

MANAGEMENT OF PATIENTS WITH VASCULAR DISORDERS AND PROBLEMS OF PERIPHERAL CIRCULATION

VASCULAR SYSTEM

- ⇒ Consists of two interdependent systems
 - Right side of the heart pumps blood through the lungs to the pulmonary circulation
 - Left side of the heart pumps blood to all other body tissues through the systemic circulation
- ⇒ Arteries and arterioles
- ⇒ Capillaries
- ⇒ Veins and venules
- ⇒ Lymphatic vessels

Function of the Vascular System

- ⇒ Circulatory needs of tissues
- ⇒ Blood flow
- ⇒ Blood pressure
- ⇒ Capillary filtration and reabsorption
- ⇒ Hemodynamic resistance
- ⇒ Peripheral vascular regulating mechanisms

Pathophysiology of the Vascular System

- ⇒ Pump failure
- ⇒ Alterations in blood and lymphatic vessels
- ⇒ Circulatory insufficiency of the extremities

Systemic and Pulmonary Circulation

Gerontologic Considerations

- ⇒ Aging produces changes in the walls of the blood vessels that affect the transport of oxygen and nutrients to the tissues
- ⇒ Changes cause vessels to stiffen and results in:
 - Increased peripheral resistance
 - Impaired blood flow

- Increased left ventricular workload

Assessment of the Vascular System

- ⇒ Health history
 - Intermittent claudication
 - "Rest pain"
 - Location of the pain
- ⇒ Physical assessment
 - Skin (cool, pale, pallor, rubor, loss of hair, brittle nails, dry or scaling skin, atrophy, and ulcerations)
 - Pulses

One of the earliest symptoms of PAD may be intermittent claudication. This is leg discomfort, pain or numbness that occurs during walking or other activity and is relieved by rest. The pain is most often noticed in the calf, thigh, buttock, or foot. The pain usually occurs on the same side of the body.

Diagnostic Evaluation

- ⇒ Doppler ultrasound flow studies
 - Ankle brachial index (ABI)
- ⇒ Exercise testing
- ⇒ Duplex ultrasonography
- ⇒ Computed tomography scanning
- ⇒ Angiography and magnetic resonance angiography
- ⇒ Contrast phlebography (venography)
- ⇒ Lymphoscintigraphy

Continuous-wave Doppler ultrasound detects blood flow. Combined with computation of ankle or arm pressures, this diagnostic technique helps characterize the nature of peripheral vascular disease.

Peripheral Arterial Occlusive Disease (PAD)

- ⇒ Hallmark symptom is intermittent claudication described as aching, cramping, or inducing fatigue or weakness
- ⇒ Occurs with some degree of exercise or activity
- ⇒ Relieved with rest
- ⇒ Pain is associated with critical ischemia of the distal extremity and is described as persistent, aching, or boring (rest pain)
- ⇒ Ischemic rest pain is usually worse at night and often wakes the patient

Management Of Vascular Surgical Problems

National Library of Medicine (U.S.)

Management Of Vascular Surgical Problems:

Management of Vascular Surgical Problems William Andrew Dale, 1985

Laparoendoscopic Surgical Complications, 2nd Edition, 2005

Prevention and Management of Schein's Common Sense Prevention and Management of Surgical Complications Moshe Schein,, Paul N Rogers,, Ari Leppäniemi,, Danny Rosin, 2013-10-01 The enthusiastic feedback received from readers of the international bestseller Schein's Common Sense Emergency Abdominal Surgery now in its 3rd edition translated to seven languages Springer Verlag ISBN 9783540748205 inspired the editors to do a similar book dedicated to surgical complications practical non formal internationally relevant in all types of practice and levels of hospitals and definitely not politically correct what is considered taboo by others is not taboo for us here we discuss everything As in the editors previous book the use of references is restricted to the absolute minimum and citing figures and percentages is avoided as much as possible The chapters in this book are the opinion of experts each contributor has a vast personal knowledge and clinical experience in the field he is writing about This book will help all surgeons and their patients avoid the misery of complications and will provide advice on the management of those that are unavoidable Complications and death are an integral component of surgery Surgeons have to look death in the eyes try to prevent it and vanquish it this is what this book is all about Schein's books are always terrific reads conveying pithy observations and practical advice and doing so with wit and scholarship This latest is surely a must for every surgeon's bookshelf Abraham Verghese MD author of CUTTING FOR STONE

Current Catalog National Library of Medicine (U.S.), 1985 First multi year cumulation covers six years 1965-70

Surgical Complications: Diagnosis And Treatment Nadey S Hakim, Vassilios E Papalois, 2007-03-22 As Professor Owen H Wangensteen one of the greatest academic surgeons of the 20th century said You are a true surgeon from the moment you are able to deal with your complications Prompt and accurate diagnosis as well as effective treatment of surgical complications is one of the most important elements of surgical practice This is today more important than at any other time since over the last 20 years we have witnessed the development of new surgical sub specialties the performing of complicated operations in very challenging patients the introduction of new technologies in surgical practice and last but not least an increasing interest in monitoring the quality medico legal implications and ethical dimensions of surgical practice and malpractice As surgical complications have been presented briefly and sporadically in various books and only as a small part of chapters dealing with surgical techniques there is a pressing need for a modern textbook dealing with the diagnosis treatment auditing medico legal implications and ethical problems related to surgical complications Written by internationally known authors the chapters deal with both the general issues regarding the surgical complications and the specific issues related to each surgical specialty Each chapter includes clinical presentation diagnosis clinical laboratory investigations imaging treatment conservative surgical and outcome a

[Complications in Vascular and Endovascular Surgery](#) Jonathan J Earnshaw,, Michael Wyatt, 2012-01-01 The aim of this book is to help clinicians to reduce the risk of

complications after vascular and endovascular surgery Whilst it is a surgical truism that the surgeon who does the most operations has the most complications an acknowledgement of the fact that all vascular and endovascular procedures are potentially hazardous and some extremely so some surgeons seem to have more complications than others This book is for all surgeons and radiologists who accept the challenge continually to improve their results Each chapter is authored by an experienced endo vascular specialist who will have witnessed firsthand the perils and pitfalls of vascular procedures They have seen all the complications and even occasionally made errors of judgement The chapters are full of information to help the reader avoid similar hazards in future We live in a world of high patient expectation where complications are seen as someone's fault Clinicians are familiar with innovations such as outcomes audit and assessment procedural governance and quality improvement programmes There is pressure to show progressive improvement First class surgery is a combination of knowledge and skill and perhaps just a little luck though as is oft quoted the more you practice the luckier you get The information in this book will provide insights protocols and tips and tricks to minimise the risks of procedures in vascular and endovascular surgery It is therefore essential reading for anyone who treats patients with vascular disease

Emergency Vascular Surgery Eric Wahlberg, Pär Olofsson, Jerry Goldstone, 2007-06-15 Emergency Vascular Surgery provides detailed guidelines to any physician treating patients with emergency vascular disorders such as ruptured abdominal aortic aneurysms acute limb ischemia vascular trauma iatrogenic vascular injuries and complications to vascular surgery It provides an introduction to vascular surgical operations and focuses on how to manage patients from the emergency ward through the urgent operation and all the way to the immediate postoperative period Numerous figures illustrate the particular points in vascular techniques and diagnostic problems in the emergency situation

National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1971 [Management of Surgical Complications](#) James D. Hardy, 1975 *Current Critical Problems in Vascular Surgery* Frank J. Veith, 1993 This volume covers current information in vascular surgery presented at the 1992 Montefiore Einstein Vascular Symposium Topics include controversies and progress in surgery for the lower extremity ischemia endovascular diagnostic and therapeutic techniques and other topics
