Economic Management and French Business M. Maclean,2002-10-02 How is it that the modest pace of change which typified the French economy a century ago gave way after 1945 to a new revived capitalism and a superior economic performance Maclean traces the development of French economic and business life in the context of the European and international economy over the past fifty years She examines the main economic trends and events from nationalization to privatization from war with Germany to reconciliation and ever greater union from the franc to the euro and from national champions to mega mergers with foreign companies Maclean argues that the new French capitalism of the twenty first

century is the product of an ideological struggle in which the forces of modernization triumphed over the old guard of French nationalism

The Making of Les Bleus Lindsay Sarah Krasnoff, 2012-12-16 The Making of Les Bleus traces the Fifth Republic's quest to create elite athletes in two global team sports football and basketball primarily at the youth level While the objective of this mission was to improve performances at international competitions such programs were quickly seized upon to help ease domestic issues and tensions The onset of the Cold War forced countries of all sizes to rethink their relevancy A country's ability to exert soft power or influence others through the cultural sphere became more important Sport was but one way through which to do so The extent to which France harnessed the athletic domain was unprecedented among other West European nations In France sport particularly at the youth level was used to cultivate soft power internationally to transmit republican ideals of democracy and fair play to the youth and to examine and create a modern post colonial French identity in a globalizing world The French sought to find a third way in sports much in the way that it sought to create an alternative between the diplomatic policies of Washington and Moscow Fifth Republic sports systems placed the training of elite athletes under the state At the same time private clubs also played an important role in developing players to serve the republic in elite competition Examination of the republic's quest to create elite athletes provides perspective on how France coped with and adapted to the post 1945 world In what ways did the country reconfigure its global role How did domestic changes impact society In a globalizing post colonial world how has France come to terms with the past In what ways has France sought to create a new French identity This story helps answer such questions The history of the state's cooption of youth sports forms a compelling tale and serves as a prism through which to investigate the larger history of France the evolution of society the impacts of the media revolution and the government's mission of public health It underscores just how much things have changed yet still remained the same You can find a podcast interview with the author about this book at <http://newbooksinsports.com> 2013 11 14 lindsay krasnoff the making of les bleus sport in france 1958 2010 lexington books 2012

The Risky Business of French Feminism Jennifer L. Sweatman, 2014-08-26 The Risky Business of French Feminism Publishing Politics and Artistry examines the institutional history of the publishing house Editions des Femmes as well as its relationship to the French Women's Liberation Movement MLF from 1972 to the present The founding and subsequent success of Editions des Femmes in the publishing milieu intensified the ideological divisions within the MLF and highlighted the extent to which that movement failed to adequately reflect on the power inherent in its recourse to print culture as an agent of change In particular Editions des Femmes produced several periodical publications and pioneered a woman centered subculture that attached militant political meanings to the practice of buying and publishing books While the MLF succeeded in changing legislation detrimental to women it was not able to create unified cultural politics or construct a long term media strategy that could preserve the movement's original ideals and unity Jennifer L Sweatman explores the long term dissipation of the MLF as a unified force not only as an outcome of ideological disagreement but also due to conflicting views on culture women's creativity as a strategy for empowerment and the utility of media for creating change As the MLF fragmented unable to fully come to terms with its various consumer identities its need for capital to support creative projects and its difficult experience with collective decision making the Editions des Femmes project was seen as incredibly controversial However Editions des Femmes embodied a broader strategy for cultural transformation that privileged women's creative works rather than feminism situating it as a successful forerunner of the revitalization of the publishing industry from below as small independent houses challenged the large media conglomerate control of the industry

France and Its Empire Since 1870 Alice L. Conklin, Sarah Fishman, Robert Zaretsky, 2015 Providing an up to date synthesis of the history of an extraordinary nation one that has been shrouded in myths many of its own making *France and Its Empire Since 1870* seeks both to understand these myths and to uncover the complicated and often contradictory realities that underpin them It situates modern French history in transnational and global contexts and also integrates the themes of imperialism and immigration into the traditional narrative Authors Alice L Conklin Sarah Fishman and Robert Zaretsky begin with the

premise that while France and the U S are sister republics they also exhibit profound differences that are as compelling as their apparent similarities The authors frame the book around the contested emergence of the French Republic a form of government that finally appears to have a permanent status in France but whose birth pangs were much more protracted than those of the American Republic Presenting a lively and coherent narrative of the major developments in France s tumultuous history since 1870 the authors organize the chapters around the country s many turning points and confrontations They also offer detailed analyses of politics society and culture considering the diverse viewpoints of men and women from every background including the working class and the bourgeoisie immigrants Catholics Jews and Muslims Bretons and Algerians rebellious youth and gays and lesbians

Women on Corporate Boards of Directors Susan Vinnicombe, 2009-01-01 a thorough and insightful examination of women on corporate boards of directors I recommend the book as a read for practitioners scholars educators and others having an interest in human resource management With its wealth of information Women on Corporate Boards of Directors is a good addition to the extant literature that should represent an affordable value for the buyer Mark Mone Personnel Review After the first two chapters I was so absorbed I was almost reluctant to go to coffee and as other coffee addicts will know it is a rare book especially a rare academic book that can make one careless in observing the customary coffee break I found that the way this book is written helped me to reflect on much of the gender research that I am involved in currently because the questions raised are so searching and far reaching Once again the chapter authors combine brevity with thoroughness and depth in their examination of the themes which made this a very rewarding book because it takes you so far in your thinking in just 240 pages I feel energised by the debates that the book has opened up for me I have done research in this particular area but I now feel that I have explored different perspectives and new depths and I am grateful to the editors for that
