Steiner, 2013-04-23 Nothing is more anathema to a serious radical than regionalism Berkeley English professor Henry Nash Smith asserted in 1980 Although regionalism in the American West has often been characterized as an inherently conservative backward looking force regionalist impulses have in fact taken various forms throughout U S history The essays collected in *Regionalists on the Left* uncover the tradition of left leaning western regionalism during the 1930s and 1940s Editor Michael C Steiner has assembled a group of distinguished scholars who explore the lives and works of sixteen progressive western intellectuals authors and artists ranging from nationally prominent figures such as John Steinbeck and Carey McWilliams to equally influential though less well known figures such as Angie Debo and Amrico Paredes Although they never constituted a unified movement complete with manifestos or specific goals the thinkers and leaders examined in this volume raised voices of protest against racial environmental and working class injustices during the Depression era that reverberate in the twenty first century Sharing a deep affection for their native and adopted places within the West these individuals felt a strong sense of avoidable and remediable wrong done to the land and the people who lived upon it motivating them to seek the root causes of social problems and demand change *Regionalists on the Left* shows also that this radical regionalism in the West often took urban working class and multicultural forms Other books have dealt with western regionalism in general but this volume is unique in its focus on left leaning regionalists including such lesser known writers as B A Botkin Carlos Bulosan Sanora Babb and Joe Jones Tracing the relationship between politics and place across the West *Regionalists on the Left* highlights a significant but neglected strain of western thought and expression

The Political Economy of Regionalism Michael Keating, John Loughlin, 2013-07-04 Examining the effects of economic and political restructuring on regions in Europe and North America the main themes here are international economic restructuring political realignments questions of territorial identity and policy choices and policy conflicts in regional

development *From Globalism to Regionalism* Patrick M. Cronin, 1993 These papers are a seminal source of discussion for what is simply the most profound shift of U S strategy in half a century The 13 essays and keynotes by Colin Powell address potential flash points of conflict likely to affect long range U S planning as well as salient political economic and military developments likely to dominate particular regions of the world from the Middle East and East Asia to Africa and Latin America This is in effect a workbook for understanding national security in the 20th century s final decade 6 maps

Geographies of (in)justice Brent Garrett Griffin, 2015 In the decades bracketing World War II a group of Midwestern radical writers promoted a new form of radical literary expression proletarian regionalism both to counter burgeoning right wing extremism in the United States and to renew a spirit of grass roots democracy egalitarianism and place based working class action For Meridel Le Sueur Jack Conroy Nelson Algren and Mari Sandoz four of the most regionally conscious and committed writers of the period and the focus of *Geographies of In Justice* proletarian regionalism was a vehicle for interpreting localized social economic and environmental injustices and for making connections between these places and larger scale processes of capitalist accumulation By tracing regional discourses through a broad range of forms including social realism little magazines conference presentations fictional autobiography and political allegory this recuperative literary history demonstrates that proletarian regionalism appropriated many forms in an attempt to interpret and represent an affective geography of capitalism and capture the socio spatial experiences of people struggling to live and work in the region Arguing that Midwestern proletarian regionalism presents a counter narrative to the still dominant view of regionalism as inherently conservative and backward looking this dissertation continues work by scholars such as Michael C Steiner who have begun to recover a woefully neglected tradition of left leaning regionalism and puts this tradition in conversation with recent theories in cultural geography 3 Ultimately *Geographies of In Justice* is an attempt to revise our understanding of these writers contributions to radical literature and reinvigorate a Marxist analysis of regionalism as a form of social critique and cultural analysis The central claim of this dissertation is that proletarian regionalism maps and interprets the complex geographies of capitalism and involves readers emotionally in the experiences of being situated within marginalized and often neglected places By reading this body of literature alongside cultural geography this research offers a better understanding of how regional writing can be understood as a vital representational strategy for imagining a broad geography of empathy and unity among socially responsible readers and as such can be a force of progressive social action

Regionalists on the Left Michael C. Steiner, 2025-07-29 Nothing is more anathema to a serious radical than regionalism Berkeley English professor Henry Nash Smith asserted in 1980 Although regionalism in the American West has often been characterized as an inherently conservative backward looking force regionalist impulses have in fact taken various forms throughout U S history The essays collected in *Regionalists on the Left* uncover the tradition of left leaning western regionalism during the 1930s and 1940s Editor Michael C Steiner has assembled a group of distinguished scholars who

explore the lives and works of sixteen progressive western intellectuals authors and artists ranging from nationally prominent figures such as John Steinbeck and Carey McWilliams to equally influential though less well known figures such as Angie Debo and Am rico Paredes Although they never constituted a unified movement complete with manifestos or specific goals the thinkers and leaders examined in this volume raised voices of protest against racial environmental and working class injustices during the Depression era that reverberate in the twenty first century Sharing a deep affection for their native and adopted places within the West these individuals felt a strong sense of avoidable and remediable wrong done to the land and the people who lived upon it motivating them to seek the root causes of social problems and demand change Regionalists on the Left shows also that this radical regionalism in the West often took urban working class and multicultural forms Other books have dealt with western regionalism in general but this volume is unique in its focus on left leaning regionalists including such lesser known writers as B A Botkin Carlos Bulosan Sanora Babb and Joe Jones Tracing the relationship between politics and place across the West Regionalists on the Left highlights a significant but neglected strain of western thought and expression

Amoretti, Nancy Gina Bermeo, Professor of Politics Nancy Bermeo, 2004 One of the biggest problems facing developing countries is the integration of regions with different traditions and minority groups into a larger sovereignty This book analyses successes and failures of federalism in advanced industrial countries developing countries and post Communist regimes

Regionalists on the Left Michael C. Steiner, 2015-02-02 Nothing is more anathema to a serious radical than regionalism Berkeley English professor Henry Nash Smith asserted in 1980 Although regionalism in the American West has often been characterized as an inherently conservative backward looking force regionalist impulses have in fact taken various forms throughout U S history The essays collected in Regionalists on the Left uncover the tradition of left leaning western regionalism during the 1930s and 1940s Editor Michael C Steiner has assembled a group of distinguished scholars who explore the lives and works of sixteen progressive western intellectuals authors and artists ranging from nationally prominent figures such as John Steinbeck and Carey McWilliams to equally influential though less well known figures such as Angie Debo and Am rico Paredes Although they never constituted a unified movement complete with manifestos or specific goals the thinkers and leaders examined in this volume raised voices of protest against racial environmental and working class injustices during the Depression era that reverberate in the twenty first century Sharing a deep affection for their native and adopted places within the West these individuals felt a strong sense of avoidable and remediable wrong done to the land and the people who lived upon it motivating them to seek the root causes of social problems and demand change Regionalists on the Left shows also that this radical regionalism in the West often took urban working class and multicultural forms Other books have dealt with western regionalism in general but this volume is unique in its focus on left leaning regionalists including such lesser known writers as B A Botkin Carlos Bulosan Sanora Babb and Joe Jones Tracing the relationship between politics and place across the West

Regionalists on the Left highlights a significant but neglected strain of western thought and expression **The Political Culture of the New West** Jeff Roche, 2008-10-28 From wildcatting Texas oilmen to Colorado rock climbers from hipster capitalists to populist moralizers westerners have proven themselves to be a highly individualistic breed of American as much in their politics as in their vocations or lifestyles This first book on the landscape of the American West's politics looks beyond red state blue state assumptions to explore how westerners have expanded the boundaries of the political and emerged as a harbinger of America's electoral future Representing a wide range of specialties popular culture business history the environment ethnic history agriculture and more these authors portray a politically heterogeneous region and show how its multiple traditions have strongly shaped the nation's body politic Viewing politics as more than cyclical electioneering they draw on historical evidence to portray westerners imaginatively rethinking democratic practice and constantly forging new political publics These twelve essays move western political history beyond the usual discussions of elections and parties and the standard issues of water progressivism and states rights Some explore claims to western authenticity among those associated with western conservatism not just regional heroes like Barry Goldwater and Ronald Reagan but farmers and evangelicals as well Others examine the transformation of the West's minority communities to reveal a liberalism that celebrates diversity and articulates claims for social justice The final chapters reveal the complexity of contemporary western political culture challenging longstanding assumptions about such notions as space nature and the liberal conservative divide Here then is the paradox of western politics in all its enigmatic glory with frontier individualism going head to head with multiethnic diversity in debates over divergent views of western authenticity and wild cards put into play by counterculturalists cyber libertarians fiscally conservative gun toting Democrats and environmentalists The Political Culture of the New West shows how westerners have expressed themselves within a complex often contradictory and constantly changing political culture and helps explain why no electoral outcome in this part of America can be predicted for certain Regional Analysis and the New International Division of Labor F. Moulaert, P.W. Salinas, 2013-03-09 Throughout the world a sense of crisis has settled in like a nightmare that refuses to leave We look towards the horizon with apprehension Major changes are afoot Older industrial regions once rich and powerful stand by helplessly as factories close down Poor countries are sliding into bankruptcy unable even to feed their populations In a few scattered enclaves called export platforms new manufacturing plants spring up overnight they employ predominantly young unmarried women and ship their products to unknown destinations overseas Small companies are eaten up by bigger ones which in turn are absorbed by still larger conglomerates Some industrial sectors are wiped out altogether Tensions between states are increasing More and more countries are coming under military rule Torture and terrorism are turned into tools of official state policy Civil wars are fought in Central America Northern Africa and Southeast Asia International conflict flares up between Britain and Argentina Iraq and Iran Ethiopia and Somalia Economic growth has slowed to a crawl Inflation undercuts the livelihood of the poor The small

producer is ruined It appears that we are involved in a major restructuring of the capitalist world The problems are profits capital accumulation and efficiency in production To make the indicators point up whole regions are sacrificed new technologies are put in place and new locational patterns are created as the world is carved up into a new international division of labor Against Itself Paul Sporn,1995 This work devoted to federally funded arts programmes in the American Midwest deals with the controversial Federal Theater Project FTP and the Federal Writers Project FWP under the New Deal's Works Progress Administration WPA **From Warm Center to Ragged Edge** Jon Lauck,2017-06 During the half century after the Civil War intellectuals and politicians assumed the Midwest to be the font and heart of American culture Despite the persistence of strong currents of midwestern regionalism during the 1920s and 1930s the region went into eclipse during the post World War II era In the apt language of Minnesota's F Scott Fitzgerald the Midwest slid from being the warm center of the republic to its ragged edge This book explains the factors that triggered the demise of the Midwest's regionalist energies from anti midwestern machinations in the literary world and the inability of midwestern writers to break through the cultural politics of the era to the growing dominance of a coastal urban culture These developments paved the way for the proliferation of images of the Midwest as flyover country the Rust Belt a staid and decaying region Yet Lauck urges readers to recognize persisting and evolving forms of midwestern identity and to resist the forces that squelch the nation's interior voices *Breaking Boundaries* Sherrie A. Inness,Diana Royer,1997 **Regional Worlds: Advancing the Geography of Regions** Martin Jones,Anssi Paasi,2017-10-02 A key concern in the debate and empirical research on the geography of regions is the evolution of the conceptualizations and practical uses of the idea of region This idea prioritises both the intellectual and the practical development of regional studies This book drives the discussion further It stresses the complex forms of agency advocacy involved in the production and reproduction of regional spaces and space of regionalism as well as the importance of geohistory and context The book moves beyond the territorial relational divide that has characterized debates on regions and regional borders since the 1990s The contributors answer key questions from different conceptual and concrete contextual angles and to motivate readers to reflect on the perpetual significance of regional concepts and how they are mobilized by various actors to maintain or transform the contested spatialities of societal power relations This book was based on a special issue of *Regional Studies* *The Dynamics of Change in Southern Africa* Paul B. Rich,2016-07-27 An up to date survey of political and economic trends in the Southern African region It brings together a well informed group of specialists who examine regional security issues the prospect for a constitutional settlement in South Africa and the problems facing Mozambique Angola Zimbabwe the BLS territories and Namibia The volume adopts an area studies approach and explores fresh analytical perspectives to understand change in the region in the light of the end of the Cold War and the decline of super power involvement in its affairs *Establishing Shots* Kevin Nikkel,2023-03-10 A behind the scenes account of a cultural institution that made a distinctive mark on Canadian film *Establishing Shots* captures a diverse group of

filmmakers in an immersive oral history of one of the most important and notorious artist run centres in Canada the Winnipeg Film Group Both a deep dive into the life of an internationally renowned institution and an exploration of the growth of an experimental film movement this richly illustrated collection of interviews produces a vibrant picture of the Winnipeg Film Group s origins successes failures and ongoing impact Formed in 1974 as a membership based film production training and exhibition cooperative the Winnipeg Film Group was part of a wave of artist run centres funded by the Canada Council for the Arts Kevin Nikkel s candid conversations with twenty nine administrators and filmmakers including Guy Maddin Shawna Dempsey and Matthew Rankin reveal the precarious path of independent artists struggles for equality within the industry and the importance of place in their work An engaging resource for scholars and historians of Manitoban and Canadian culture and film Establishing Shots also shows emerging filmmakers how other artists got their start and learned their craft

Voicing Diasporas Nabil Echchaibi, 2011-09-16 The events of 9 11 have cast a shadow of suspicion on Muslims in Western Europe and fostered a public discourse of arbitrary associations with violence and resistance to social and cultural integration The antagonistic ascendancy of militant Islam globally and the anxiety this has engendered are animating day to day debates on the place and loyalty of Muslims in Western societies Exploring the neglected reality of ethnic radio in Paris and Berlin Voicing Diasporas Ethnic Radio in Paris and Berlin Between Cultural Renewal and Retention examines how Muslim minorities of North African descent in France and Germany resist these glaring generalizations and challenge bounded narratives and laws of cultural citizenship in both countries Through an analysis of Beur FM in Paris and Radio Multikulti in
