

THE LOST MILLENNIUM

When a designer plague threatens every living thing on earth, a desperate world sends two 21st century soldiers back in time. Their mission is to win a war that was lost six thousand years ago...and change human history from conquest to cooperation. Now, believing their goal accomplished, they return to a world radically altered...but perhaps not for the better...

LOST DAYS

The world is healthy and at peace when Lieutenant Launa O'Brian and Captain Jack Walking Bear return from 4,000 B.C. But a different sort of plague has infested society. Suspicion and hostility poison the air. Racial and ethnic hatred are sanctioned by the powers that be. And it is not only Jack's people who are confined to "reservations."

Now the two are contemplating a journey back to the Neolithic period—in a desperate attempt to change history once more. But this time, there is no guarantee they will ever return...

The Lost Millennium Florin Diacu, 2010-07-23 Have you ever wondered how we really know what year it is Part detective story part conspiracy theory part scientific history The Lost Millennium explores the astonishing possibility that our calendar is out by a thousand years A chance conversation at a conference in Mexico started mathematician Florin Diacu on an amazing journey to make sense of one of the strangest and if true most revolutionary theories you ll ever encounter To understand how scientists could be sceptical about what year it is Florin Diacu explores the fascinating history of chronology from Egyptian horoscopes to the work of Isaac Newton with cameos by Voltaire and Edmund Halley making the startling discovery that our calendar is far from ironclad It all depends rather on the dating of ancient events about which there is real controversy At once accessible and profound The Lost Millennium examines the arguments of present day chronological revisionists such as the Russian scholar Anatoli Fomenko who claims that our system of dating is horribly askew Fomenko cites evidence from ancient astronomy linguistics and cartography and a crucial manuscript by Ptolemy staking his scientific prestige on a theory so controversial that it will change the way you think about time history and the calendar on your wall The field has also inspired its share of now discredited cranks such as Immanuel Velikovsky a media celebrity of the 1950s His notorious book *Worlds in Collision* argued that biblical events are incorrectly dated Beautifully written and peopled with fascinating characters from past and present The Lost Millennium is essential reading for anyone who believes they re living in the year 2005 Catalog of Copyright Entries.
