Raf Coastal Command Lobes:

RAF Coastal Command in Action, 1939-1945 Roy Conyers Nesbit, 1997 During World War II the aircraft and crews of RAF Coastal Command played a vital role of patrolling and defending the waters around Great Britain against enemy air and naval forces These included everything from long range fighters and patrol aircraft like Junkers Ju88 and Focke Wulf Fw200 Kondor to marauding U boats E boats and warships Technical Data Digest ,1948 *Confidential Documents* United States. Army Air Forces, United States. Document Service Center, Dayton, Ohio, 1948 The Aeroplane and Commercial Aviation News ,1947 **Stations Of Coastal Command** David Smith, 2016-02-28 Coastal Command created in 1936 alongside Fighter and Bomber Commands in the reorganization of the RAF in its preparations for the coming war was Britain's mainstay in the battle against the German submarine As more and more Allied merchantmen were sunk during the long voyage from North America the Mediterranean and points south tracking down the U Boats became a constant struggle against harsh weather on long distance patrols out over the Atlantic and Bay of Biscay To counter the threat Coastal Command established a ring of bases stretching from Scotland and Northern Ireland to Iceland and from south Wales and south western Britain to Gibraltar and the Azores all 53 of these stations are covered in this book **The Aeroplane** ,1947

A Dictionary of Coastal Command, 1939-1945 Geoff Simpson, 2016-07-31 This illustrated A to Z reference offers comprehensive information on the role of the Royal Air Force Coastal Command in WWII Known as Kipper Fleet within the RAF Coastal Command often lacked sufficient resources compared with other home commands giving it its other nickname of the Cinderella Service Its main role was to protect Britain's vital sea borne supply lines from the English coast to the Mediterranean the Middle East and Africa Coastal Command also went on the offensive particularly in the so called Battle of the Barges in 1940 which helped deter Hitler from invading the UK and in the Mediterranean and the Baltic attacking German shipping But Coastal Command is perhaps best known for the war against the U boats one that was eventually won This fully illustrated volume tells the story of RAF Coastal Command chronicling its gallantry achievements and losses as well as its Victoria Crosses aircraft and much else **RAF Coastal Command** Keith Wilson, 2020-11-15 RAF Coastal Command was founded as a formation within the Royal Air Force in 1936 at a time when the RAF was restricted into Fighter Bomber and Coastal Commands *Royal Air Force Coastal Command* John Campbell, 2013-10-20 Royal Air Force Coastal Command was the organisation charged with keeping the sea lanes clear around the coasts of Britain for the best part of half a century from immediately after the First World War until the 1960s In the decades after the Second World War John Campbell served as a Coastal Command navigator and crew captain on Shackleton aircraft in the Maritime Patrol role Having studied in great detail the history and development of Coastal Command he has researched and written this thorough account of its activities throughout its years of operation **The Cinderella Service** Andrew Hendrie, 2010-02-28 This book reveals the vital contribution that RAF Coastal Command made to the Allies war effort Although often referred to as the Cinderella Service

because by its nature it did not gain the recognition it deserved and was overshadowed by Fighter and Bomber Commands and considering that it was not given priority in terms of aircraft and equipment its wartime record was second to none The two main roles of Coastal Command were anti submarine work in the Atlantic and anti shipping operations against enemy warships and merchant vessels This work looks at every aspect of the command s work equipment and aircraft and draws upon many first hand accounts Lengthy and comprehensive appendices cover Orders of Battle Commanders U Boats sunk and ships sunk aircraft losses and casualties AUTHOR Andrew Hendrie has had several books published on WWII aviation including *The Hudson* and *The Sutherland* He served in Coastal Command from 1939 and flew operationally from 1942 to 1945 This book is based on a thesis that he completed for a PhD just prior to his recent death SELLING POINTS Author flew with Coastal Command in WWII Covers all operations theatres Full description of aircraft ILLUSTRATIONS 100 illustrations
