Rediscovering Synodal Church for the Third Millennium

Joseph Scaria Palakeel MST

The twentieth century is rightly described as "the century of the Church" (*Das Jahrhundert der Kirche*) by the Protestant theologian Otto Dibelius.¹ From a Catholic perspective, we can say that the twentieth century has been 'a century of ecclesiologies', considering the blossoming of ecclesiologies both before and after the Second Vatican Council. Several streams of ecclesiological reflections inspired by the biblical studies and historical consciousness got channeled into the Second Vatican Council through the *periti* and the Council Fathers. Marking a definitive shift from the dominant Neo-Scholastic manualist ecclesiology, the Council embraced the fruits of biblical and patristic studies and allowed the insights from the French and German theologies to freely flow into the Council floor and endeavored to renew the Church top to bottom.

In the Council itself, theology of the Church occupied the central position with two Constitutions *Lumen Gentium* (LG) and *Gaudium et Spes* (GS) fully dedicated to the theology of the Church and most of the other documents dealing with the Church in relation to various fields like liturgy and worship, mission, ecumenism, bishops, priests and laity. The

Hans Kung, 2011-09-21 In *Theology for the Third Millennium* renowned theologian Hans Kung distills three decades of groundbreaking scholarship into a seminal work that reaffirms the enduring relevance of theology in our modern world. As religion faces constant questioning and frequent attacks, Kung's magnum opus offers a profound and intellectually rigorous defense of faith's place in contemporary discourse. This monumental volume is a must-read for students, scholars, and intellectuals grappling with the complex intersections of religion, philosophy, and society. Kung's erudite yet accessible analysis invites readers to confront the challenges facing theology head-on while illuminating its vital role in shaping our understanding of the human experience.

The Survival of Dulles Michael M. Canaris, 2021-08-17 This collection, marking the centenary of Avery Dulles's birth, makes an entirely distinctive contribution to contemporary theological discourse as we approach the second century of the cardinal's influence and the twenty-first of Christian witness in the world. Moving beyond a festschrift, the volume offers both historical analyses of Dulles's contributions and applications of his insights and methodologies to current issues like immigration, exclusion, and digital culture. It includes essays by Dulles's students, colleagues, and peers as well as by emerging scholars who have been and continue to be indebted to his theological vision and encyclopedic fluency in the ecclesiological developments of the post-conciliar Church. Though focused more on Catholic and ecumenical affairs than interreligious ones, the volume is intentionally outward-facing and strives to make clear the diverse and pluralistic contours of the cardinal's nearly unrivaled impact on the North American Church, which truly crossed ideological, denominational, and generational boundaries. While critically recognizing the limits and lacunae of his historical moment, it serves as one among a multitude of testaments to the notion that the ripples of Avery Dulles's influence continue to widen toward intellectually distant shores.

Inside the Vatican Thomas S.J. Reese, 1998-02-19 A comprehensive examination of the world's most complex religious organization. There are one billion Catholics in the world today, spread over every continent, speaking almost every conceivable language and all answering to a single authority. The Vatican is a unique international organization, both in terms of its extraordinary power and influence and in terms of its endurance. Popes come and go, but the elaborate and complex bureaucracy called the Vatican lives on. For centuries, it has served and sometimes undermined popes; it has been praised and blamed for the actions of the pope and for the state of the church. Yet an objective examination of the workings of the Vatican has been unavailable until now. Drawing on more than a hundred interviews with Vatican officials, this book affords a firsthand look at the people, the politics, and the organization behind the institution. Thomas Reese brings remarkable clarity to the almost Byzantine bureaucracy of congregations, agencies, secretariats, tribunals, nunciature, and offices, showing how they serve the pope and through him the universal church. He gives a lively account of how popes are elected and bishops appointed, how dissident theologians are disciplined, and how civil authorities dealt

The Church's Other Half Trevor Beeson, 2013-01-03 Women have always constituted at least half of the church's membership but for almost 2 000 years were excluded from any significant part in its leadership After the example of Jesus the earliest Christian communities were wholly inclusive in their organisation but a patriarchal model derived from the pattern of the secular Greco Roman societies was soon adopted This restricted women to subordinate roles from which the struggle to escape continues
