Imperial Plots Sarah Carter, 2016-10-07 Sarah Carter's *Imperial Plots* Women Land and the Spadework of British Colonialism on the Canadian Prairies examines the goals aspirations and challenges met by women who sought land of their own Supporters of British women homesteaders argued they would contribute to the spade work of the Empire through their imperial plots replacing foreign settlers and relieving Britain of its surplus women Yet far into the twentieth century there was persistent opposition to the idea that women could or should farm British women were to be exemplars of an idealized white femininity not toiling in the fields In Canada heated debates about women farmers touched on issues of ethnicity race gender class and nation Despite legal and cultural obstacles and discrimination British women did acquire land as homesteaders farmers ranchers and speculators on the Canadian prairies They participated in the project of dispossessing Indigenous people Their complicity was however ambiguous and restricted because they were excluded from the power and privileges of their male counterparts *Imperial Plots* depicts the female farmers and ranchers of the prairies from the Indigenous women agriculturalists of the Plains to the array of women who resolved to work on the land in the first decades of the twentieth century

Air empire Gordon Pirie, 2017-03-01 *Air empire* is a fresh study of civil aviation as a tool of late British imperialism The first pioneering flights across the British empire in 1919-20 were flag waving adventures that recreated an era of plucky British maritime exploration and conquest Britain's development of international air routes and services was approved organised and celebrated largely in London there was some resistance in and beyond the subordinate colonies and dominions Negotiating the financing and geopolitics of regular commercial air service delayed its inception until the 1930s Technological managerial and logistical problems also meant

that Britain was slow into the air and slow in the air Propaganda concealed underperformance and criticism The study uses archival sources biographies industry magazines and newspapers to chronicle the disputed progress toward air empire The rhetoric behind imperial air service offers a glimpse of late imperial hopes fears attitudes and style Empire air service had emotional appeal and symbolic value but disappointed in practice *Beyond the state* Anna Greenwood,2015-12-01 This electronic version has been made available under a Creative Commons BY NC ND open access license The Colonial Medical Service was the personnel section of the Colonial Service employing the doctors who tended to the health of both the colonial staff and the local populations of the British Empire Although the Service represented the pinnacle of an elite government agency its reach in practice stretched far beyond the state with the members of the African service collaborating formally and informally with a range of other non governmental groups This collection of essays on the Colonial Medical Service of Africa illustrates the diversity and active collaborations to be found in the untidy reality of government medical provision The authors present important case studies covering former British colonial dependencies in Africa including Kenya Malawi Nigeria Tanzania Uganda and Zanzibar They reveal many new insights into the enactments of colonial policy and the ways in which colonial doctors negotiated the day to day reality during the height of imperial rule in Africa The book provides essential reading for scholars and students of colonial history medical history and colonial administration An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence [Pressing Interests](#) Phoebe Musandu,2018-10-01 During the first six decades of the twentieth century when the majority of present day Kenya was under the control of the British Empire many secular newspapers emerged as the products of tensions between Asian and European immigrants the British administration and the African petite bourgeoisie In *Pressing Interests* Phoebe Musandu shows that far from expressions of public opinion or vehicles of a free market these periodicals served as powerful tools for the colonial government and the elite to shape political and economic conditions in their favour Following the development of the most important newspapers established in colonial Kenya as they evolved to reflect the priorities and ambitions of their owners investors publishers journalists and editors *Pressing Interests* explores the roles and contributions of the press in the country s political and economic history Shedding light on newspapers as business ventures Musandu focuses on the management financial and production aspects of media Drawing on previously unearthed archival documents official and unofficial correspondence police and legal records and the newspapers themselves she further examines the press as a medium for inter and intra racial competition for power and influence as a base for the production of knowledge and as an instrument for social control In an era when we are often reminded of the power inherent in the ability to generate and disseminate information *Pressing Interests* tells the story of colonial Kenya s press through a timely mix of riveting accounts and the clarifying lens of careful analysis *Trapped in History* Nicholas Rankin,2023-11-14 *Trapped in History* tells how the British colonised Kenya and how African nationalism arose under Jomo Kenyatta It describes the terrifying first attacks by the

guerrilla freedom fighters known as Mau Mau Though defeated the Mau Mau hastened the end of British rule in Kenya Trapped in History explores the effect the uprising on the author who grew up as a child in the Kenya colony The book is both a history as well as a memoir of the end of Empire Sarah Anderson's Travel Companion Sarah Anderson,2004 For those who want to find out more about Africa and the Middle East than can be found in a normal guidebook Sarah Anderson's Travel Companion offers a delightfully informed personal selection including travel literature illustrated volumes biographies and memoirs and more Travelers and readers can discover novels set in Kenya cultural studies of Syria or guidebooks best suited to their tastes This is an indispensable companion for every serious reader of travel writing Colonial Kenya Observed S. H. Fazan,2014-11-14 The coast of East Africa was considered a strategically invaluable region for the establishment of trading ports both for Arab and Persian merchants long prior to invasion and conquest by Europeans In the initial stages of the scramble for Africa in the 18th century control of the area was an aspiration for every colonial nation in Europe but it was not until 1895 that it was finally dominated by a sole power and proclaimed The Protectorate of British East Africa In the early 20th century the coast was brimming with vitality as immigrants colonisers and missionaries from Arabia India and Europe poured in to take advantage of growing commercial opportunities including the prospect of enslaving millions of native Africans The development of Kenya is an exceptional tale within the history of British rule in perhaps no other colony did nationalistic feeling evolve in conditions of such extensive social and political change In 1911 S H Fazan sailed to what later became the Republic of Kenya to work for the colonial government Immersing himself in knowledge of traditional language and law he recorded the vast changes to local culture that he encountered after decades of working with both the British administration and the Kenyan people This work charts the sweeping tide of social change that occurred through his career with the clarity and insight that comes with a total intimacy of a country His memoirs examine the fascinating complexity of interaction between the colonial and native courts commercial land reform and the revolutionised dynamic of labour relations By further unearthing the political tensions that climaxed with the Mau Mau Revolt of 1952-1960 this invaluable work on the European colonial period paints a comprehensive and revealing firsthand account for anyone with an interest in British and African history Fazan's story provides a quite unparalleled view of colonial Africa and the conduct of Empire across half a century **Militarism, Hunting, Imperialism** J.A. Mangan,Callum McKenzie,2013-10-18 The late Victorian and Edwardian officer class viewed hunting and big game hunting in particular as a sound preparation for imperial warfare For the imperial officer in the making the bloody hunting ritual was a visible hallmark of stirring martial masculinity Sir Henry Newbolt the period poet of subaltern self sacrifice typically considered hunting as essential for the creation of a masculine sporting spirit necessary for the consolidation and extension of the empire Hunting was seen as a manifestation of Darwinian masculinity that maintained a pre ordained hierarchical order of superordinate and subordinate breeds Militarism Hunting Imperialism examines these ideas under the following five sections

martial imperialism the self sacrificial subaltern bleeding the middle class martial male the imperial officer hunting and war
 martial masculinity proclaimed and consolidated martial masculinity adapted and adjusted This book was published as a

 Topiwala,2016-01-12 This ground breaking book offers unique insights into the careers of Indian doctors in colonial Kenya
 during the height of British colonialism between 1895 and 1940 The story of these important Indian professionals presents a
 rare social history of an important political minority Cultures and caricatures of British imperial aviation Gordon
 Pirie,2017-02-01 The new activity of trans continental civil flying in the 1930s is a useful vantage point for viewing the
 extension of British imperial attitudes and practices Cultures and caricatures of British imperial aviation examines the
 experiences of those mostly men who flew solo or with a companion racing or for leisure who were airline passengers doing
 colonial administration business or research or who flew as civilian air and ground crews For airborne elites flying was a
 modern and often enviable way of managing using and experiencing empire On the ground aviation was a device for
 asserting old empire adventure and modernity were accompanied by supremacism At the time however British civil imperial
 flying was presented romantically in books magazines and exhibitions Eighty years on imperial flying is still remembered
