An Alternative History of Bicycles and Motorcycles Steven E. Alford, Suzanne Ferriss, 2016-04-06 An Alternative History of Bicycles and Motorcycles Two Wheeled Transportation and Material Culture accounts for the nineteenth century creation and development of two wheeled vehicles both human powered and motorized Specifically the book focuses on the period from 1885 which saw the appearance simultaneously of the Safety bicycle and the Einspur the first motorcycle to 1920 while exploring implications for later bicycling and motorcycling We argue that invention of these vehicles rather than the product of gifted individuals should be seen as the consequence of a number of historical economic cultural and political forces that intersect so unpredictably that the notion of a genius inventor is reductive The common evolutionary model of development from the bicycle to the motorcycle oversimplifies both the technology and its origins Stripping the vehicles of all their material and cultural associations such a model fails to advance our understanding of the devices their creators and their riders Taking a contemporary vehicle and tracing its lineage creates a false sense of evolutionary necessity in its creation and fails to account for the many possible developmental paths that were for whatever reason abandoned By contrast our book adopts a material culture approach a form of inquiry that stresses the connections between artifacts and social relations We consider not simply the bicycle and motorcycle as material objects but focus also on the complex socio political and economic convergences that produced the materials materials that in turn themselves shaped the vehicles appearance function and adoption by riders

The MotoLady's Book of Women Who Ride Alicia Mariah Elfving, 2021-05-18 Written and curated by Alicia Mariah Elfving founder of TheMotoLady.com and the Women's Motorcycle Show and arguably the most notable advocate for women in the motorcycling hobby The MotoLady's Book of Women Who Ride subverts all the tired women and motorcycle tropes offering the true stories of the women past and present who ride and wrench as well as anyone proving every bit as indispensable to maintaining and growing a positive motorcycling culture Historically depictions of women in motorcycle culture tend to objectify from the outlaw motorcycle club biker babe to cheesecake photography to posturing celebrities with motorcycles as props The truth is much different From the early days of motorcycle culture more than 100 years ago women have played a central role in making the motorcycle a legitimate form of transportation recreation and motorsport Elfving presents more than 70 figures in the motorcycle world from the Americas to Europe and even the Middle East and South Asia stunt riders racers builders customizers organizers and more Elfving links today's women motorcyclists with those of the past and illustrates the freedom represented by two wheels and how motorcycles allow women to transcend cultural expectations confidently You'll meet riders such as Sofi Tsingos who raises money for charities by building and auctioning motorcycles Safety ambassador Brittany Morrow who found her calling after surviving a high speed crash with no gear The Van Buren sisters who in 1916 were among the first motorcyclists to ride coast to coast and the first women to ride to the summit of Pikes Peak The late Jessi Combs an iconic TV personality metal fabricator and land speed record holder
