by road air and sea Armed with these About Britain guides historian Tim Cole takes to the roads to find out what has changed and what has remained the same over the 70 years since they were first published From Oban to Torquay Caernarvon to Cambridge he explores the visible changes to our landscape and the more subtle social and cultural shifts that lie beneath In a starkly different era where travel has been transformed by the pandemic and many are journeying closer to home About Britain is a warm and timely meditation on our changing relationship with the landscape industry and transport As he looks out on vineyards and apple orchards power stations and slate mines vast greenhouses and fulfilment centres for online goods Cole provides an enchanting look at twentieth and early twenty first century Britain

The Country House Revealed Dan Cruickshank, 2012-07-31 Spanning the architectural history of the country house from the disarming Elizabethan charm of South Wraxall the classical rigour of Kinross in Scotland the majesty and ingenuity of Hawksmoor's Easton Neston the Palladian sweep of Wentworth Woodhouse with over 300 rooms and frontage of 600 feet the imperial exuberance of Clondeboy through to the ebullient vitality of Lutyens Marshcourt the stories of these houses tell the story of our nation All are the buildings of the greatest architectural interest each with a fascinating human story to tell and all remain private homes that are closed to the public But their owners have opened their doors and allowed Dan Cruickshank to roam the corridors and rummage in the cellars as he teases out the story of each house who built them the generations who lived in them and the families who lost them Along the way he has uncovered tales of excess and profligacy tragedy comedy power and ambition And as these intriguing narratives take shape Dan shows how the story of each house is inseparable from the social and economic history of Britain Each one is built as a wave of economic development crests or crumbles Each one's architecture and design is thus expressive of the aims strengths and frailties of those who built them Together they plot the psychological economic and social route map of our country's ruling class in a rich new telling of our island story

Hilling,2018-08-15 It is the only book available that covers all types of architecture and building in Wales over a period of two thousand years from Roman times to the present The book is illustrated by 254 colour and black white photographs drawings and plans The book has fourteen specially drawn maps illustrating ranges of building types The book is intended for the general reader as well as architectural specialists *Private Life in Britain's Stately Homes* Michael Paterson,2012-09-06 The Victorian and Edwardian eras in the run up to 1914 marked the golden age of the English country house when opulence and formality attained a level that would never be matched again The ease of these perfect settings for flirtation and relaxation was maintained by a large and well trained staff of servants Although those in service worked very long hours and had little personal freedom many were proud of their positions and grateful for the relative security these gave Indeed the strictly hierarchical world below stairs could be more snobbish than that of a house s owners Michael Paterson skilfully and entertainingly explores the myths and realities of this vanished world both upstairs and down **Sir John Soane? Influence on Architecture from 1791** Oliver Bradbury,2017-07-05 Sir John Soane s Influence on Architecture from 1791 A Continuing Legacy is the first in depth study of this eighteenth century British architect s impact on the work of others extending globally and still indeed the case over 200 years later Author Oliver Bradbury presents a compelling argument that the influence of Soane 1753 1837 has persevered through the centuries rather than waning around the time of his death Through examinations of internationally renowned architects from Benjamin Henry Latrobe to Philip Johnson as well as a number of not so well known Soanean disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the longevity of his influence on architecture through the course of more than two centuries from the early 1790s to today concluding with the recent return to pure revivalism Previous investigations have been limited to focusing on Soane s late Georgian and then post modern influence this is the first in depth study of his impact over the course of two centuries Through this survey Bradbury demonstrates that Soane s influence has been truly international in the pre modern era reaching throughout the British Isles and beyond to North America and even colonial Australia Through his inclusion of select detailed case studies Bradbury contends that Soane s is a continuing not negated legacy in architecture **A Passion for Castles** Janet Brennan-Inglis,2022-10-06 In the 1880s two Edinburgh architects began to survey measure and sketch the castles of Scotland travelling the length and breadth of the country on trains bicycles and on foot Together they produced the five magnificent volumes of *The Castellated and Domestic Architecture of Scotland* an unrivalled work of

research that surveys more than 700 of Scotland's castellated buildings ranging from great medieval fortresses to small lairds' houses with pepper pot turrets and is illustrated with thousands of sketches and plans. The first part of *A Passion for Castles* tells the life stories of David MacGibbon and Thomas Ross and their work as Edinburgh architects before they embarked on their magisterial survey revealing interesting and previously unknown details about the two men. The second part of the book sets their enormously ambitious castles project in its historical context and describes how MacGibbon and Ross managed to achieve their pioneering systematic and comprehensive survey. The final part of the book provides a regional overview of the current status of all the castles surveyed by MacGibbon and Ross followed by a thematic exploration of those that have been lost, those that have been transformed, and those at risk of collapse before posing questions about what the future holds for the castles of Scotland. *Britain's Flirtation with the Socialist Imaginary* Chris Wilkes, 2024-05-09

In 1945 Winston Churchill, fresh from winning World War Two for Britain, called an election. Within days he was thrown out and a completely new form of government took hold. What followed was a revolutionary period in British history in which centuries of tradition were questioned. Socialism appeared to be waiting in the wings. This book traces the origins of this transformation in the long history of British democracy. It examines the ideas and actions which began in the 1930s that enabled this revolution and the new society that emerged beyond its origins and into the 21st Century. The problems that this revolution sought to solve remain to this day as the British government in 2024 wrestles with strikes, social disorder, and massive economic headwinds. Understanding the history of the present dilemmas is essential if we are to grapple successfully with the enduring problems Britain still faces to this day. *Slavery, Family, and Gentry Capitalism in the British Atlantic* S. D. Smith, 2006-07-20

From the mid-seventeenth century to the 1830s, successful gentry capitalists created an extensive business empire centered on slavery in the West Indies but interlinked with North America, Africa, and Europe. S. D. Smith examines the formation of this British Atlantic World from the perspective of Yorkshire aristocratic families who invested in the West Indies. At the heart of the book lies a case study of the plantation-owning Lascelles and the commercial and cultural network they created with their associates. The Lascelles exhibited high levels of business innovation and were accomplished risk takers, overcoming daunting obstacles to make fortunes out of the New World. Dr. Smith shows how the family raised themselves first to super-merchant status and then to aristocratic pre-eminence. He also explores the tragic consequences for enslaved Africans with chapters devoted to the slave populations and interracial relations. This widely researched book sheds new light on the networks and the culture of imperialism.

Evolution of Greater Britain's Antiseptic House & Town Sewage-drainage Systems of the Twentieth Century and After - for All Time Isaac Shone,1914 The British Country House Revival Ben Cowell,2024 British country houses have experienced a renaissance since the early 1970s A new accord is needed today recognising the increasingly contested contribution of country houses to British cultural life Fifty years ago the future for country houses in Britain looked bleak The Victoria Albert Museum s exhibition The Destruction of the Country House which opened in October 1974 charted the loss of over a thousand country houses in the preceding century The makers of the exhibition warned that history could be about to repeat itself because of the threats besetting mansion properties principally from higher taxation Houses faced the prospect of having to be stripped of their collections and sold for use as offices hotels or hospitals with their parks and gardens turned into golf clubs Government might afford to save just a handful of the most significant of these places working in tandem with charities such as the National Trust The rest would be consigned to history This book traces the history of country houses in Britain from the Destruction exhibition to the present day The wave of country house losses anticipated in 1974 never actually happened Instead over the next five decades Britain s country houses experienced a renaissance Fiscal rules changed in the mid 1970s to make it easier for owners to hold on to their assets Economic improvements in the 1980s and 1990s allowed many houses and estates to develop profitable commercial businesses All of this was achieved only after dedicated campaigning from heritage organisations in support of the country house cause The book argues that a new accord is needed today to recognise and value the ongoing if increasingly contested contribution of country houses to British life and culture in the twenty first century
