Radical Theology The Death Of God:

Resurrecting the Death of God Daniel J. Peterson, G. Michael Zbaraschuk, 2014-04-11 In 1966 an infamous Time magazine cover asked Is God Dead and brought the ideas of theologians William Hamilton and Thomas J J Altizer to the wider public In the years that followed both men suffered professionally and there was no notable increase to the small number of thinkers considered death of God theologians Meanwhile Christian fundamentalism staged a striking comeback in the United States Yet death of God or radical theology has had an ongoing influence on contemporary theology and philosophy Contributors to this book explore the origins influence and legacy of radical theology and go on to take it in new directions In a time when fundamentalism is the greatest religious temptation this volume makes the case for the necessity of resurrecting the death of God

Radical Theology Ingolf U. Dalferth, 2016-07-01 Ingolf U Dalferth develops a radical theology that unfolds the orienting strength of faith for human life from the event of God s presence to every present In a concise and clear manner Dalferth outlines the theological and philosophical approaches to hermeneutics in the modern era in order to promote a convincing and defensible theology for the twenty first century critically carrying on Martin Heidegger and Rudolf Bultmann without forgetting Karl Barth The result of his reconstruction is a radical theology that neither glorifies premodern theology in an antimodern attitude nor seeks a mystical deepening of the secular but argues for a radical change in theological perspective of the possible In doing so theology unfolds limit concepts that restrict the claims of science and philosophy critically and develops ideas of orientation that illumine the ways in which human life is understood and lived in radically new ways in faith From here Dalferth unfolds the reality of revelation and the Christian sense of an unconditional hope that fundamentally transcends all beliefs based on mundane realities and orients the world on something

Radical Theology and Emerging Christianity Katharine Sarah Moody, 2016-03-03 The theological turn in continental philosophy and the turn to Paul in political philosophy have occasioned a return to radical theology a tradition whose philosophical heritage can be traced to the death of God announced in the work of Nietzsche and Hegel John D Caputo's deconstructive theology and Slavoj Žižek's materialist theology are two radical theologies that explore what it might mean to pass through the death of God and to abandon this experience as specifically Christian Radical Theology and Emerging Christianity demonstrates how these theologies are transforming everyday religious practices through an examination of the work of Peter Rollins and Kester Brewin two figures at the radical margins of a contemporary expression of Western religiosity called emerging Christianity The author uses her analysis of all four figures to argue that deconstructive practices can enable religious communities to become part of a wider materialist collective in which the death of God continues to resonate Pushing the methodological boundaries of philosophy of religion by examining religious practices as the site of philosophical signification the book challenges scholars and practitioners alike to a new and more demanding dialogue between theory and practice

The Death of God Movement and the Holocaust Stephen R. Haynes, John K. Roth, 1999-06-30 The Death of God theologians represented one of the most influential religious movements that emerged of the 1960s a decade in which the discipline of theology underwent revolutionary change Although they were from different traditions utilized varied methods of analysis and focused on culture in distinctive ways the four religious thinkers who sparked radical theology Thomas Altizer William Hamilton Richard Rubenstein and Paul Van Buren all considered the Holocaust as one of the main challenges to the Christian faith Thirty years later a symposium organized by the American Academy of Religion revisited the Death of God movement by asking these four radical theologians to reflect on how awareness of the Holocaust affected their thinking not only in the 1960s but also in the 1990s This edited volume brings together their essays along with responses by other noted scholars who offer critical commentary on the movement's impact legacy and relationship to the Holocaust

Thinking Jewish Culture in America Ken Koltun-Fromm, 2013-12-11 Thinking Jewish Culture in America argues that Jewish thought extends our awareness and deepens the complexity of American Jewish culture This volume stretches the disciplinary boundaries of Jewish thought so that it can productively engage expanding arenas of culture by drawing Jewish thought into the orbit of cultural studies The eleven contributors to Thinking Jewish Cultures together with Chancellor Arnold Eisen's postscript position Jewish thought within the dynamics and possibilities of contemporary Jewish culture These diverse essays in Jewish thought re imagine

cultural space as a public and sometimes contested performance of Jewish identity and they each seek to re-enliven that space with reflective accounts of cultural meaning How do Jews imagine themselves as embodied actors in America Do cultural obligations limit or expand notions of the self How should we imagine Jewish thought as a cultural performance What notions of peoplehood might sustain a vibrant Jewish collectivity in a globalized economy How do programs in Jewish studies work within the academy These and other questions engage both Jewish thought and culture opening space for theoretical works to broaden the range of cultural studies and to deepen our understanding of Jewish cultural dynamics *Thinking Jewish Culture* is a work about Jewish cultural identity reflected through literature visual arts philosophy and theology But it is more than a mere reflection of cultural patterns and choices the argument pursued throughout *Thinking Jewish Culture* is that reflective sources help produce the very cultural meanings and performances they purport to analyze

The Christian Witness in a Secular Age Donald G. Bloesch, 2002-01-02 This volume presents an evangelical appraisal of modern theological thinking It examines the views of nine leading theologians on the apologetic task today from Karl Barth and Reinhold Niebuhr to Harvey Cox and Thomas Altizer The strengths and weaknesses in the theology of each are set forth It is the author's contention that modern apologetics is often anchored in the spirit of the age and the values of the culture rather than in biblical revelation This book calls on Christians to place their trust not in imperfect human reason but in God's self-revelation in Christ which can be discerned only by faith

Decentering Discussions on Religion and State Sargon George Donabed, Autumn Quezada-Grant, 2015-04-09 This volume explores dynamic conversations through history between individuals and communities over questions about religion and state Divided into two sections our authors begin with considerations on the separation of religion and state as well as Roger Williams' concept of religious freedom Authors in the first half consider nuanced debates centered on emerging narratives with particular emphasis on Native America Early Americans and experiences in American immigration after Independence The first half of the volume examines voices in American History as they publicly engage with notions of secular ideology Discussions then shift as the volume broadens to world perspectives on religion-state relations Authors consider critical questions of nation, religious identity and transnational narratives The intent of this volume is to privilege new narratives about religion-state relations Decentering discussions away from national narratives allows for emerging voices at the individual and community levels This volume offers readers new openings through which to understand critical but overlooked interactions between individuals and groups of people with the state over questions about religion

The Scandal of Sacramentality Brannon Hancock, 2014-03-17 The sacrament par excellence the Eucharist has been upheld as the foundational sacrament of Christ's Body called Church yet it has confounded Christian thinking and practice throughout history Its symbolism points to the paradox of the incarnation death and resurrection of God in Jesus of Nazareth which St Paul describes as a stumbling block skandalon Yet the scandal of sacramentality not only illustrated by but enacted in the Eucharist has not been sufficiently accounted for in the

ecclesiologies and sacramental theologies of the Christian tradition Despite what appears to be an increasingly post ecclesial world sacrament remains a persistent theme in contemporary culture often in places least expected Drawing upon the biblical image of the Word made flesh this interdisciplinary study examines the scandal of sacramentality along the twofold thematic of the scandal of language word and the scandal of the body flesh While sacred theology can think through this scandal only at significant risk to its own stability the fictional discourses of literature and the arts are free to explore this scandal in a manner that simultaneously augments and challenges traditional notions of sacrament and sacramentality and by extension what it means to describe the Church as a eucharistic community
