Plater, 2015-11-18 In 1833 Edward G. W. and Frances Parke Butler moved to their newly constructed plantation house Dunboyne on the banks of the Mississippi River near the village of Bayou Goula Their experiences at Dunboyne over the next forty years demonstrated the transformations that many land-owning southerners faced in the nineteenth century from the evolution of agricultural practices and commerce to the destruction wrought by the Civil War and the transition from slave to free labor and finally to the social political and economic upheavals of Reconstruction In this comprehensive biography of the Butlers David D. Plater explores the remarkable lives of a Louisiana family during one of the most tumultuous periods in American history Born in Tennessee to a celebrated veteran of the American Revolution Edward Butler pursued a military career under the mentorship of his guardian Andrew Jackson and during a posting in Washington D. C. met and married a grand-niece of George Washington Frances Parke Lewis In 1831 he resigned his commission and relocated Frances and their young son to Iberville Parish where the couple began a sugar cane plantation As their land holdings grew they amassed more enslaved laborers and improved their social prominence in

Louisiana's antebellum society A staunch opponent of abolition Butler voted in favor of Louisiana's withdrawal from the Union at the state's Secession Convention But his actions proved costly when the war cut off agricultural markets and all but destroyed the state's plantation economy leaving the Butlers in financial ruin In 1870 with their plantation and finances in disarray the Butlers sold Dunboyme and resettled in Pass Christian Mississippi where they resided in a rental cottage with the financial support of Edward J Gay a wealthy Iberville planter and their daughter in law's father After Frances died in 1875 Edward Butler moved in with his son's family in St Louis where he remained until his death in 1888 Based on voluminous primary source material The Butlers of Iberville Parish Louisiana offers an intimate picture of a wealthy nineteenth century family and the turmoil they faced as a system based on the enslavement of others unraveled Revolutionary Medicine Jeanne E Abrams,2013-09-13 An engaging history of the role that George Washington Thomas Jefferson and Benjamin Franklin played in the origins of public health in America Before the advent of modern antibiotics one's life could be abruptly shattered by contagion and death and debility from infectious diseases and epidemics was commonplace for early Americans regardless of social status Concerns over health affected the Founding Fathers and their families as it did slaves merchants immigrants and everyone else in North America As both victims of illness and national leaders the Founders occupied a unique position regarding the development of public health in America Historian Jeanne E Abrams's Revolutionary Medicine refocuses the study of the lives of George and Martha Washington Benjamin Franklin Thomas Jefferson John and Abigail Adams and James and Dolley Madison away from politics to the perspective of sickness health and medicine For the Founders republican ideals fostered a reciprocal connection between individual health and the health of the nation Studying the encounters of these American Founders with illness and disease as well as their viewpoints about good health not only provides a richer and more nuanced insight into their lives but also opens a window into the practice of medicine in the eighteenth century which is at once intimate personal and first hand Today's American public health initiatives have their roots in the work of America's Founders for they recognized early on that government had compelling reasons to shoulder some new responsibilities with respect to ensuring the health and well being of its citizenry beginning the conversation about the country's state of medicine and public healthcare that continues to be a work in progress **Martha Washington** Patricia Brady,2006-05-30 With this revelatory and painstakingly researched book Martha Washington the invisible woman of American history at last gets the biography she deserves In place of the domestic frump of popular imagination Patricia Brady resurrects the wealthy attractive and vivacious young widow who captivated the youthful George Washington Here are the able landowner the indomitable patriot who faithfully joined her husband each winter at Valley Forge and the shrewd diplomat and emotional mainstay And even as it brings Martha Washington into sharper and more accurate focus this sterling life sheds light on her marriage her society and the precedents she established for future First Ladies **A Culinary History of Montgomery County, Maryland** Claudia Kousoulas, Ellen Letourneau,2022-04-25 Montgomery County

s Agricultural Reserve created in 1980 was a history making decision that is a model for land preservation Montgomery County s earliest residents Native Americans developed agricultural communities and used the shores of the Potomac as a trading spot European settlers farmed tobacco eventually collapsing the County s economy until the Quaker community returned fertility to the land The C O Canal was the nation s first significant infrastructure project and helped create links to national and international markets In the 20th century the Marriott chain developed contemporary industrialized food that signaled a changing world The Agricultural Reserve was intended to preserve the county s rural past in the face of rapid change Along with farming it also preserved history and foodways Claudia Kousoulas and Ellen Letourneau tell this agricultural history through food and recipes

complicated than it seems Rebecca Sharpless here weaves a brilliant chronicle vast in perspective and entertaining in detail revealing how three global food traditions Indigenous American European and African collided with and merged in the economies cultures and foodways of the South to create what we know as the southern baking tradition Recognizing that sentiments around southern baking run deep Sharpless takes delight in deflating stereotypes as she delves into the surprising realities underlying the creation and consumption of baked goods People who controlled the food supply in the South used baking to reinforce their power and make social distinctions Who used white cornmeal and who used yellow who put sugar in their cornbread and who did not had traditional meanings for southerners as did the proportions of flour fat and liquid in biscuits By the twentieth century however the popularity of convenience foods and mixes exploded in the region as it did nationwide Still while some regional distinctions have waned baking in the South continues to be a remarkable and remarkably tasty source of identity and entrepreneurship George Washington's Beautiful Nelly Patricia Brady, 1996-02 From the vantage of Washington's adopted daughter Eleanor Parke Custis Lewis correspondence with childhood friend Elizabeth Bordley Gibson this book records the experiences of the first first family the social and political gossip of the republic's elite circle and the difficulties of motherhood and marriage
