Marriage And Inequality In Chinese Society Studies On China 1:

Marriage and Inequality in Chinese Society Rubie S. Watson, Patricia Buckley Ebrey, 1991-04-02 Marriage and mobility under rural collectivism William Lavelly Women property and law in the People's Republic of China Jonathan K Ocko Afterword marriage and gender inequality Rubie S Watson **Handbook on the Family and Marriage in China** Xiaowei Zang, Lucy Xia Zhao, 2017-12-29 This Handbook advances research on the family and marriage in China by providing readers with a multidisciplinary and multifaceted coverage of major issues in one single volume It addresses the major conceptual theoretical and methodological issues of marriage and family in China and offers critical reflections on both the history and likely progression of the field Psychoanalysis in China David E. Scharff, Sverre Varvin, 2018-03-08 The introduction of psychoanalysis to China over the last twenty years brings a clash between Eastern and Western philosophical backgrounds Chinese patients therapists and trainees struggle with assumptions inherent in an analytic attitude steeped in Western ideas of individualism that are often at odds with a Chinese Confucian ethic of respect for the family and the work group The situation is further complicated by the rapid evolution of Chinese culture itself emerging from years of trauma new economics and the one child policy of the last generation that has introduced a new Chinese brand of individualism and new family structure that are not equivalent to those of the West This volume breaks new ground in exploring these issues and challenges to the introduction of analytic therapies into China from the viewpoint of Western teachers and Chinese teachers clinicians anthropologists and observers Women and Gender in Contemporary Chinese Societies Shanshan Du, Ya-chen Chen, 2013-03-04 Recent attention to historical geographic and class differences in the studies of women and gender in China has expanded our understanding of the diversity and complexity of gendered China Nevertheless the ethnic dimension of this subject matter remains largely overlooked particularly concerning women's conditions and gender status Consequently the patriarchy and its oppression of women among the Han the ethnic majority in China are often inaccurately or erroneously associated with the whole gendered heritage of China epitomized by the infamous traditions of footbinding and female infanticide Such academic and popular predisposition belies the fact that gender systems in China span a wide spectrum ranging from extreme Han patriarchy to Lahu gender egalitarianism The authors contributing to this book have collectively initiated a systematic effort to bridge the gap between understanding the majority Han and ethnic minorities in regard to women and gender in contemporary Chinese societies By achieving a quantitative balance between articles on the Han majority and those on ethnic minorities this book transcends the ghettoization of ethnic minorities in the studies of Chinese women and gender The eleven chapters of this volume are divided into three sections which jointly challenge the traditions and norms of Han patriarchy from various perspectives The first section focuses on gender traditions among ethnic minorities which compete with the norms of Han patriarchy The second section emphasizes the impact of radical social transformation on gender systems and practices among both Han and ethnic minorities The third section underscores socio

cultural diversity and complexity in resistance to Han patriarchal norms from a broad perspective This book complements previous scholarship on Chinese women and gender by expanding our investigative lens beyond Han patriarchy and providing images of the multiethnic landscape of China By identifying the Han as an ethnically marked category and by bringing to the forefront the diverse gender systems of ethnic minorities this book encourages an increasing awareness of and sensitivity to the cross cultural diversity of gendered China both in academia and beyond People's Republic of China, Volumes I and II Frank N. Pieke, 2023-12-31 This title was first published in 2002 This two volume set collects in a conveniently accessible form the most influential articles by leading authorities in the study of China It provides an international reference work combined with an authoritative introduction by the editor Women and Gender in Twentieth-Century China Paul J. Bailey, 2012-08-29 Paul J Bailey provides the first analytical study in English of Chinese women's experiences during China's turbulent twentieth century Incorporating the very latest specialized research and drawing upon Chinese cinema and autobiographical memoirs this fascinating narrative account Explores the impact of political social and cultural change on women's lives and how Chinese women responded to such developments Charts the evolution of gender discourses during this period Illuminates both change and continuity in gender discourse and practice Approachable and authoritative this is an essential overview for students teachers and scholars of gender history and anyone with an interest in modern Chinese history **Chinese Marriages in Transition** Xiaoling Shu, Jingjing Chen, 2023-09-15 Outdated models of Chinese gender roles marriage and family transitions portray these changes as streamlined and unidirectional from traditional to modern public to private collective to individual Chinese Marriages in Transition documents the complex nuanced and multidirectional nature of these cultural transformations Using complex and large scale historical national data as well as comprehensive data from multiple countries Xiaoling Shu and Jingjing Chen demonstrate that while the second demographic transition is unfolding in many advanced Western societies it is not necessarily a normative form of societal transition Working instead from a framework of new familism Shu and Chen show that Chinese new familism consists of both old and new values including the persistence of some traditional beliefs and practices accompanied by a transition to modern perceptions of gender and adaption to some modern forms of family formation This book is freely available in an open access edition thanks to TOME Toward an Open Monograph Ecosystem a collaboration of the Association of American Universities the Association of University Presses and the Association of Research Libraries and the generous support of the University of California Davis Learn more at the TOME website available at openmonographs.org Download the open access book here Women in Early Medieval China Bret Hinsch, 2018-10-05 This important study provides the only comprehensive survey of Chinese women during the early medieval period of disunion which lasted from the fall of the Eastern Han dynasty in 220 AD to the reunification of China by the Sui dynasty in 581 AD also known as the Six Dynasties Bret Hinsch offers rich descriptions of the most important aspects of female life in this era including family and

marriage motherhood political power work inheritance education and religious roles He traces women's lived experiences as well as the emotional life and the ideals they pursued Building on the best Western and Japanese scholarship Hinsch also draws heavily on Chinese primary sources and scholarship most of which is unknown outside China As the first study in English about women in the early medieval era this groundbreaking book will open a new window into Chinese history for Western readers Understanding Chinese Society Xiaowei Zang,2015-07-14 This second edition of *Understanding Chinese Society* provides a comprehensive readable and well grounded introduction to the key issues affecting contemporary China A thorough analysis is undertaken not only of China's family patterns education system status hierarchy and ethnic diversity but also of China's mass media legal system and social control work and cultural expression As well as being thoroughly updated and revised throughout this edition offers new chapters on urbanization the environment and civil society in China A team of international experts guide students through social issues including What are the key features of the family and marriage institutions in China How are women and men faring differently in Chinese society today How are minorities faring in China How does the education system differentiate Chinese society How are religion and cultural traditions expressed Including handy pedagogical features such as a chronology of the People's Republic of China further reading suggestions and related novels and films *Understanding Chinese Society* is suitable for anyone studying Chinese Culture and Society Chinese Studies and Asian sociology Intimate Relationships in China in the Light of Depth Psychology Huan Wang,2020-04-03 In *Intimate Relationships in China in the Light of Depth Psychology* A Study of Gender and Integrity Huan Wang presents an overview of Jungian ideas as they apply to gender roles and relationships in contemporary Chinese culture Moving beyond a Western interpretation of key concepts Wang attempts to understand and deal with the difficulties of contemporary marriages in a rapidly changing society investigating how young Chinese couples have been affected by traditional values Westernisation and the one child policy Wang also discusses how depth psychology has developed and been applied in China highlighting how it differs in Chinese and Western settings and the problems and achievements Chinese people have faced She concludes that the Chinese psyche today is experiencing a transition from the compliance of collectivism to the awareness of individuation and that the rediscovery of the notion of integrity will help Chinese therapists to find their way make young Chinese people independent individuals and bring a new approach to their marriages This is the first time such issues have been profoundly and comprehensively discussed in a Chinese context It will be an invaluable resource for analytical psychologists psychotherapists and marriage and family and couple therapists working in China or with Chinese clients It will also be of great interest to academics and students of Jungian and post Jungian studies and to anyone interested in the psyche of contemporary China *Gender and Chinese History* Beverly Jo Bossler,2015-06-01 Until the 1980s a common narrative about women in China had been one of victimization women had dutifully endured a patriarchal civilization for thousands of years living cloistered uneducated lives separate from the larger social and cultural world until

they were liberated by political upheavals in the twentieth century Rich scholarship on gender in China has since complicated the picture of women in Chinese society revealing the roles women have played as active agents in their families businesses and artistic communities The essays in this collection go further by assessing the ways in which the study of gender has changed our understanding of Chinese history and showing how the study of gender in China challenges our assumptions about China the past and gender itself

Gender and Sexuality in Modern Chinese History Susan L. Mann, 2011-09-19 Gender and sexuality have been neglected topics in the history of Chinese civilization despite the fact that there is a massive amount of historical evidence on the subject China's late imperial government was arguably more concerned about gender and sexuality among its subjects than any other pre modern state How did these and other late imperial legacies shape twentieth century notions of gender and sexuality in modern China Susan Mann answers this by focusing on state policy ideas about the physical body and notions of sexuality and difference in China's recent history from medicine to the theater to the gay bars from law to art and sports More broadly the book shows how changes in attitudes toward sex and gender in China during the twentieth century have cast a new light on the process of becoming modern while simultaneously challenging the universalizing assumptions of Western modernity

Marriage as Political Strategy and Cultural Expression George Qingzhi Zhao, 2008 Marriage as Political Strategy and Cultural Expression is the first comprehensive study of Mongolian royal marriages from World Empire 1206 1279 to the Yuan dynasty 1279 1368 in Asia This study examines the Mongolian royal family's marriage strategies and the political implications of these royal marriages specifically the intermarriages between the Mongolian royal house and its allies including the Onggirat the Oirat and other Mongol peoples as well as the Uighur State and Korea in Central and East Asia This book concludes that the short lifespans of Mongol royalty after Khubilai Khan were the result of consanguineous marriage and inbreeding genetic factors that contributed to the collapse of the Mongol dynasty

Chinese Women - Living and Working Anne McLaren, 2005-08-05 This book presents significant new findings on new domains of employment for women in China's burgeoning market economy of the 1990s and the twenty first century Experts in gender politics media studies and anthropology discuss the impact of economic reform and globalization on Chinese women in family businesses management the professions the prostitution industry and domestic service Significant themes include changing marriage and consumer aspirations and the reinvention of domestic space The volume offers fresh insights into changing definitions of women's work in contemporary China and questions women's perceived disadvantage in the market economy

Bodies of Difference Matthew Kohrman, 2005-05-23 Bodies of Difference chronicles the compelling story of disability's emergence as an area of significant sociopolitical activity in contemporary China Keenly attentive to how bodies are embedded in discourse history and personal exigency Matthew Kohrman details ways that disability became a fount for the production of institutions and identities across the Chinese landscape during the final decades of the twentieth century He looks closely at the creation of the China

Disabled Persons Federation and the lives of numerous individuals among them Deng Pufang son of China's Communist leader Deng Xiaoping The Oriental, the Ancient and the Primitive Jack Goody, 1990-02-08 Continuing the comparative survey of pre industrial family formation undertaken in *The Development of Family and Marriage in Europe* 1983 Professor Goody looks in depth at kinship practice in Asia His findings cause him to question many traditional assumptions about the primitive East and he suggests that in contrast to pre colonial Africa kinship practice in Asia has much in common with that prevailing in parts of pre industrial Europe Goody examines the transmission of productive and other property in relation both to the prevailing political economy and to family and ideological structures and explores the distribution of mechanisms and strategies of management across cultures The book concludes that notions of western uniqueness are often misplaced and that much previous work on Asian kinship has been unwittingly distorted by the application of concepts and approaches derived from other inappropriate social formations **Lost Bodies: Prostitution and Masculinity in Chinese Fiction** Paola Zamperini, 2010-06-28 This important contribution to the study of early modern Chinese fiction and representation of gender relations focuses on literary representations of the prostitute produced in the Ming and Qing periods Following her heavily symbolic body the present work maps this fictional heroine's journey from innocence to sex work and beyond This crucial angle allows the author to paint a picture of gender identity sexuality and desire that is at once unitary and multi layered and that comes to illuminate some of the major themes in the construction of Chinese modernity *Chinese vs. Western Perspectives* Jinghao Zhou, 2013-12-04 China is on the rise in the globalized world The relationship between China and the United States has become the most important global issue in the twenty first century It is urgent to understand what is happening in China and where China is heading However there are many misconceptions about China in the West which affect Westerners ability to objectively understand China and ultimately influence the making of foreign policy toward China The author attempts to challenge the misconceptions coming from both Western societies and China and offer an integrated picture of contemporary China through systematically examining the major aspects of contemporary Chinese society and culture with the most recent data and presents convincing arguments in eighteen chapters for spurring mutual understanding between China and the West The author intends this book to be an interdisciplinary and comprehensive guide to China for a general audience and it covers a wide variety of topics including history family population Chinese women economy environmental issues politics religion media U S China relations and other subjects This book demonstrates the author's extensive research and thoughtful examination of many sides of controversial issues related to China with a nice balance of Western and Chinese scholarship This is one of the few that are authored by scholars who originate from China and have their professional career in the United States but it is distinctive from the rest of studies on this subject in that the author is committed to examining today's China from Chinese as well as Western perspectives This is not only a scholarly book but also is suitable for general classes on China Missionary Spaces Thomas Coomans, 2024-05-02 The spatial turn of

missionary places Situated at the crossroads of missionary history imperial history and colonial architecture this volume examines the architectural staging and spatial implications of the worldwide expansion of Christianity in the nineteenth and twentieth centuries By focusing on specific architectural fragments analysing the intersection of Christian edifices in colonial and traditional urban settings or unravelling the social understanding of missionary places each chapter strives to understand the agency of missionary spaces Bringing together scholars from different disciplines and fields this book aims to centre those missionary spaces by approaching them not merely as d cor around and within which the missionary encounter was acted but by making them part and parcel of it Through its approach Missionary Spaces provides a new paradigm for scrutinising the spatial turn for missionary histories and contributes to the increased attention across the humanities to space place and location since the late 1990s Space does not occur as an historical given but as a social construction to be analysed while at the same time having explanatory value of its own This book focuses on Africa and the Chinese Region with contributions on Burundi China Congo Egypt Ghana Kenya and Taiwan Chinese Women in the Imperial Past Harriet Zurndorfer, 2022-08-22 The present volume is the result of a Leiden University workshop on women in imperial China by a group of international scholars In recent years Chinese women and gender studies have attracted more and more attention and this book is one of the first efforts to focus on major aspects of this subject It covers a wide range of topics and disciplines including bibliography demography history legal studies literature history of medicine and philosophy Chinese Women in the Imperial Past can rightly be seen as connected with the new Brill journal NAN N Men Women and Gender in Early and Imperial China which was founded to provide the scholarly community with a lasting forum in which the subject of Chinese women and gender can be dealt with in its own right
