Radio Nation Communication Popular Culture And Nationalism In Mexico 1920 195:

Indigenous Intellectual Property Rights Mary Riley, 2004 Riley and her group of expert contributors supply a unique set of worldwide case studies and policy analyses as guidance for indigenous communities and their partners in attempting to protect their intellectual property. Much of the existing literature already addresses the poor fit between western regimes of intellectual property rights and the requirements for safeguarding indigenous cultural resources. The manuscript gets beyond these negative claims in depicting positive efforts at protecting indigenous knowledge and cultures notwithstanding these legal limitations. The reader is exposed to a wide array of legal, political, organizational, and contractual strategies deployed by indigenous groups to protect their intellectual property interests. *Unrevolutionary Mexico* Paul Gillingham, 2021-05-25 An essential history of how the Mexican Revolution gave way to a unique one party state. In this book Paul Gillingham addresses how the Mexican Revolution 1910-1940 gave way to a capitalist dictatorship of exceptional resilience where a single party ruled for seventy one years. Yet while soldiers seized power across the rest of Latin America in Mexico it was civilians who formed governments moving punctiliously in and out of office through uninterrupted elections. Drawing on two decades of archival research Gillingham uses the political and social evolution of the states of Guerrero and Veracruz as starting points to explore this unique authoritarian state that thrived not despite but because of its contradictions. Mexico during the pivotal decades of the mid twentieth century is revealed as a place where soldiers prevented military rule, a single party lost its own rigged elections, corruption fostered legitimacy, violence was despised but decisive, and a potentially suffocating propaganda coexisted with a critical press and a disbelieving public. meXicana Roots and Routes Vanessa Fonseca-Chávez, Anita Huízar-Hernández, 2025-09-23 Community voices are often an underrepresented aspect of our historical and cultural knowledge of the U S Southwest. In this collection established and emerging scholars draw upon their rootedness in the U S Southwest and U S Mexico borderlands. The meXicana contributors use personal and scholarly inquiry to discuss what it means to cultivate spaces of belonging, navigate language policies, and explore and excavate silences in various spaces among other important themes. From the recruitment of Latinas for the U S Benito Ju rez Squadron in World War II to the early twentieth century development of bilingual education in Arizona to new and insightful analyses of Bracero Program participants and their families, the book details little known oral histories and archival material to present a rich account of lives along the border with emphasis on women and the working class. As the inaugural publication of the Arizona Crossroads series, readers will find Arizona featured as a central node of borderlands roots and routes. Each section of the book intentionally centers Arizona within broader comparative and cross state dialogues alongside chapters that reflect regional concerns in other southwestern states including Texas, California, Colorado, and New Mexico. Throughout this volume highlights the ways in which personal experience, community building, and scholarly perspectives can provide a powerful space for community voices.
