The Journal of the Assembly During the ... Session of the Legislature of the State of California* California. Legislature. Assembly, *Gold Line Phase II, Pasadena to Montclair, Los Angeles and San Bernardino Counties* ,2004 **Redistributing the Poor** Armando Lara-Millán,2021
Whenever the topic of large jails and public hospitals in urban America is raised a single idea comes to mind It is widely believed that because we as a society have dis invested from public health the sick and poor now find themselves within the purview of criminal justice institutions In Redistributing the Poor ethnographer and historical sociologist Armando Lara Mill n takes us into the day to day operations of running the largest hospital and jail system in the world and argues that such received wisdom is a drastic mischaracterization of the way that states govern urban poverty at the turn of the 21st century

Rather than focus on our underinvestment of health and overinvestment of criminal justice his idea of redistributing the poor draws attention to how state agencies circulate people between different institutional spaces in such a way that generates revenue for some agencies cuts costs for others and projects illusions that services have been legally rendered By centering the state s use of redistribution Lara Mill n shows how certain forms of social suffering the premature death of mainly poor people of color are not a result of the state s failure to act but instead the necessary outcome of so called successful policy
