Radio Frequency Response Card F Humanities Titles Only:

The Historical Web and Digital Humanities Niels Brügger, Ditte Laursen, 2019-03-07 The Historical Web and Digital Humanities fosters discussions between the Digital Humanities and web archive studies by focussing on one of the largest entities of the web namely national and transnational web domains such as the British French or European web With a view to investigating whether and how web studies and web historiography can inform and contribute to the Digital Humanities this volume contains a number of case studies and methodological and theoretical discussions that both illustrate the potential of studying the web in this case national web domains and provide an insight into the challenges associated with doing so Commentary on and possible solutions to these challenges are debated within the chapters and each one contributes in its own way to a web history in the making that acknowledges the specificities of the archived web The Historical Web and Digital Humanities will be essential reading for those with an interest in how the past of the web can be studied as well as how Big Data approaches can be applied to the archived web As a result this volume will appeal to academics and students working and studying in the fields of Digital Humanities internet and media studies history cultural studies and communication
