social and cultural integration in their receiving societies and recognition within the official and canonical national history. Traditional scholarship has paid special attention to the construction of collective memory and the dilemma of double identity. Nonetheless, the transforming notion of otherness in the last few decades, associated traditionally with the Jewish character, requires a new approach when discussing contemporary affiliations of Jews in Argentina and their narrative representations. New waves of emigration from Argentina at the beginning of the new millennium, economic and social disintegration, general disillusion with the state apparatus and the gaps left in the collective memory following the years of the military dictatorship, redefine personal and collective identities and demand a careful reexamination of the concept of *argentinidad* and its cultural significances.

**A History of Argentine Literature** Alejandra Laera, Mónica Szurmuk, 2024-05-16 Argentine Literature continues to figure prominently in academic programs in the English speaking world and it has an increasing presence in English translation in international prizes and trade journals. *A History of Argentine Literature* proposes a major reimagining of Argentine literature attentive to production in indigenous and migration languages and to current debates in Literary Studies. Panoramic in scope and incisive in its in-depth studies of authors' works and theoretical problems, this volume builds on available scholarship on canonical works but opens up the field to include a more diverse rendering as well as engaging with the full spectrum of textual interventions from travel writing to drama from popular *gauchesca* to celebrated avant-garde works. Working at the crossroads of disciplines, languages and critical traditions, this book accounts for the wealth of Argentine cultural production and maps the rich, diverse and often overlooked history of Argentine literature.

**Madness and Irrationality in Spanish and Latin American Literature and Culture** Lloyd Hughes Davies, 2020-06-01 The subject matter is topical; madness has universal and enduring appeal. The positive aspects of the irrational, particularly its potential for cultural renewal, are given more prominence than has been the case in the past. The coverage is wide-ranging; new critical angles enrich our understanding of major writers while the appeal of lesser-known figures is highlighted often by means of a comparative perspective.

**Politics and Urban Growth in Buenos Aires, 1910-1942** Richard J. Walter, 2003-10-16 This book, first published in 1994, describes the development of Buenos Aires during the period from 1910 to the early 1940s, focusing on the role of politics and local government in the evolution of the city.

**Transatlantic Studies** Cecilia Enjuto Rangel, Sebastiaan Faber, Pedro García-Caro, Robert Patrick Newcomb, 2019 This book emerges from and performs an ongoing debate about transatlantic approaches in the fields of Iberian, Latin American, African and Lusophone Brazilian studies. In thirty-five short essays, leading scholars reframe the intertwined cultural histories of the transnational spaces encompassed by the former Spanish and Portuguese empires.

**Critique of Latin American Reason** Santiago Castro-Gómez, 2021-09-21 *Critique of Latin American Reason* is one of the most important philosophical texts to have come out of South America in recent decades. First published in 1996, it offers a sweeping critique of the foundational schools of thought in Latin American philosophy and critical theory. Santiago Castro-Gómez argues that Latin America is not so much a geographical entity as a

culture or a place but rather an object of knowledge produced by a family of discourses in the humanities that are inseparably linked to colonial power relationships Using the archaeological and genealogical methods of Michel Foucault he analyzes the political literary and philosophical discourses and modes of power that have contributed to the making of Latin America Castro G mez examines the views of a wide range of Latin American thinkers on modernity postmodernity identity colonial history and literature also considering how these questions have intersected with popular culture His critique spans Central and South America and it also implicates broader and protracted global processes This book presents this groundbreaking work of contemporary critical theory in English translation for the first time It features a foreword by Linda Martín Alcoff a new preface by the author and an introduction by Eduardo Mendieta situating Castro G mez's thought in the context of critical theory in Latin America and the Global South Two appendixes feature an interview with Castro G mez that sheds light on the book's composition and short provocations responding to each chapter from a multidisciplinary forum of contemporary scholars who resituate the work within a range of perspectives including feminist Francophone African and decolonial Black political thought

**The Slum and the City** Agnese Codebò, 2024-07-15 The Argentine capital is largely perceived as a middle class space Yet in reality urban poverty and precarious settlements are defining features of the city Agnese Codebò investigates how slums have produced culture as well as their representation in literature and the visual arts from the 1950s to the present Looking at government led urban projects as well as novels artworks films militant magazines poems and music she tells the story of how villas miserias have mattered culturally and socially as spaces that produce new aesthetics cultural trends and social alliances while offering a vantage point to understand the city and its problems Slums represent a heterogeneous urban space and Codebò makes the case for their relevance in Argentine culture demonstrates the need to rethink spaces of production and develops a new premise for a decolonial approach to Argentine cultural production
