 Camlot,2013-04-28 In analyzing the nonfiction works of writers such as John Wilson J S Mill De Quincy Ruskin Arnold Pater
 and Wilde Jason Camlot provides an important context for the nineteenth century critic's changing ideas about style rhetoric
 and technologies of communication In particular Camlot contributes to our understanding of how new print media affected
 the Romantic and Victorian critic's sense of self as he elaborates the ways nineteenth century critics used their own essays
 on rhetoric and stylistics to speculate about the changing conditions for the production and reception of ideas and the
 formulation of authorial character Camlot argues that the early 1830s mark the moment when a previously coherent tradition
 of pragmatic rhetoric was fragmented and redistributed into the diverse localized sites of an emerging periodicals market
 Publishing venues for writers multiplied at midcentury establishing a new stylistic norm for criticism one that affirmed style
 as the manifestation of English discipline and objectivity The figure of the professional critic soon subsumed the authority of
 the polyglot intellectual and the later decades of the nineteenth century brought about a debate on aesthetics and criticism
 that set ideals of Saxon rooted virile style against more culturally inclusive theories of expression **Saturday Review**
