Railroads Don Ball,1991-05-01 A celebration of the great railways of America begins with the steam locomotives of the past and concludes with today s powerful streamlined machines **Railroads** Don Ball (Jr.),1975 Don Ball has been fascinated by railroads all his life In this book he describes his journey in both words and a distillation of the thousands of superb photographs he has made supplemented by those of many equally devoted rail photographers In this volume which complements his earlier Portrait of the Rails Don Ball plunges into real railroad country far from the beaten path He highlights his own railroad adventure really the story of his life beginning with a nostalgic recollection of his small town Kansas boyhood Through the years that followed he combed nearly every state to photograph the last mainline steam locomotive or to get an elusive shot of some short line railroad Along the way the author s informed view of the present and future of railroads emerges A lifelong observer of the railroad scene he offers practical suggestions and a bold vision of what may lie ahead In this re creation of both the romantic moods and workaday world of America s railroads Don Ball s eye for drama and profound knowledge of railroading make each picture tell a story **An American Journey by Rail** Dudley Witney,Timothy C. Geographies of Travel Susan L. Roberson, 2025-05-01 Travel writing was the most popular genre of writing in the nineteenth century Initially published in newspapers and journals as dispatches from the road these works allowed readers to join in on fabulous adventures by becoming armchair tourists second hand voyeurs of the peoples and places the writer visited In order to take readers along on their journeys travel writers typically recorded miles covered and dates of travel in a log or diary They also documented key details of the experience itself describing the conditions of the road the people they met and their accommodations food and clothing The nineteenth century specifically offered a form of travel writing that commented on the ruined environment that ran afoul of the century's ethos of progress with voices such as Henry David Thoreau John Muir and John James Audubon exploring a newfound environmental consciousness *Geographies of Travel* is organized geographically by region with essays examining local journeys in the Northeast Midwest Far West and the South This regional arrangement allows readers to consider the geographic imagination of each region and the kinds of travel it invited as well as providing valuable insight on the ways in which Americans reacted to both natural and social regional landscapes Each region is treated chronologically so as to interrogate not only individual narratives but also the ways that travel tourism and modes of transportation evolved over time The work concludes with an examination of Henry James's *The American Scene* in a coda that brings together his astute observations of the Northeast and the South at the turn of the

century Occasional interludes point to the ways that travel reverberates in the artistic work of some of the authors making connections between travel and the imagination
